A Discovery about your TEETH

Tonight, if you will closely examine your teeth after brushing them, you will make a surprising discovery. Though you have been cleaning your teeth regularly, you will find an accumulation of tartar on the enamel and bits of food deposit hiding between the crevices. Your dentifrice has not been REALLY CLEANING! Loss of teeth is usually due to one of two conditions—Pyorrhea or Decay—both of which ordinarily develop only in the mouth where germ-laden tartar is present. CLEAN your teeth—REALLY CLEAN them! Senreco, a dental specialist's formula will do it. Senreco embodies specially prepared, soluble granules unusually effective in cleaning away food deposits. Moreover, it is particularly destructive to the germ of Pyorrhea. Go to your dealer today and get a tube of Senreco—keep your teeth REALLY CLEAN and protect yourself against Pyorrhea and decay. Send 4c to Senreco 304 Walnut St., Cincinnati, Ohio, for trial package.

"PREPAREDNESS"
See your dentist twice yearly
Use Senreco twice daily
