The Y. M. C. A. campaign next week is one that every one should enter into. Let's lay aside any personal ideas and help in this work to raise money which is to be expended for the boys at the front.

We are having fine weather, some of that bright blue sky that according to tradition, belongs to October and we are thankful for it every time we look at the coal pile which went down so fast the past three weeks. A month or two of this would help out considerably.

Keep the old town moving boys. The election will be over today and we ought to start tomorrow boosting those things that will make this a better community. That's what we stand for, first, last and all the time and we are for any movement that tends that way. How do you stand?

The democrats closed their campaign last evening with a rousing

Clothes Make the Man to this extent—they make him seem Old or Young.

If you are young you don't want old men's clothes. If you are fifty, wear the spirited styles of Society Brand Clothes and be rated at forty. Dress the part you play in the drama of life.

A suit to conform to all personal requirements is here. Try it on—you'll be delighted.

THE MYERS-DAILEY COMPANY

meeting at headquarters, at which Mayor Christen presided and speeches were delivered by the chairman, by J. C. Moran and D. D. Coffee. There were plenty of cigars and enthusiasm was of the kind that portends success.

If you will take the trouble to ask any of the boys now stationed in any of the military camps or cantonments what they think of the Y. M. C. A. you will find that they depend on that organization and others similar, largely for entertainment and for a "break" in the routine of army life. There should be no trouble in securing a fund in this county of \$5,000 or over.

The election returns will be received at this office tonight and you are most cordially invited to come and hear them. The local returns should be complete early in the evening and we have arranged to secure the news by telegraph giving results in all the larger cities of this and other states, as well as the results of the Ohio suffrage and prohibition amendment election, the results in Massachusetts and other states. If you can't come, call us over the telephone.

It can be at least said that the democrats made a clean campaign, on a clean, straight platform, that the democrats stand on an administration against which there is not the shadow of a stain, that the candidates promised the people the right kind of an administration on a platform that rings with patriotic and honest sentiment and that the best interests of the community will thus be served by electing them. If you haven't voted you should do so between this hour and six o'clock. It's your duty as a good citizen, one who believes in his community and who is willing to help make it better.

It has been proposed that an organization be made in Decatur at once for the erection of a temporary public auditorium. We believe it would be a great improvement and one that would be used extensively. The building would be used for drilling of the state guard company which is being formed here and by the various schools as a place for basket ball and other sports, by the community for public meetings, indoor fairs and auto shows, and for the general good of the community. It is the idea to build it large enough to seat comfortably a thousand people and we believe it would be a mighty fine thing for the community. Those back of the movement are now securing plans and specifications and an estimate of the cost of such a building and a campaign may be launched soon to make it a reality. The city certainly needs such a building and we believe every body would be for it.

A tempting lunch of buttered rolls, hot wiener-wurst and coffee was served.

A fine birthday dinner was given by Mr. and Mrs. Charles Bittner in honor of their son, Herman, and cousin, Loyd VanBuskirk. The table was loaded down with all kinds of good eats. CORDUA BOY A SOLDIER

Fred Cordua, son of Harry Cordua, former Decatur marshal, is one of Uncle Sam's soldiers. A letter received from him by his grandparents, Mr. and Mrs. D. B. Roop, of Pleasant Mills, was written from Garden City, N. Y., as follows:

Garden City, N. Y., Oct. 30
Dear Grandma and Grandpa:—
We are on our way at last. I left Mt. Pleasant Saturday noon and got here Sunday night. It was a fine trip and I saw of lots of things I never saw before.

We will stay here a week or two and then go across. I don't suppose I will get to write much then but mother will tell you how I am getting along.

I am getting very well and getting fat. I was home for a few hours a week ago Sunday. I must quit now and eat supper.

Good bye for now.

Yours,

FRED

NEED IS URGENT A SAND STORM

For the Physicians to Prepare to Go to the Front in France.

SAYS A PHYSICIAN

Well Known in the Medical World—Prepare for a Long War.

Dr. C. R. Rayl, of Monroe, says: "The enclosed clipping from a Texas Medical Journal, by Dr. E. L. Gilcreest, is of interest. I am very well acquainted with Dr. Gilcreest, having men him in Berlin and knowing him as I do, and from his high standard and chances to hear the facts first handed. I think we may well take his opinion as to the length of the war! He also puts the proposition up to us physicians in a straight forward manner, and no doubt many more must go into the service."

Paris, France, July 30, '17.

Dear Dr. Bloodgood:
The American Expeditionary Force was warmly welcomed by the French and, with characteristic alacrity, was soon well established.

No branch of the service is better represented than that of the medical. Among the thoroughly equipped base hospital units from America already in Europe are the John Hopkins Hospital, under direction of Major Inney; The Lakeside Hospital, under Major Crile; the Peter Bent Brigham Hospital, under Major Cushing; the Presbyterian Hospital, under Major Brewster; and the St. Louis Unit, under Major Murphy. These are units that will reflect credit on American medicine and will completely establish in the minds of our colleagues the scientific strides which our medicines schools have made during the past two decades.

As one of the committee in preparation for the Southern Medical Association, I wish to say that the urgency for physicians to prepare to come to France has not been overdrawn. This is the fourth time that I have been in France since the beginning of the war, and it is very apparent that no service among our allies has suffered more than that of the medical. We should, therefore, urge all available physicians to "get their houses in order" and to prepare to do their bit whether at home or abroad. We should not forget that we are now at war with the most efficient warring nation that the world has ever seen and that the time is long past for procrastination.

It is the sublimity of folly to lul ourselves into the belief that the war will soon end. It is impossible for anyone ever to have sufficient data to hand at any time to be able to form an opinion as to the duration of this titanic struggle. Let us be prepared for a long war and hope for a short one. Thousands of our soldiers are here and thousands are on their way. It is to us as medical men that the nation looks for the care of these fighters. Let us be worthy of the high ideals of our profession and, as in all national perils, be found among the first to risk our lives in the saving of the lives of others.

Faithfully yours,

E. L. GILCREEST

Raged in New Mexico Camp, But the Boys Drilled

THROUGH IT ALL

Writes Edwin Rabbitt—He Says He Feels Like a Sand Pit.

Mr. and Mrs. C. C. Rabbitt have the following letter from their son, Edwin, at Camp Cody, N. Mexico: Camp Cody, Oct. 29.

Dear Folks:—
Received your letter yesterday and was certainly glad to get it. Didn't know what to think when I saw it addressed in red. One of the fellows asked who in the dickens was writing to me in blood.

We started on our eight day schedule today so we will not have so much time to ourselves. They are even taking our evenings away from us and giving us school from seven till nine instead of in the afternoon as we have been doing.

I complained about not getting enough mail for awhile. I am getting so much now I can't find time to answer it all. It is making me a financial failure buying stamps. Thanks to my numerous lady acquaintances am getting all the candy I can eat and if I want anything all I have to do is write for it. Pretty soft, eh?

We drilled all forenoon in an awful sand storm. Everybody wears goggles and we look more like bunch of auto racers than a bunch of soldiers. It gets so bad at times that you have to tie a handkerchief over your nose and mouth to get your breath. I am so full of sand I feel like a sand pit. If there is anything like a sand bag stopping a bullet, I don't see how the Dutch can hurt me, being filled up the way I am. Nevertheless, I am feeling fine.

We expect to get out of this place in about a month, at least I hope so. We have been here about two months and it seems like two years, anyhow that much.

Well, as there is nothing ever happens in camp I have no news to send you so will close for this evening and betake myself to my little bunk and freeze all night.

With love,

EDWIN.
