The meeting of the guarantors for the new high school will meet again tonight and it is probable that from the action taken at this time will be determined whether or not the new building be started at this time. It means a years delay if put off and it is important for many reasons that this not be done unless absolutely necessary. The children need the new school and the community needs to be kept alive and progressive. You should by all means be at this meeting.

The people of this community will be given the opportunity Wednesday afternoon to hear Claude Bowers, brilliant editorial writer of the Fort Wayne Journal-Gazette and one of Indiana's gifted sons. He will deliver the oration of the day at the Fourth of July picnic and you will profit much by hearing him. At the recent editorial meeting at Indianapolis this talented orator brought every body who heard him to their feet cheering wildly and he will bring to our good people a message just as forceful and logical.

The democratic editors enjoyed a two days' outing at Indianapolis last week, the program including a reception at the Indiana Democratic club, a business session, a trip to Fort Benjamin Harrison and a banquet at Fairview park, the occasion being one of the most delightful in the history of this greatest newspaper association of the middle west. President Henry Wilson, of the Delphi Citizen-Times presided and he proved himself worthy of a worth while reputation, aside from being "Crampton's son-in-law" or "Mindwell's husband." Address by Mr. Crampton, Mr. Slinkard and

Mr. Bowers were inspiring and were enjoyed by every editor and guest. Members of the Indiana Democratic club made a special effort to assist in the entertaining and they certainly made good.

A Canadian, who served as an officer in the army in No Man's Land, and who was severely wounded, now well, addressed a crowd at Fort Harrison the other afternoon and devoted much time to praise for the work of the Red Cross. He made the startling statement that 97 per cent of the men wounded and who are found in reasonable time by the Red Cross, recover. He also said that in every battle, soldiers of the allies lay quiet for hours hoping to be picked up by the Red Cross in preference to being taken prisoner by the Germans. The soldiers have implicit faith in the Red Cross and it is easily the most popular organization in the war territory. Every dollar given for this cause and every assistance given them is a real act of charity, an investment that will bring actual and profitable returns.

RACE RIOT IS ON

Thousands Are Fighting in the Streets of East St. Louis, Ill., Today.

SEVERAL ARE KILLED

And Grave Trouble is Feared Tonight—Militia on Hand But Powerless.

(United Press Service)

East St. Louis, Ill., July 2—(Special to Daily Democrat)—Although militiamen were patrolling the streets today, race rioting continued in broad daylight. Three negroes have been shot by mobs which gathered in many sections of the city and defied the police. "Kill the 'niggers' or get them out of town," the mob shouted, as they rushed the police reserves in the down-town districts after the officers had arrested two white men, suspected of shooting a negro. The police were overpowered and the men rescued. Several companies of police have already arrived and additional units are expected. Grave trouble is feared tonight. Five thousand people are in the mob which is tracing negroes from the "black" district where one policeman was killed and five others injured when negroes fired into an automobile filled with policemen.

THE UNION SERVICE

The union service participated in by the churches of the city at the Presbyterian church Sunday evening was largely attended, the edifice being almost entirely filled. The next union service will be at the Methodist church next Sunday evening, in charge of Rev. Stoltz of the German Reformed church, with an address by Miss Esther Sellemeyer, who soon goes to a foreign field as a missionary.

Quality and Service

We are not the oldest tire manufacturers in the country; we are not the largest. Nor is it necessary for us to be the oldest and the largest in order to excel in the production of good tires.

Yet, when we started to make tires several years ago, we had the advantage of over fifty years' experience in the manufacture of high class rubber goods, unexcelled factory facilities and expert workmen.

CARSPRING TIRES combine everything that is desirable in an Automobile Tire. Our tires are not only made to sell, but to maintain our reputation by giving uninterrupted and maximum service.

We not only want to sell to you once, but always. There is nothing so convincing as a trial; put us to the test by sending us your next order, you will not regret it.

THE SCHAFFER HARDWARE CO. here in Decatur has our agency and can supply you at all times with any and all styles and sizes.

Two Thousand Throats Cheer as Flag is Raised at Pleasant Mills.

SUNDAY AFTERNOON
Big Patriotic Meeting Held There—Many Fine Features of Program.

With cheers from two thousand throats the magnificent "Old Glory" that will float over Pleasant Mills "officially" was raised Sunday afternoon to its ninety two-foot height, the flag raising being accompanied by impressive ceremony.

Rev. Conway, pastor of the Pleasant Mills Methodist church, was chairman of the exercises, and also gave one of the addresses. Hon. D. B. Erwin, of Decatur; and Dr. Harry Jones, of Berne, were also speakers. The addresses abounded in sentiment appropriate to the occasion and received continuous applause.

Music was furnished by the Willshire band; the colored quartet from Wren, O.; and by Miss Gladys McMillen, who sang "The Star Spangled Banner" with a pantomime illustration thereof by Miss Neva Acker. A recitation by Miss Flossire Everett was also very pleasing. A bevy of eight or ten little girls carried the flag to the scene of the raising.

PLANS ANNOUNCED FOR THE CONSCRIBED MEN

(Continued from Page One)

Wilson will create a national board to hear the occupational appeals.

The regulations give the president authority to determine from time to time what general classes of industries are necessary to maintenance of the military establishment. These classes will be announced by proclamation. The district boards are ordered to ascertain the existing conditions of industry in their districts to aid in making equitable exemptions.

Another proclamation to follow within a few days will make the law governing the final step of the draft—assembling the men and calling them into camps.

On any disputed decision of the board the majority rules. Members are barred from taking part in any hearings that concerns any relative closer than a second cousin.

In case of doubt in physical examinations as to whether the man is unfit, the government is given the benefit of the doubt and the man is certified as "fit."

To guard against partiality, every case of an exemption by a lower board is appealed automatically to the upper tribunal. Unless new evidence is presented after a short time the higher board will affirm the decision. This method gives the public in general an opportunity to present evidence favoring or opposing the decision.

Heavy penalties are imposed for making false statements or any evasion of the requirements of the regulations. Imprisonment for not more than one year without the alternative of a fine is provided for evasion.
