COONY'S CIGARS

FIVE CENTS STRAIGHT IN THE
FUTURE.

Owing to increase of wages to our
cigarmakers and the increased cost
of all materials entering into the man-
ufacturing of our cigars, we are com-
pelled to advance our selling prices, to
the dealers, on our various brands.

Excellence of quality and workman-
ship has always been characteristic
of our cigars and under the existing
conditions, to maintain this same high
standard of quality and workmanship
and to prevent the impairing of our
investment, no other alternative is
open to us.

Coony's little Havana and Coony's
Broadleaf will, in the future be sold
to the consumer absolutely at 5 cents
straight. We feel confident that the
smokers of these popular brands, who
have been buying them at six for a
quarter, would rather pay 5 cents
straight than for us to lower the qual-
ity of our goods.

TO THOSE INTERESTED IN SE- CURITY.

Dear Friends:—

Please do not forget to do some
thinking along this line. Have I a
good title to my farm? Have I a
good title to my city property? Have
I an abstract of its title? Was an
abstract ever made of it? How long
have I been in possession? If I have
no abstract, why didn't I insist on
one when I bought? Were the court
proceedings all regular and proper?

Now please remember, now days,
when you sell your property and give
deed the purchaser demands good ti-
tle. Then it is up to you to have
an abstract made and if there are
any defects in your title, to have
them corrected. Why not have that
abstract made now? We will make
it for you at a reasonable charge.
Our office is next door to postoffice.

Respectfully,
THE BOWERS REALTY COMPANY
FRANK M. SCHIRMAYER,
FRENCH QUINN.

DENTAL OFFICES CLOSED

Our offices will be closed from Wed-
nesday noon, October 11th, until Sat-
urday morning, October 14, while we
are attending the Northern Indiana
Dental convention at Kokomo.

5 Passenger 3400 r. p. m. Chalmers—\$1090 Detroit

QUALITY

That is the Real Secret of the 3400 r.p.m. Chalmers Popularity

Whenever you see the Chalmers trade mark you always see the phrase
"Quality First." Whenever you think Chalmers you think "Quality." And
if you have been reading my ads or have been in my salesroom, you are impressed
with the fact that the 3400 r. p. m. is a Chalmers car of unusual quality.

I've often said that it is, in my opinion, the greatest car the Chalmers
Company has built. And I have an excellent reason for saying this. It is a
step ahead of any preceding Chalmers because it performs a shade better.
The Quality in the new Chalmers is the kind of quality that tells on the road
and tells wonderfully.

Now it is just this exceptional quality, just this shade of improvement that
has brought Chalmers sales and production ahead in leaps these 12 months past.

I don't think the men in charge of affairs at the Chalmers factory realized
what they had in the 3400 r. p. m. Chalmers. At any rate they underestimated
the demand. They built more than they had ever produced in any previous
season, 'tis true, but still not enough.

The first making order was snapped up quickly. Then came a second lot.
These went just as fast.

Now the factory is building the third lot and I understand that Chalmers
has no intention of stopping even there. Quality it was that caused this un-
precedented demand. Chalmers certainly have the right idea in building cars.
"Quality First."
