

REVIVAL PROGRESSING NICELY

The revival in progress at the United Brethren church since Sunday evening, is going along nicely, with increased attendance and interest. The spirit is fine and the sermons by the pastor, the Rev. C. J. Miner, are a great power for good. A very cordial welcome awaits all at this place. Everybody is urged to come. The service begins at 7:30 sharp. Services will be held every evening in the week except Saturday evenings.

SOME FAVOR CONVENTION

(United Press Service) Indianapolis, Feb. 7—Advocates of the proposed plan to hold a constitutional convention, or to at least be given an opportunity to present their case before the voters of the state were confident today that a bill pending in the legislature provides for submitting the question of whether a constitutional convention shall be called to the voters of Indiana at the next election.

At the 1917 session of the general assembly legislation providing for the holding of a constitutional conven-

tion was passed but was set aside by the Indiana supreme court in a decision declaring the law unconstitutional on the grounds that such matters must be voted upon by the people of the state before they can be made effective. The present bill pending before the legislature provides for submitting the question of whether a constitutional convention shall be called to the voters of Indiana at the next election.

Opponents of the measure, how-

ever, are claiming that if the previous measure regarding the calling of a constitutional convention was held to be unconstitutional that the present attempt will also be invalid under the rulings of the higher courts when put to a test.

THROUGH WITH IT

(United Press Service) Indianapolis, Feb. 7—Senators and representatives, who have consistently supported state-wide and national prohibition today expressed their ser-

ious doubt as to the probability of any additional anti-liquor legislation being enacted by the present legislature.

Fearing that a reactionary movement which will tend to overcome the "good effects" of Indiana's state-wide dry law is feared by many advocates and supporters of the prohibition movement, they state. While several bills have been presented in both the house and senate, which have as their purpose making Indiana bone-dry there is but little interest being mani-

fest in them by the major portion of the legislators, other than the anti-prohibitionists and the members "fathering" such measures.

DEMOCRAT WANT ADS PAY BIG.

ARE PACKING UP

Gifts and Souvenirs Given President and Mrs. Wilson Are Being Boxed

FOR RETURN HOME

Workers Are Busy at Murat Palace—Will Sail on February Twelfth.

(United Press Service) (By Robert J. Bender, United Press staff correspondent)

Paris, Feb. 7—(Special to Daily Democrat)—They were packing up at the Murat palace today.

While President Wilson is not scheduled to sail before next Wednesday, his and Mrs. Wilson's gifts and souvenirs were being boxed, preparatory to shipment. The pounding of hammers echoed merrily through the ancient house as rare paintings, books, statues, jewelry and cigarette cases were stowed in wooden cases. They weigh hundreds of pounds avoirdupois and are worth hundreds of pounds sterling.

It has not been definitely determined whether the president will return to France yet the Wilsons are "cleaning house" as though they had no intention of coming back, despite the fact they would almost certainly occupy the Murat palace again on a return trip.

The president, despite the long hours he devotes to peace work, finds time to read interesting letters from all parts of the world, many of which he answers personally. One arrived today from Harold H. Rucker, 7 years old of Wichita, Kas., who said "I am studying as hard as I can in school so I will be able to do something important when I am a man." The reply: "I am glad you are beginning early to have an ambition and I hope you will grow up to think of the country you love before you think of yourself."

MAY BE POSSIBLE

(United Press Service) London, Feb. 7—(Special to Daily Democrat)—A nation wide railway strike became a possibility today when the national union of railway men repudiated the settlement effected last night by subway workers.

The threatened strike was intended largely as a sympathetic walkout to assist the subway men, but the railway men, who constitute the strongest of the rail union, are understood to have decided to go through with the strike because of their own grievances.

WEAKNESS REMAINS LONG AFTER Influenza

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feron—your physician knows the formula—it is printed below.

There's iron in Bio-feron—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gentian, that brings back your lagging appetite.

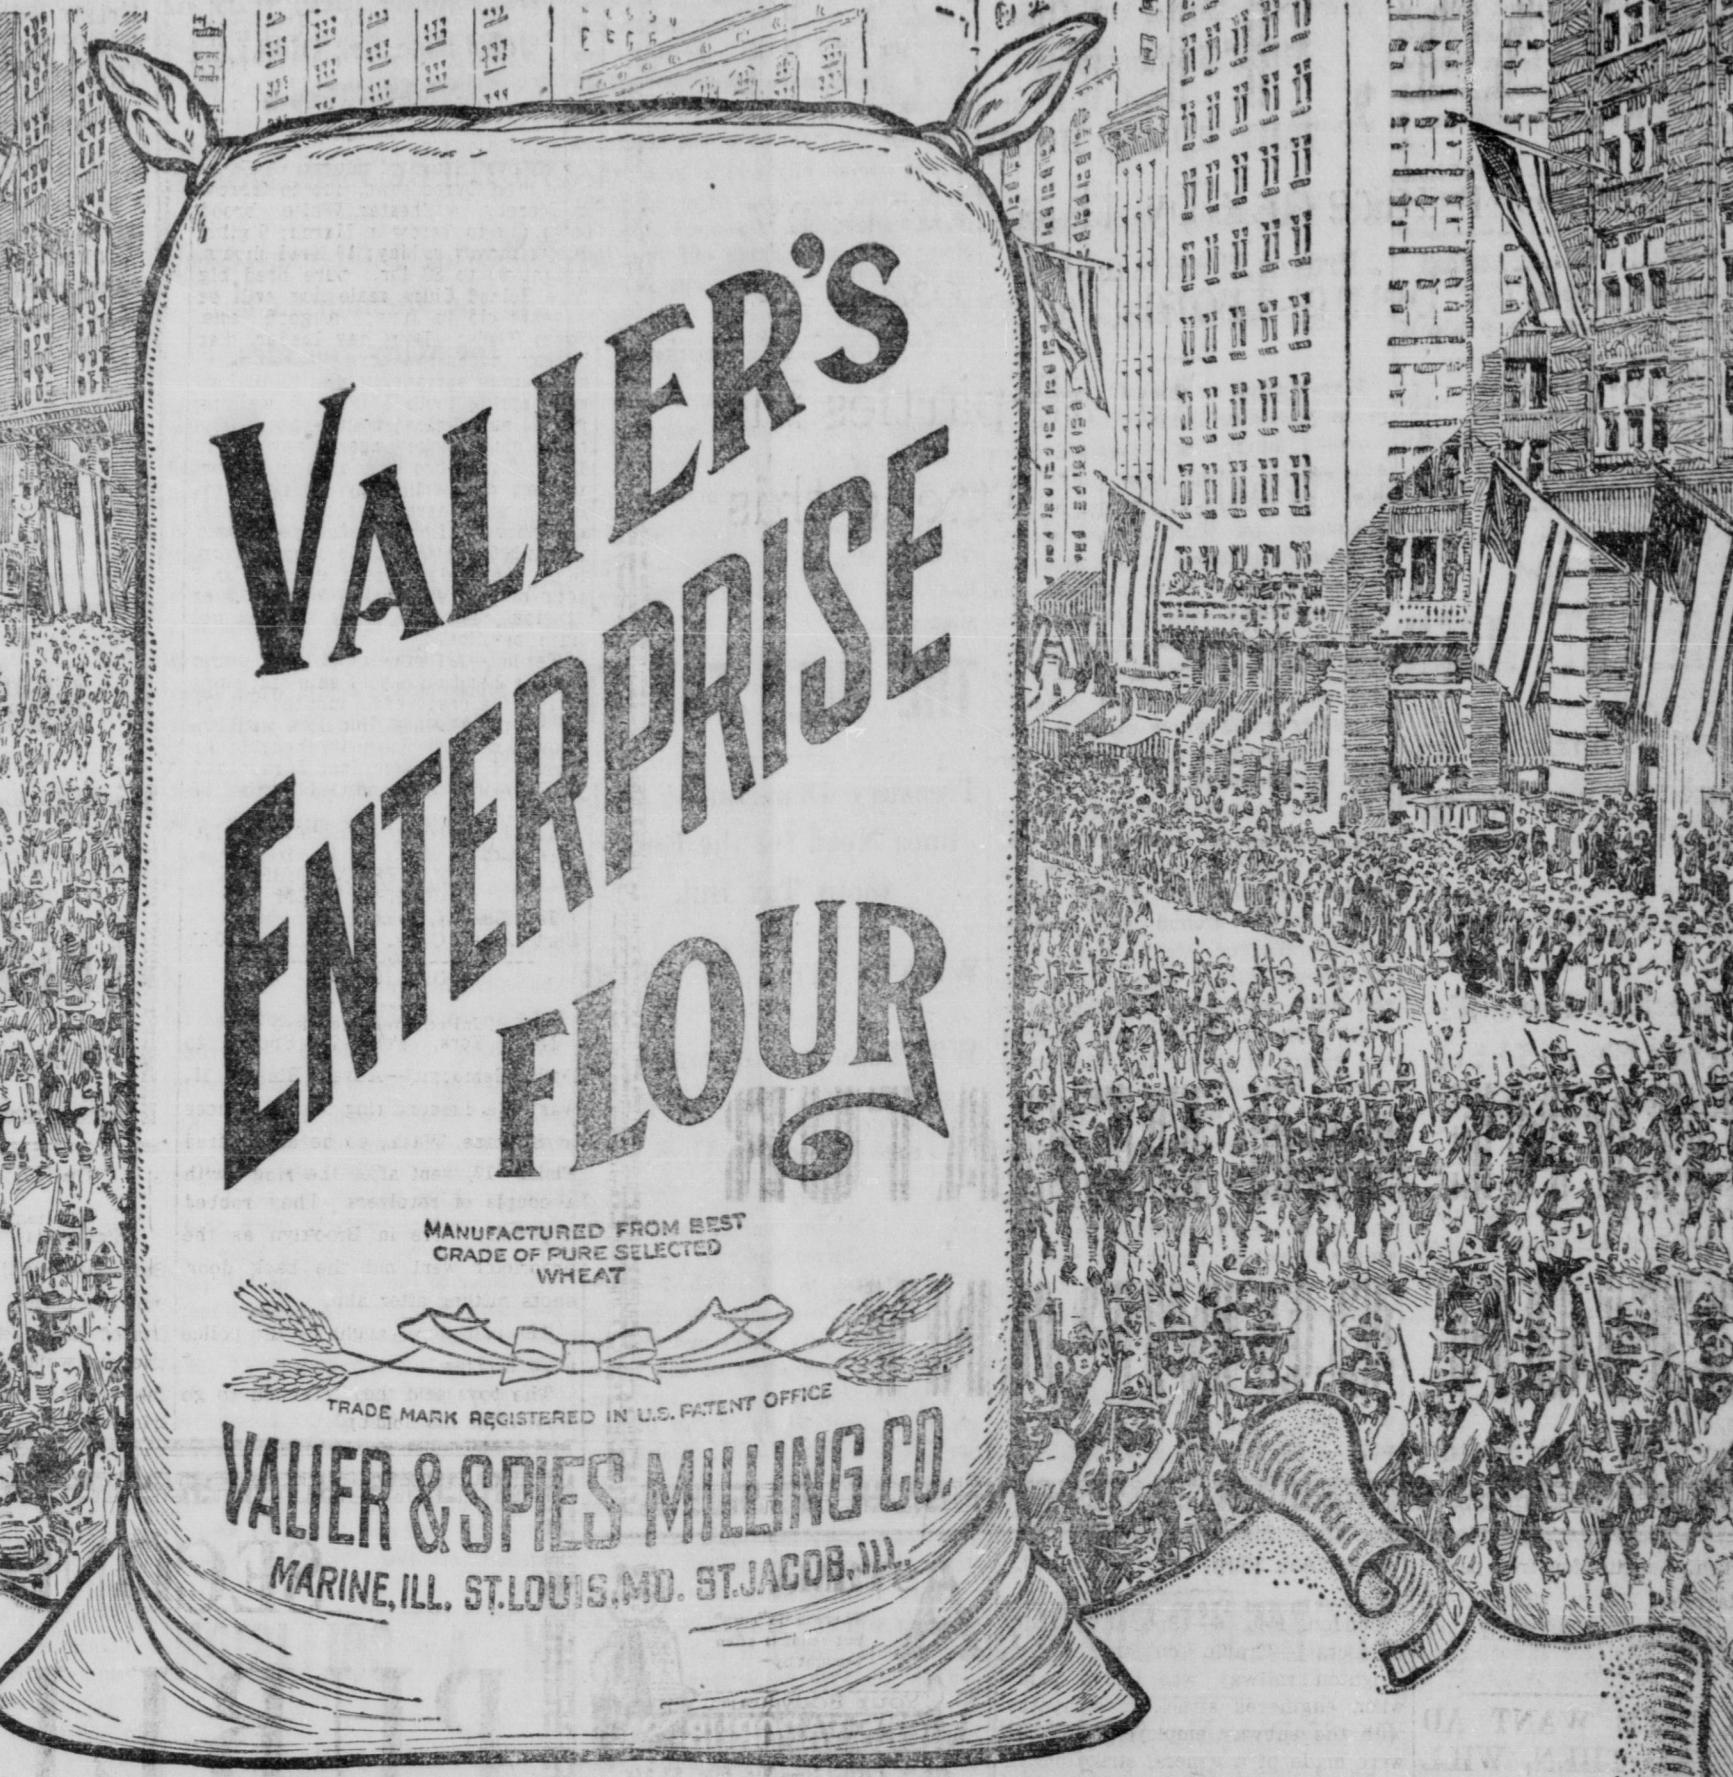

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting kolo, that great agent that puts the power of endurance into weak people.

Taken altogether Bio-feron is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feron is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feron, it is printed on every package. Here it is: Lecithin, calcium, Glycerophosphate, Iron, Calcium, Manganese, Peptonate, Ext. Nas. Vomica, Powdered Gentian, Phenophthalein, Olearia Capitatum, Kolo.

Back home!

The war is won. The boys are coming back—and so is Valier's Enterprise Flour. You can enjoy, again, this flour of flours.

Eight months ago Valier's Enterprise was taken off the market. It was, and is, an ideal in flour-making. That ideal could not be maintained under war milling regulations. The public was assured then that Valier's Enterprise would not be offered until it could be made, as it had always been made, of only the finest flour part of the finest hard wheat grown—milled by the Valier slow-process method.

That promise has been kept. Now you can go back to the kind of home-baking that only this super-grade flour can give.

If you aren't one of the thousands who know what Valier's Enterprise quality means in better baking and more economical baking—then get acquainted now.

Ask your grocer for Valier's Enterprise Flour today.

This is Valier's high-grade popular-priced flour—it has made hosts of friends.
