In just about a month it will be too late to secure War Savings Stamps and then you will be sorry. They are the very best investments ever offered by this or any other country. They pay 4 per cent interest compounded for five years.

Give thanks tomorrow for peace and for prosperity and for all the good things that have come to you during this greatest year in all history. It hasn't been so bad with all the sacrifices and there is much to be thankful for if you will just set it down.

One is almost led to believe that Colonel Roosevelt is planning to be the ringmaster of the next republican convention and that those who aspire to honors at that time should get their applications in early. He is a rule or ruin boss, a man hard to please and a fault finder who keeps something stirred up all the time. Watch out for Teddy.

The merchant who doesn't advertise is injuring himself more than any one else. The customer will find what he wants in the store that does ask for his business and you are simply telling them by your silence that you don't care a hang whether they deal with you or not. The retailer who sits around in this day and age and waits for some one to come in and coax him to sell him some of his goods deserves but little sympathy. The live one gets the business and it will never be any different.

Adams county is the best in the state and Decatur is its county seat. It's a good old county and good old town that always makes good. We are now facing a very important era in our history. Will we go forward or stand still or back up? It's up to us as citizens. If we organize there are many things we can do and we do not mean by this that we should charge a big fee for admission to a chamber of commerce. Make it a dollar a year so everybody can join, work as we have for war purposes and we will do great things for this community.

# XMAS SUGGESTIONS

Now is the time to buy useful Christmas Gifts. Our store is full of things that man or boy in your family will appreciate. A Suit, Overcoat, Sweater or anything in the line of wearing apparel will be appreciated more than some novelty that is soon cast aside.
