Modern Medicine—Wife's
Cheeks Rosy Again.

Anderson, Ind.—"Ironated Herbs
with pepsin (in liquid form) certainly
improved my wife's condition," said
Mark A. Glasco, who resides at 1530
West Fifteenth street, this city. Mr.
Glasco monograms automobiles and
has many friends in Anderson and
vicinity. He continued:
"My wife has been in a weak and
rundown condition for the last six
months. She was pale and her blood
was out of order. I heard that Ironated
Herbs was a strengthening tonic
and blood purifier, so I bought a bot-
tle and had her take it. It has im-
proved her condition greatly, giving
her strength and bringing the color
back to her cheeks. Ironated Herbs
is alright and I am glad to say a good
word for it."

Ironated Herbs acts almost like
magic in stomach trouble, gas, fermen-
tation, heavy, distressed feeling after
meals and on retiring. It attacks and
destroys all poison in the blood, and
owing to the organic iron is a red
blood builder, corrects diseased condi-
tions of the liver and kidneys and re-
stores them to normal conditions.
Ironated Herbs is for sale at Callow
& Kohne's, Decatur, Ind. advt

Decatur Grocer Thankful.

"I had been sick nearly 20 years
with stomach trouble and was slowly
starving to death as everything
I ate caused terrible gas and pain
and my food did not digest. I was
reduced to 115 pounds. A friend
advised me to take Mayr's Wonder-
ful remedy about 4 months ago,
which I did and now I weigh 151 lbs.
and can eat anything. I am very
thankful for Mayr's Wonderful
Remedy. It removes the catarrhal
mucous from the intestinal tract,
and allays the inflammation which
causes practically all stomach, liver
and intestinal ailments, including
appendicitis. One dose will con-
vince or money refunded. Holthouse

Turpentine will relieve a cold

Remember years ago how Grandmother
rubbed Turpentine on your chest? Re-
member how quickly it drove away your
cold? That's because Turpentine has a
property of working its way through the
skin, driving out congestion and pain.
Why not use Turpentine now? Not
Turpentine in a greasy bottle but in the
form of Turpo. Turpo is better than Tur-
pentine because it also contains Camphor
and Menthol. It is the only ointment that
can give you the benefits of these rare
remedies. Use it for colds, aches and pains
of all sorts. Use a jar at your druggist's.

MOTHERS, DO THIS—

When the Children Cough, Rub
Musterole on Throats
and Chests

No telling how soon the symptoms may
develop into croup, or worse. And then
when you're glad you have a jar of Mus-
terole at hand to give prompt, sure re-
lief. It does not blister.
As first aid and a certain remedy,
Musterole is excellent. Thousands of
mothers know it. You should keep a
jar in the house, ready for instant use.
It is the remedy for adults, too. Re-
lieves sore throat, bronchitis, tonsillitis,
croup, stiff neck, asthma, neuralgia, head-
ache, congestion, pleurisy, rheumatism,
lumbago, pains and aches of back or
joints, sprains, sore muscles, chilblains,
frostbitten feet and colds of the chest (it
often prevents pneumonia).
30c and 60c jars; hospital size \$2.50.

LEND MONEY NOW

To the Government—You
Will be Richly Repaid at
End of the War.

Chicago, Nov. 27—(Special to Daily
Democrat)—The nation's trade with
the countries of South America is at
least three times as extensive as it
was in the year immediately preced-
ing the outbreak of the great world
war. In the eight months ended with
August (the latest month for which
figures are available) exports to the
sister republics of the south aggregat-
ed \$188,000,000 compared with only
\$65,000,000 in the corresponding peri-
od in 1914. Imports from South Amer-
ica totalled \$433,000,000 compared
with \$157,000,000 in 1914. Thus, it
will be seen, this country's total trade
with the southern continent in the
first eight months of this year repre-
sented a value of \$620,000,000 against
only \$220,000,000 in the same time in
1914.

To Argentina, Peru and Chile, ex-
ports from the United States more
than trebled, while those in Uruguay
quadrupled. The exports to Venezue-
la, Colombia, Brazil and Ecuador were
practically three times as great as
those in 1914. Argentina contracted
for \$62,256,000 worth of United States
products compared with only \$19,649,-
000 in the first eight months of 1914.
Exports to Brazil were \$40,197,000
against \$15,973,000 to Chile, \$32,971,-
000 against \$10,800,000.

The records at Washington show
large increases in imports from the
South American countries, especially
in those from Argentina, Chile, Uru-
guay and Peru. The United States
imported \$133,169,000 of Argentinean
products in the first eight months of
this year, compared with \$40,752,000
in the corresponding period of 1914.
Chile sold us \$96,626,000 against \$15,-
954,000; Uruguay \$28,389,000 against
\$8,522,000 and Brazil \$106,335,000
against \$62,633,000.

The pronounced increases in both
exports and imports continued un-
broken right down to the last day of
which figures were available and it is
reported that the showing for the
rest of the year will be even better.

A better argument in favor of build-
ing a mercantile marine and a strong
navy to protect it would be hard to
find. These figures should bring home
to the American producer the realiza-
tion that his interests lie in supporting
the government with money to finance
the war and to prepare for world trade
after the great conflict ceases. Every
dollar now loaned to the government
will be increased many times when
the piping times of peace return.

CANADIAN WHEAT FOR THE U. S.

Since April of this year wheat and
wheat flour has been imported in
greatly increased quantities from
Canada. This is attributed principal-
ly to the fact that on April 15 Canada
removed the duty on wheat imported
into that country, which action auto-
matically admitted Canadian wheat
free of duty into the United States
under the provisions of the tariff of
1913.

According to new statistics furnish-
ed by the bureau of foreign and do-
mestic commerce, of the department
of commerce, 840,981 bushels of wheat
were imported from Canada in Sep-
tember of this year, as compared with
3,259,507 bushels for the whole nine
months ended with September, 1916.

For the nine months ended with
September of this year, we imported
wheat from Canada to the extent of
21,490,269 bushels, over 14,000,000
bushels of which came in free after
April 16. The imports of wheat flour
during these nine months totaled 403,-
270 barrels, of which 297,695 barrels
came in free of duty. For the corre-
sponding nine months in 1916 the total
imports were 157,289 barrels and in
1915 only 90,499 barrels.

This Canadian wheat and flour is
being received through every customs
district on the northern border from
the Atlantic to the Pacific, Buffalo
leading in September with 285,119
bushels and 51,596 barrels of flour,
followed by Duluth, Minnesota, and
Superior, Wisconsin, with 223,883
bushels of wheat and 15,761 barrels
of flour. Michigan with 138,881 bush-
els of wheat and 1,539 barrels of flour,
Ohio with 114,096 bushels of wheat,
Minnesota with 12,145 bushels of
wheat, and New York, Rochester, Ver-
mont, Dakota, Montana, and Washing-
ton with varying amounts. There is
also a noticeable movement of Cana-
dian flour to the West Coast.

Don't Let The Spider Spin a Web Across Your Door

Mark Twain says: "When I was editing the Virginia City Enterprise, writing copy one day and mining the next, a superstitious subscriber once wrote and said he found a spider in his paper. Was this good luck or bad luck?"

"I answered him in our 'answers to correspondents' column, as follows: 'Old Subscriber—The finding of a spider in your copy of the Enterprise was neither good luck or bad luck. The spider was merely looking over our pages to find out what merchant was not advertising, so that it could spin a web across his door, and lead a free and undisturbed existence forever after.'"

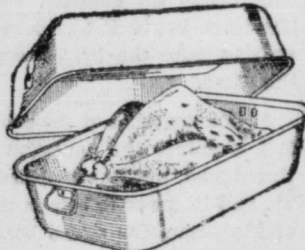

No matter how good your store, how choice your goods or how low your prices, there's "nothing doing" unless the public knows about it—and there is no quicker or surer way of letting it know than through the newspapers.

Every good citizen in this community will give you his patronage if you give evi-
dence of wanting it. The most convincing and cordial invitation you may extend to
your public is through the regular use of newspaper space.

GOVERNOR LOWDEN'S VIEWS

Gov. Frank O. Lowden, in a recent
interview, threw an interesting light
on his private interests when he said
he once owned a Shorthorn bull that
had won blue ribbons throughout the
United States, and that he regarded
the raising of this animal as one of
the achievements of his life.

When further interviewed about it
he said: "The breeding and feeding of
good live stock is my hobby. I am,
therefore, deeply interested in the im-
provement of the farm animals of the
United States. It costs no more to
raise good live stock, which will bet-
ter the returns when marketed, than
it does to raise a 'scrub' and the scrub
must go. Live stock production is not
keeping pace with the increase of pop-
