The Eighth district was carried in the recent election by President Wilson by about four hundred majority. With a vote of 45,000 cast this makes the old Eighth almost a tie and fighting ground for the next campaign.

The world mourns the death of Jack London, so sudden as to be almost tragic, at his ranch in California. But a few hours he passed the last conscious moments in earth in writing a short story, in which art he was a past master. Though but forty years old he had written scores of wonderful stories of sea voyage, exciting experiences and travels through strange lands, many of which are believed to have been autobiographies. He knew the knack of handling words and whether he wrote a novel, a story or a newspaper article his name at the preface was sufficient guarantee for the ordinary person that it was worth reading. He was undoubtedly one of America's greatest story writers and the stilling of his pen will bring unhappiness to many.

The man who has accumulated a few hundred or a few thousand dollars should bear in mind at this time, especially, that, if he does not look out for his own interests when offered a chance to invest, it is not reasonable to suppose that the seller will look after them for him. When such a man buys securities without first investigating their position, he is a blind speculator, and as such should be prepared to accept cheerfully the gambler's chance. Tales of quick profits made in the market have worked a great deal of evil by influencing people to throw their money blindly into the market with the expectation that it will immediately earn a handsome premium. success of recent new flotations has been so well advertised by those who have gained through them that investors are apparently beginning to throw caution to the winds in the belief that everything brought out will at once appreciate in value. A day of reckoning is ahead for the investor who does not avail himself of his opportunity for making an investigation before buying securities. He should first make sure of the responsibility and good character of the house with which he deals, and he should then temper his banker's recommendations by the exercise of his own judgment.—The Annihilist.

WOULD TAKE WHOLE DAY TO RELATE ALL

Twenty-four Hours Required to Describe Relief Tanlac Gave, Mrs. Edwards Says.

South Bend, Ind., Nov. 23.—"If I was to attempt to describe to you the intense suffering I formerly experienced and my relief since taking Tanlac, it would take me an entire day," Mrs. J. E. Edwards, 1801 Calvert avenue, this city, said on October 26.

"My trouble dates back to a year ago when I suffered a complete nervous breakdown," she continued. "Since then I have been extremely nervous and I have often suffered from sick, nervous headaches. My appetite was very poor and the little food I forced myself to eat wasn't digested properly, severe pains in the pit of my stomach resulting. I also have suffered from rheumatism for quite a while. Excruciating pains came in my back and limbs, causing intense suffering. Sometimes I wouldn't be able to get around at all and would have to lie in bed for days."

"A good friend recommended Tanlac so highly to me that I decided to try it. I've taken one bottle of Tanlac now and I want to say it's just wonderful. The severe rheumatic pains in my back and limbs have disappeared completely. I eat heartily now and I enjoy my meals to the fullest extent. I'm not bothered with pains in my stomach. The sick headaches are a thing of the past. All my friends are noticing the change in my condition and are remarking about it."

Tanlac, the Master medicine, is especially beneficial for stomach, liver and kidney trouble, catarrhal complaints, rheumatism, nervousness, loss of appetite and the like and is a fine tonic.

Tanlac is now being specially introduced and explained in Decatur at the Smith, Yager & Falk drug store.—Adv.

The New Method

(By L. W. Bower, M. D.)

Backache of any kind is often caused by kidney disorder, which means that the kidneys are not working properly. Poisonous matter and uric acid accumulate within the body in great abundance, over-working the sick kidneys, hence the congestion of blood causes backache in the same manner as a similar congestion in the head causes headache. You become nervous, despondent, sick, feverish, irritable, have spots appearing before the eyes, bags under the lids, and lack ambition to do things.

The latest and most effective means of overcoming this trouble is to eat sparingly of meat, drink plenty of water between meals and take a single Anuric tablet before each meal for a while.

Simply ask your favorite druggist for Anuric if you aren't feeling up to the standard. If you have lambozo,

rheumatism, dropsy, begin immediately this treatment with Anuric.

The physicians and specialists at Dr. Pierce's great institution have thoroughly tested this prescription and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys.

Patients having once used Anuric at the institution have repeatedly sent back for more. Such a demand has been created that Doctor Pierce decided to put Anuric in the drug stores of this country, in a ready-to-use form. It will be their own fault if those suffering from uric acid troubles do not take advantage of this wonderful remedy. And to show his sincere faith, this prescription is sold under a guarantee to any person who has taken a full box and has not been helped.

They let you know you've been smoking—and yet they're MILD

In other words, Chesterfield Cigarettes are MILD—and yet they satisfy. This is something totally new to cigarettes. It goes further than pleasing your taste—satisfy does for your smoking what a juicy slice of hot roast beef does for your appetite.

Chesterfields satisfy—they let you know you've been smoking.

But they're MILD, too—Chesterfields are!

If you want this new cigarette delight (satisfy, yet mild) you've got to get Chesterfields, because no cigarette maker can copy the Chesterfield blend. This blend is an entirely new combination of tobaccos and the biggest discovery in cigarette blending in 20 years.
