Entered at the postoffice in Decatur, Indiana, as second-class matter.

A big fine day with many things to be thankful for. The crops are coming along, the weather is fine, the health of the community is better than usual. Keep cool, control your temper, don't start something just for the fun of starting it. Some day everything will be right.

The garden campaign seems to have worked and nearly every one in this community can now secure a good meal from their back yard, but how about next winter? Don't you think you ought to put away at least enough produce for your own use? Sell the rest or give it away, but don't let it go to waste.

While it is to be expected that there will be more or less contesting, complaining and objecting to the rulings of the exemption boards, the rules as laid down by the provost marshal and those under him, will very probably be found to be about as near right when every curve and angle is considered as will be possible. If there are any places where corrections should be made, we venture the assertion that this will be done and after the big job is over, it will be admitted to have been well planned. Keep cool.

Breathitt county, Kentucky, is a small county, not as large as this with a total quota for the army draft of 182 men. It is the county you read about so often a few years ago when the big fued was on and where a shooting occurred every day or two. When the officials checked up volunteer enlistments there they discovered that the little county had already furnished 212 men for the regular army, which leads the New Castle Times to remark "the men there seem to have shot each other just because they like to shoot."

Work on the new high school in this city will start within a few days, the men in charge being now on the job. Don't forget that arrangements must be made within the next few months to add to the contract one for the addition of an auditorium and gymnasium. It is an opportunity that the community cannot afford to overlook. If times settle down so that the financing of this proposition is possible in any way, we believe our good people will quickly respond to a call for this necessary community center being built and built right.

Mrs. Herb Steele and babe went to Fort Wayne this afternoon to visit with her husband who is employed there. They will move to Ft. Wayne in about two weeks. They were accompanied by her sister, Mrs. V. G. Shifferly, who will also visit in Fort Wayne over Sunday.

THE MYERS-DAILEY COMPANY

DOINGS IN SOCIETY

WEEK'S SOCIAL CALENDAR.

Tuesday

U. B. Aid—Mrs. F. H. Harmon.
Wednesday

Reformed C. E. Lawn Social—Water works Park.

HE THAT LOVES A ROSY CHEEK.

He that loves a rosy cheek

Or a coral lip admires

From starlike eyes doth seek

Fuel to maintain his fires,

As old Time makes these decay,

So his flames must waste away.

But a smooth and steadfast mind,

Gentle thoughts and calm desires,

Hearts with equal love combined,

Kindle never dying fires—

Where these are not I despise

Lovely cheeks or lips or eyes.

—THOMAS CAREW.

Miss Mabel McLaughlin, of Elkhart, visited here with Mrs. Mary Parrish and daughters, Ruth and Mrs. Dick Longshore.

Robert Moyer and Mr. and Mrs. Lee Swygart were initiated by the Ben Hurs last evening, a most enjoyable meeting being held.

Mr. and Mrs. H. F. Dauer left this morning for Fort Wayne to attend the eighth annual reunion of the McKee family, at Swinney Park. Both dinner and supper will be served in the park. Mr. and Mrs. Dauer will remain in Fort Wayne with relatives until Sunday evening.

At the meeting of the Christian Par-torial Helpers at the home of Mrs. Will Engle yesterday, plans were completed for the knitting of the socks for soldiers. Yarn will be secured and the knitting will begin at once.

Every member of the United Brethren Ladies' Aid and also of the church is urged to attend the special meeting at the home of Mrs. F. H. Harmon Tuesday afternoon at two o'clock. Matters relating to taking up Red Cross work will be discussed.

Miss Mabel Mertifield, of Ft. Wayne, is here for a visit with her uncle, Henry Schulez and family. She will leave Monday for Muncie.

Mr. and Mrs. Fred Jaebker, Misses Luella Heckman and Marie Boese will motor to New Bremen, O., Sunday to visit with Mr. and Mrs. George Blase. Mrs. Blase was formerly Miss Anna Boese who was recently married. Miss Marie Boese will remain for a week's visit with her aunt.

The Mite society of the M. E. church met with Mrs. D. H. Hunsicker, assistant hostesses being Mrs. Burt Hunsicker and Mrs. Oral Johnston, yesterday afternoon. The entire time was given over to sewing for Red Cross convalescents' robes being made.

Rev. and Mrs. W. Paul Marsh and daughter, Emma Madeline, and Mrs. Marsh's brother, Homer Bartlett, of near El Campo, Texas, spent a few days at Montezuma, O., with their uncle and aunt, Mr. and Mrs. Stephen Gray. Rev. Marsh returned home today and the others will remain over Sunday.

Wednesday evening, August 1st, the Christian Endeavor society of Zion Reformed church will give a lawn social at Waterworks park. A refreshment stand, candy stand and a country store will make up the attraction. Young and old of the Zion Reformed church will spend an evening in the park and invite their friends to spend it with them.

IN LINE FOR STATE CHAIRMAN

(United Press Service)

Indianapolis, July 27—Democratic leaders here are speculating with considerable interest in the probable choice of a successor to Democratic State Chairman Charles A. Greathouse who announced his resignation last week, following his appointment by President Wilson as a member of the federal commission on vocational education. A new chairman, it is believed, will be elected at the next meeting of the state committee.

James R. Fleming, of Portland, who was candidate for the chairmanship at the time Greathouse was named, only a few weeks ago, is no longer in the field, it became known. His friends declare positive that Fleming will not consider the post now, having decided to remain in private business.

Best information among the leaders here seems to point to the selection of Walter S. Chambers, of Newcastle. Chambers has declared that he would not accept the appointment, but those men who are intimate with him believe he can be induced to direct his party's affairs if such a course is sufficiently urged upon him.

Others named in connection with the appointment include W. H. O'Brien of Lawrenceburg and Dale J. Crittenden, of Anderson.

SAMMIES GET SOME BUMPS

(United Press Service) Permanent camp of the American expeditionary army in France, July 28—(Special to Daily Democrat)—Pershing's Sammies are getting so thoroughly enthusiastic about their "school for war" that minor injuries are common as a result of too realistic mimicry of trench conditions.

Several officers and men have been treated for insignificant hurts. The daily drills are now on a competitive basis and the rivalry between units is extremely keen. Meanwhile the arm is being whipped rapidly into shape.

Today the "hardening" process took the form of test foot races and jumping—a sort of athletic field day which the Sammies enjoyed hugely.

The division staff headquarters to day issued warning against careless handling of grenades following painful injuries inflicted on an infantry private earlier in the morning. The Sammy was struck on the head with an unloaded grenade thrown by a comrade. He fell unconscious and was taken to the hospital. His injuries are not believed fatal.

COURT HOUSE NEWS

Fishing and hunting licenses were issued to John H. Schug and V. E. Haeger.

A marriage license was issued this afternoon at three o'clock to John Reynolds and Miss Mary Whittenberg er.

BERNE COMMITTEE HERE.

A committee of citizens from Berne and vicinity came to this city yesterday afternoon, following a meeting held there Thursday evening to advertise a mass meeting to discuss plan for opposing the rule which exempts those of certain religious belief. After talking with several citizens here I was decided to postpone the meeting until further information is received concerning the matter, though it is likely that such a gathering will be called for some evening next week.

The men are not excited and do not threaten in any manner but they feel the ruling is unfair and will if there is any course open, present their side to the exemption board here as well as the district board. The board will follow the law and though some rules may seem unfair we have great faith in those officials who are trying to do the very best they can and we believe it will all work out the best.

The date will be announced as soon as the matter has been definitely decided.

SON IN FRENCH TRENCHES

(United Press Service)

Hartford City, July 27—Parents of Chappie Hollingshead, a Hartford City boy, who has been fighting with Canadian troops "somewhere in France," have received official notice that their son was wounded in a recent action on the western front. The boy received an ugly shrapnel wound in the head, and is now at a Canadian base hospital.

ANOTHER OPERATION

Another of the operations for the removal of adenoids and tonsils, which have been numerous during this school vacation, was performed this morning, the patient being eight year old Margaret, daughter of Mr. and Mrs. Bert Haley. She will recover nicely.

RED CROSS TO USE

AMERICAN WAR DOGS

(United Press Service)

Washington, D. C., July 27—(Special to Daily Democrat)—The American dog is going to do his bit in the war. Red Cross canines are in big demand on the western front. Wearing gas-masks, they go out between the trenches and locate unconscious wounded men in piles of dead.

The Red Cross establishment which will care for American wounded when the national army start pounding the kaiser would be incomplete without its quota of dogs. Plans are under way to have Uncle Sam's how-wows take their places in the fighting line beside those of France and Great Britain, some of which have actually received decorations for their work under fire. Several months of training is necessary before the dogs are ready for service. They must be taught to range the shell-swept areas of No-Man's Land, hunting wounded, whom the busy stretcher-bearers could not at first glance distinguish from the dead. When an unconscious man is located, the dog is trained to carry his "tin-hat" or shrapnel helmet to the stretcher-bearers, and then to lead them back to where the sufferer is lying. Many Red Cross dogs have been produced in England. As trench warfare has rendered them a necessity, a project is under consideration to train the American "Rovers" somewhere in the United States and to send them over with other Red Cross units. Bluebloods are not the only ones needed. Yellow curs can do their bit for America, also, if they have the spirit, and enough "dog brains."

FIGHT FOR YOUR LIFE

Duty Demands Robust Health

Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by ills and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the palor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a pray to ills after all.

You will not find this class of persons in the hypoferin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferin stands for sound body and sound mind—the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver.

Fight to hold the vigor of a sound body with hypoferin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferin contains those mighty strength-producing agents, lecithin and iron peptone, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the body. In fact, it eases out of ten a run-down condition, sallow, pale complexion that "all in" feeling and frail bodies are due to lack of lecithin and iron peptone.

Young, mental and physical strength and endurance depends upon a lecithin and iron peptone laden blood; steady, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferin, which is as perfect as science can get to nature, meets every essential demand of the human organism. It is a tonic and a boon to run-down, worn-out men and women. Hypoferin means nature's own way of bringing the color to the cheeks, strength to the body and keeping the health and buoyance of youth. The perky and paint way of effecting beauty is not needed by hypoferin women and girls. Their blood is filled with nature's beauty, stirs, cream complexion, gives firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable. Join the hypoferin ranks. It puts into you the springy snap and vigor you ought to have and puts life into your body and mind that inspires the spirit to work and conquer the world on an equal footing with anyone.

Hypoferin may be had at your druggist's or direct from us for \$1.00 per package. It is well worth the price. The Sentinel Remedies Co., Cincinnati, Ohio.

NOTICE OF APPOINTMENT OF ADMINISTRATOR.

Notice is hereby given that John W. Parrish has been appointed administrator of the estate of L. L. Walters, deceased, of Wells county, Indiana, deceased. All accounts due said estate are payable to him. All claims against the estate must be filed with him or

A NOTICE TO FARMERS

On July 1st the Government established uniform rules for the grading of wheat at Elevators and Markets throughout the United States and hereafter wheat will be bought and sold under these rules.

For the information of our farmer patrons we print below the requirements, and call particular attention to the dockage rules. Your dockage will be ascertained by use of screens at the Elevator or Mill. We will be obliged to use them and the farmer should, therefore, see that the thresher eliminates the dockage by screening out the dirt, and cut and shriveled wheat, leaving it on the farm for feed. Otherwise you may lose its feed value.
