

WE ARE

Selling a lot of Work Shoes these days, just because our prices are in reach of all.

An early buy makes this possible.

Charlie Voglewede Sells A Lot Of Them

WEATHER FORECAST

Rain tonight and Friday, cooler to-night in south portion.

Mrs. U. Deininger went to Fort Wayne today.

L. H. Frank, of Baldwin, visited here with his son, L. W. Frank and family yesterday.

Mrs. Susie Springer and son, Homer, left this morning for Stroh, to visit with her brother.

Mrs. J. H. Gentis and son, Don, went to Fort Wayne yesterday afternoon to visit with relatives.

F. A. Peoples spent the day at the Frank Rumschlag farm in Root township, assisting in the cutting of oats.

Miss Catherine Cotton, of Shelbyville, Indiana, will arrive next Wednesday for a visit with Miss Fanny Heller.

Mrs. Zimmerman, of Seattle, Wash., and Mrs. S. F. Ort, of Churubusco, Indiana, are guests at the A. J. Smith home this week.

A feller with any individuality is never neutral about anything. Mrs. Tifford Moots' nephew lost a valuable wife last week.—Abe Martin, in Indianapolis News.

Mr. and Mrs. William F. Helm, who were married last Saturday night, returned home yesterday afternoon from their honeymoon trip. They will live in Fort Wayne.

Mrs. James Spade and daughters, Edna and Retha, returned to their home in Fort Wayne yesterday afternoon after a visit with her parents, Mr. and Mrs. Louis Weis, Sr. Her son, Fred, remained for a longer visit.

Miss Gwen Moser changed cars here today enroute to Fort Wayne from Wren, Ohio.

Mrs. Frank Winans went to Fort Wayne to visit with her children, Mrs. Marion Large and Quincy Winans.

Miss Hope Hoffman went to Fort Wayne this afternoon for her music lesson and rehearsal this evening.

Miss Ludvina Bonifas, a sister of Mrs. Frank X. Schirack and John Bonifas of this city, will leave the first week in September for France with a hospital unit from the St. John hospital in Anderson. In the party will be twenty nurses, twelve physicians and fifty-two orderlies. Miss Bonifas graduated last Easter from a three years course at the St. John hospital. Until time for her to leave for France, Miss Bonifas will remain with her parents, Mr. and Mrs. Jacob Bonifas, at New Corydon.—Portland Sun.

In some parts of this country, the heat of the day often continues far into the night. Sleep under such circumstances is likely to be extremely difficult. Here is a simple but valuable suggestion for wooring slumber under such circumstances: Wet a sheet with cold water, wring it out as dry as you can, and spread it over your bed.

Now lie upon the sheet without clothing. If you occasionally change your position, you will find that the cooling influence will really be extraordinary and that sleep will be easily induced. The moisture of the sheet, apart from the coolness produced by evaporation, is of distinct advantage to the skin, and is inclined to "settle" the nerves when one is tired out and nervous from the fatigue of an extremely hot day.—Barney Macfadden in August Physical Culture.

PLANT FOOD, SAVE FOOD, CAN FOOD,

American kitchens waste enough food each year to feed the whole British army in France and several divisions of the French army. It is estimated that the annual food waste in the United States amounts to \$700,000,000. This is believed to be a conservative estimate. Therefore, all we need to do to make certain supplying all food required and of winning the war is to cut out that waste.

It is entirely possible and feasible to do this. It is only a question of every man, woman, and child in the United States becoming individually thrifty in the use of food.

Millions of young American men are preparing to sacrifice their lives, if need be, in the cause of victory. How much more willingly should all who are left at home practice the small sacrifice of using the little extra care necessary to make certain that no food is wasted!

The military leaders of our nation and of our allies agree that the outcome of the war is a matter of food. Thus every little food saving, trivial and unimportant as it may seem, adds to the aggregate of the food supply which can make victory certain. Without thrift at home all the outpouring of blood on foreign battlefields may be in vain. Famine may be the great conqueror and the war may end in a surrender forced by starvation.

While hotels and restaurants are heavy offenders in the matter of wasting of food, yet the chief contribution to the \$700,000,000 food loss is made in the kitchens of private homes. Good food is improperly handled and stored. It is carelessly cooked. It is wastefully prepared. It is overgenerously provided. These are the chief causes of home food waste.

Extravagant cooks must learn how to use left-overs. Left-over cereals can be combined with meats, fruits, or vegetables to make appetizing side dishes. Even a spoonful of cereal is worth saving as a thickener for soup or gravy. Don't throw away stale bread, skim milk, sour milk, scraps of meat or fish, trimmed fats or suet, even the water used for cooking rice and many vegetables should be kept. Stale bread can be used in many ways. Skim milk contains all the nourishing qualities of milk except fat; sour milk can be used in baking; meat and fish scraps add flavor and nourishment to made-over dishes; fat can be tried out and used as a substitute for butter and lard in cooking; while cooking water will help to flavor soups and sauces.

CULVER HORSE TROOP.

Culver, Ind., Aug. 9—(Special to Daily Democrat)—Commanded by Captain M. W. Armstrong, the famous Culver Black Horse Troop, 87 strong, is touring northern Indiana. The trip will continue for eight days.

OHIO LEGISLATURE HAS POWER.

Columbus, Ohio, Aug. 9—(Special to Daily Democrat)—The Ohio legislature has the power to fix coal and food prices. Attorney General McGhee so ruled today. The ruling covers both Ohio mined coal and coal shipped in from other states.

NOTES FROM CAMP NIBLICK.

Captain Dunn yesterday appointed Fred Gay as company postmaster to relieve Carlyle Flanders, who is expecting orders to report with the Fourth regiment band.

James B. Brill is assisting the company at present as company clerk.

While playing ball yesterday, one of the boys was unfortunate enough to throw the ball through the window of the Adams County Lumber Company's office.

An appeal for Victrola records was made some time ago and the company now has the overwhelming sum of three records, to use on their new machine. The Victrola was delivered to the boys today and without records it will be useless. If you have any to give to the boys you can leave them at the Holthouse Drug Co. Some old records that you are tired of will be gladly welcomed by the boys.

Several of the boys were out yesterday getting contributions to a fund, with which to buy balls, bats, gloves and other baseball paraphernalia. They secured the sum of \$4.25 and purchased a ball, a glove and a mask. More money is needed with which to buy a breast protector and any contribution will be appreciated.

"Schucks" Schumaker, who is a member of Company E at Fort Wayne visited with the Company A boys last evening.

Fred Elzey and Dallas Brown risked the terrors of the dark and stayed all night last night in one of the tents at Camp Niblick. Each night two boys will sleep at the camp to watch the belongings of the officers and men.

Some iron pipe and other material combined with the ingenuity of Privates Haag and Johnson, served to construct a drinking fountain for the "Sammies" this morning at Camp Niblick. The sanitary fountain will save the boys many steps for a cooling drink after a drill or hike.

Owing to the shower that came up this morning the usual hike was foregone, and a longer drill was given on Tenth street.

The first school for soldiers was held this morning on the lawn of the West Ward school after the drill. Lieutenant Peterson read the men the military law.

An impromptu wrestling match was staged on the court house lawn this afternoon, which attracted a great deal of attention.

Remember the Company A benefit dance at the Masonic hall tonight at 8:30. Come and bring your friend. A dollar per couple.

WAR HITS WASHINGTON'S RUBBER NECK WAGONS.

Washington, August 9—The war has hit Washington's rubberneck wagons an awful wallop. The closing of the treasury, White House, State, War and Navy and all other public buildings to visitors has shown the sightseeing kings of about half their star program. Their garishly varnished truck with open coach bodies atop them, which lumber up and down the streets of Washington by the dozen, no longer stop while their passengers are shown the internal wonders and mysteries of America's legislative and executive halls. There's too good a chance that German spies might be among the gawkers.

KEEPING YOUR STOMACH HEALTHY.

If people will eat good wholesome food, simply and thoroughly prepared, will eat because they require food and not because it tastes good, will eat at regular times and take plenty of exercise—they will cease to be conscious that they have a digestive tract, and digestive troubles will decrease ninety per cent.

Foods and drinks should never be taken freezing cold or scalding hot, in fact, extremes of all kinds are the result of the customs and conveniences of the times we live in, and not of natural selection. However embarrassing it may be, the fact remains that our digestive canals still hold pretty closely to the customs of their prehistoric cave dwelling ancestors, and refuse to be rushed into these twentieth century environments without a protest; consequently we hear more and more of digestive disorders and so-called liver troubles.

The complaints that are constantly being laid at the doors of our unsuspecting and unoffending livers, are enough to make any organ, but a most generous and forgiving one, really get out of order and show what it could do. From "What's Wrong With Your Stomach," by Estill D. Holland, M. D., in August Physical Culture.

Health Department

Official Speaks—Wife Much Improved—Recommends Medicine.

The latest convert to the back to nature treatment or the ironated Herbs way to health is the well known and prominent citizen, Mr. E. H. Taylor, 1911 Cedar street, who is a man of the highest standing and integrity. He holds an official position in the city of Anderson, Ind. His statement is especially interesting as he is connected with the health department. He stated in the Central Pharmacy recently, that ironated Herbs was a medicine of wonderful curative properties. He said his wife was a great sufferer from stomach and liver trouble and was in general run down condition, gas frequently forming when she would even take a drink of water. She took ironated Herbs and immediately commenced to improve and she is happy to say that she is rapidly regaining her health and strength.

Ironated Herbs is for sale at Callow & Kohne's Drug Store, Decatur, Ind. advt

Green's August Flower

Has been used for all ailments that are caused by a disordered stomach and inactive liver, such as sick headache, constipation, sour stomach, nervous indigestion, fermentation of food, palpitation of the heart caused by gases in the stomach. August Flower is a gentle laxative, regulates digestion both in stomach and intestines, cleans and sweetens the stomach and alimentary canal, stimulates the liver to secrete the bile and impurities from the blood. 25 and 75 cent bottles. Sold by Smith, Yager & Falk.—Advt.

JAPAN PLANNING TO REFILL WAR CHEST.

(United Press Service) Tokio, July 2 (By mail)—Japan, to date, has spent \$164,500,000 on war expenses, although 71 millions of this sum is for the current fiscal year. Most of the war expenditure has been met with surplus of revenue which the government held in August 1914 but this is now exhausted and the authorities are considering other measures to cover Nippon's fighting bill.

The Morris Co. 5 and 10c Store Specials, Saturday, Aug. 11, at 2 p. m. \$1.24 Carpet Sweepers at 68c; Fig Bars, 10c a pound.
