Indiana Police Force Meets
With Disapproval—The
Contingent Fund.

(United Press Service)
Indianapolis, Feb. 19—The unit buying system as employed by the allies during the war is as applicable to the state of Indiana as to the entire nation, according to advocates of the bill proposed today to provide for a purchasing agent for the state. Under the provisions of the bill the purchasing of supplies for the various state institutions would be done under the direction and supervision of a state purchasing agent. It is said that by thus pooling the general supplies needed at all institutions the state would save probably several hundred thousand dollars, annually. Another bill provides for a similar system for the city of Indianapolis and would permit the hiring of an entire corps to conduct this work for the city.

Terre Haute, Feb. 19—The annual convention of the Indiana Real Estate Association began its session of two days here today.

More than three hundred members of the organization, representing practically every locality in the state are listed among the visitors and delegates to the meeting. The initial session was opened by J. W. Fieldhouse, president of the association, following which addresses of welcome were delivered by various city officials of Terre Haute.

Indianapolis, Feb. 19—Protests against the bill by Representative Demaree, providing for the organization of an Indiana state police force, have been received by many members of the state legislature from Indiana municipal authorities. It is pointed out by the various city officials that under the proposed law it would be possible for the state police to constantly embarrass the various municipal police forces and to create a general dissatisfaction among residents of rural communities by arresting numerous residents of the state on petty charges which are frequently unintentionally overlooked by local officials, who claim they are kept busy preventing violations of the prohibition law.

Indianapolis, Feb. 19—An increased contingent fund, to be used under the direction and authorization of the legislative visiting committee and the governor, was favored today by several members of the majority and minority of both houses of the legislature. It was recommended by the legislative visiting committee that the contingent fund be increased to \$1,000,000 as with a non-partisan board controlling the fund it would be used only in cases of actual emergencies where actually needed.

DAILY HEALTH TALKS

The Best Way to Treat
Constipation
BY S. C. BABCOCK, M. D.

The medical books name many drugs that will move the bowels. The drug store shelves are loaded down with laxatives, purgatives and pills. The trouble with most of them is the after-effects. Constipated people know that pills work all right for a little while, but they soon lose their effect, and a change has to be made to something else. The constant taking of pills results in a form of bowel inactivity that is difficult to cure. The system becomes so accustomed to laxative drugs that the organs just won't work without them, and so the pill habit becomes as bad as constipation itself. Dr. Pierce, of Buffalo, N. Y., seems to me to have the right idea. He says the bowels should first be gently moved with Pierce's Pleasant Pellets, and in the meantime laxative foods only should be eaten. Figs, prunes, olive oil, spinach, bran, vegetables and fruits are fine for constipation. Chew every bite thoroughly, eat little meat, and be as active as possible. Now, doesn't that seem sensible? Pleasant Pellets will start the bowels working right; then it is up to you to keep them right by right eating. Try Pleasant Pellets for sick headache, coated tongue, biliousness, dizziness, torpid liver or to break up a cold. They are just fine!

Dr. Pierce's Anodyne Pile Ointment soothes, cools and heals piles in a most gratifying way. Perhaps there is no other remedy for this torturing trouble that relieves so surely and quickly. Dr. Pierce believes Anodyne Pile Ointment will overcome any case that can be overcome by medical treatment. Try it right now.

Dr. Pierce's Anuric Tablets are intended for people who suffer from kidney disorders—whose backs ache, and whose systems are overrun with uric acid. Nearly everybody has too much uric acid. Anuric Tablets dissolve uric acid quickly, as they are made double strength.

3 miles south of Dixon, Ohio; 10 miles northeast of Decatur, and 1/2 mile north of Clark's Chapel M. Healthy Mothers Healthy Babies

Every true mother realizes the fact that her baby's health depends upon her own, that the very vitality of her child is influenced by her own physical condition. How important it is, therefore, to guard against any derangement of the female organs, which induce general weakness, nervousness, constant fatigue and utter inability to properly care for her child. Please remember, that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia. I had gained in strength and could go around and do all my housework. My baby when 7 months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicines do me so much good."—Mrs. PEARL MONTANA, Mitchell, Ind.

Good health during and after maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound
