MILLIONS NEEDY

Four Hundred Tons of Old Clothing Are Asked from This Division

OF THE RED CROSS

What Garments Are Needed for Belgian and French Relief Work.

Are you getting your old clothing ready for the millions of needy ones from Belgium and France who would otherwise suffer from the cold this winter?

Get it ready and take it to the north door of the local Red Cross headquarters by next Monday. The Red Cross will see that it is packed and sent on its way.

Herbert Hoover, chairman for the Commission for the Relief in Belgium has asked the American Red Cross, through H. P. Davison, to collect five thousand tons of clothing for the Belgians.

The Lake Division, of which this county is a part, has been asked to send four hundred tons. Will you help, as you did last year? And better still, try to exceed the amount secured last campaign.

The following is Hoover's cablegram:

"The ten million imprisoned people in occupied Belgium and France are facing shame, suffering, disease and some of them death for lack of clothing this winter. They must be helped. I hope that the Red Cross will undertake a renewed campaign to obtain this clothing in America. It can come only from us.

"Your first campaign yielded magnificent results, bringing in fully 5000 tons of clothing in good condition. But much more is needed if these war-ravaged people are to get through the winter in decency and safety.

"In the face of brutal coercion and spiritual suffering they remain splendidly courageous. This courage challenges our charity. Let us match the courage of Belgium by the generosity of America.

"HERBERT HOOVER"

A bulletin says: Back of the German wall that has hemmed in Belgium and a part of

Northern France, ten million human beings look to us for clothing as well as food. We who are well clothed can hardly appreciate in what dire need these people are for lack of necessities. Stocks of clothing and raw material are long since exhausted. There are no imports other than those the Commission for Relief in Belgium has been permitted to make and these never have been sufficient. The world is now short of both clothing and raw material, so the commission can no longer purchase what is needed. But you can give it.

Every household in the land has some spare clothing, worn or outgrown, of little use here, but desperately needed by the destitute there. This extract from a letter of a well-to-do lady of Brussels shows the conditions exactly:

"Perhaps you will laugh when you hear that I wear a cloak made from my husband's garde civile overcoat, a waist made from his football shirt, and a skirt made from a dyed bedsheet. Mother had a suit made of the tablecloth. J and M have cloaks made of woolen blankets, and S a dress made of burlap. But all this is only amusing in comparison with the wretchedness of the population. After all we remain calm and confident of victory."

A recent Brussels advertisement says: "I will give up to 125 francs (\$25) for new or worn bedsheets." There is an immediate need for every sort of garment, blanket, sheets and shoes.

The very wonderful results of the clothing campaign of last March assisted in helping to meet the demands but when we realize that there are ten million inhabitants in the occupied regions, most of whom must look to the outside world for protection against the rigors of winter, it is seen that we cannot send too much. As long as the war lasts, Belgium and occupied France must depend chiefly on America for aid. To insure the steady supply of garments which are so much needed, we appeal to the generosity of the American public to give and to give largely.

Practical Garments Wanted

"Every kind of garment, for all ages and both sexes, is urgently needed. In addition, piece goods—light, warm cotton flannel and other kinds of cloth from which to make garments for new born babies; ticking; sheeting; blankets; woolen goods of any kind; shoes of every size are asked for. Scrap leather is needed for repairing footwear.

"Since the clothes will be subjected to the hardest kind of wear, only garments made of strong and durable materials should be sent. It is useless to offer to any afflicted population garments of flimsy material or gaudy coloring. Make the gifts practical.

"Garments need not be in perfect condition. A hundred thousand destitute women in the occupied regions are eager to earn a small livelihood by repairing gift clothing and making new garments adapted to needs with which they are familiar."

It stirs every American heart

Who was not thrilled to read of the American soldier who supported a wounded comrade, and fought his way with the little detachment back through the Boches to the American lines?

That is only one deed of heroism among the many happening every day and looked on as a matter of course by the boys fighting for us over there. It shows the stuff that's in them. They are our own sons and brothers. Is the same stuff in us over here?

We have the opportunity at home to show our patriotism by other deeds of valor. We can fight and we MUST fight. And we must WIN, no matter how heavy our burdens may be.

Our former habits are the Huns we've got to battle with. We can't go on living as we used to. We can't go on spending our money for things we like. We must set up new standards—war standards—and stick to them—loyally.

From now on there can be only one standard for those of us who fight behind the lines—by saving and lending

We must buy bonds to our utmost
