

Post This Bodyguard Around Your Children

You Can Keep Them Free from
Colds Without Dosing.

These two fine boys have a "Little Bodyguard" to protect them against sudden attacks of cold or cold troubles. Their mother Mrs. C. C. Evinger, 1224 N. 6th St., Terre Haute, Ind., writes—

"I have tried your Vick's Vaporub on my two boys (who are nineteen months and three and

one-half years old respectively), and have found it very satisfactory when they had the croup. The first application helped to loosen the phlegm, making them rest more easily, and they were able to go to sleep. Vick's Vaporub also helped them when they had severe colds. I can recommend it to all mothers."

But the best part about this "Little Bodyguard"—VapoRub, is that it is applied externally and hence can be used freely, with perfect safety, on the smallest child, as often as wished. Three size, 25c, 50c or \$1.00.

BAD BREATH
Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowels and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

SCHOOL IS 200 YEARS OLD

Member of John Brown Raiding Party Taught in Connecticut Institution.

The controversy over the location of the new school building for the Long Hill school district, has brought to light some interesting history in connection with the building of the East Long Hill district, which will be abandoned as soon as the new building is erected. It is probable that this present building is one of the oldest schoolhouses in the state still in use. Old residents of the district claim that it dates back nearly 200 years, and that it is still used shows with what care the building was erected. The building is located on a hill and is built of stone, a rather unusual feature. It is interesting to recall, in connection with the school, that John E. Cooke, one of the members of John Brown's raiding party, and who was later hanged with him, once taught in this school. He was born in Killingworth, and as a young man came to Middletown to teach school. Later on, he went West and became acquainted with the famous liberator, Lyman M. Baldwin, one of the well-known residents of the district, says he has frequently heard his grandfather speak of attending the old stone schoolhouse, and often related a prank which some of his boy companions played there one night. The boys of the neighborhood had been in the habit of gathering in the schoolhouse at night to play cards, their only light being the embers of the fire which had been burning on the hearth during the day. One night some of the mothers of the neighborhood surprised the boys by suddenly appearing. Rather than get caught the boys all jumped out of windows, and then one of them locked the door on the mothers. The result was that the boys were all home in bed by the time the mothers had returned.—Middletown Correspondence Hartford Courant.

WITH THE LOVED "AUTOCRAT"

Life of Oliver Wendell Holmes an Inspiration to All Who Have Read His Writings.

His readers always talk of their "intimacy" with Dr. Oliver Wendell Holmes; they know what kind of person he was as well as what he taught.

They know that he loved rowing and horses and great trees; that he was full of sentiment for his childhood; that he liked men to be strong and sanguine, and honored the weakness of women; that he loathed all gloom and unhealthiness; that charity and tolerance were the virtues he loved, and if one could combine them with wit it was so much to the good.

Above all, one must enjoy life and live to the utmost of one's powers. It reads something like a medical prescription, and one does not want health alone. Nevertheless, when the obvious objections are made, we need not doubt that it will benefit thousands in the future, and they will love the man who lived as he wrote.

Misdirected Ambition.

Love of display—to outshine their neighbors—seems to be the sole ambition of many women. Circumstances do not concern them—they want to get ahead of those around who are more prosperous than they are, and sometimes do get ahead regardless of the fact that they are compelled to go beyond their means to accomplish this end.

Persons whose incomes are limited, or should know, that they cannot imitate those to whom money is a secondary consideration, yet many misguided women, who should count every penny, live or try to live as their well-to-do neighbors. For a time the farce is kept up, but when the crash comes the only real sufferer in the foolish drama is the merchant or firm who extended a line of credit to the woman in the case.—Exchange.

Stimulus of Flowers.

If you have not some growing plants in your living rooms put them in. They tone up a home, give it a kindly temper, inspire a love of nature and cultivate a taste for the beautiful. But more than this—they have a practical value. They create conditions of health. If they flourish, then you have sweeter and purer air to breathe. They take in bad air and give out good. So the family flourishes if the plants flourish. Each plays into the other's hands. But the great thing is in keeping company with nature, which is the finest association that comes into one's self. It is the stimulus of peace, joy, kindness and justice. The angels love a home with growing plants and flowers in it.

Important German City.

With a population of 200,000 of its own and 90,000 in the town of Ludwigshafen, just across the river, Mannheim is not only the chief emporium for all south Germany, handling vast quantities of coal, petroleum, cereals, tobacco, sugar, coffee and timber, but it is also a great manufacturing center with chemical works, electric machinery plants, iron foundries and automobile factories. At the head of important navigation of the Rhine, it is not only the leading city of the upper river, but is surpassed only by Cologne along the lower Rhine.

Scented Seaweed.

Violet-scented seaweed grows in the lakes of the Manxishak peninsula, in the Caspian sea, and the pleasant odor therefrom scents the air for miles around.
