The man who loses his vote carelessly or because he don't care enough about it to go to a little trouble, is a poor citizen and usually the one who does the most "snealing" about the government.

Next Monday is registration day. YOU MUST REGISTER. In some counties where the poll books were preserved only those who have not registered need to register again this year, but in this as well as most of the counties, every one must register. Don't say you didn't understand it. Register next Monday or you can't vote. In case you cannot be at home that day, see your committeeman and arrange to register by affidavit.

Voters of Adams county should register next Monday. If you don't you can't vote. Every one must register either by affidavit or in person and there is no backing up. In other counties this is not necessary, but here you must register whether you have done so before or not. Don't over-

look it or you lose your vote.

John A. M. Adair, the next governor of Indiana, is touring this county today and will speak at the court house at 7:30 this evening. His tour over Indiana has been a most successful one, great crowds hearing him everywhere. He has represented this district in congress for ten years and needs no introduction to our people. He will come to you today with the straight story of an honest man, discussing the issues of the important campaign. Every voter should hear him.

When Candidate Hughes came to Decatur he traveled in a fine train, the very finest in all the land, eleven coaches, including three baggage cars. It costs a fortune to operate that train each day. We are not objecting to a man traveling as well as he wants to if he pays the bill, but the trouble is that Hughes don't pay these bills. His fine train is but a part of the elaborate expenditure of money being made by the millionaire crowd which is backing him. What use have they for the common man, except during election time?

Roosevelt "skinned 'em alive" at Battle Creek Saturday, as advertised, let those who heard him know that he thought the United States should have interfered with Germany when they entered Belgium, that we ought to go to war with Mexico, that we ought to fight somebody right away—and he is to be a member of the Hughes cabinet if the latter should be fortunate enough to have any cabinet jobs to hand out. Well, if he is, those who are crying for war will get it very likely and a darn lot quicker than you want it. How any one can turn from Wilson, the careful, wise and safe man, as the head of the government, who has guided safely through troubled waters, the ship of state, kept us out of war and kept the machinery running smoothly, so that we are now the most prosperous ever known—how any one can turn, we say, from this great man, to any one backed by the wild and woolly Roosevelt, who admits that he favors a turmoil, is more than we can understand. Wilson is the friend to all the people and has proven it. What more can you want? We believe the president will be re-elected and will carry nearly every state in the union.

A crowd of several thousand gathered in the little agricultural center early in the day to await the coming of the candidate. The largest hall in the town was overcrowded and more than a thousand were forced away by the police. One of the largest and noisiest parades in Indiana's history was held Saturday night just before the speech. Thousands were in line, bands blared, lights flared and democracy had the whole town.
