

Official News Bulletin of Indiana Federation of Clubs

Edited by LENA M. SHANNON, Kokomo, State Press Chairman.

The Bulletin.

Beginning with the first week in September the Federated club bulletins will be published every two weeks. Clubs are asked to begin early to send in their reports and help make next year's bulletins alive and interesting.

I. F. C. Convention.

Club women of Kokomo are making plans for the annual convention which is to be held in Kokomo October 21, 22, 23 and 24, and all are anxious to make it the best convention ever held in the state. Many of the delegates will be entertained in Kokomo homes. Applications for rooms should be sent to Mrs. A. F. Leiss, 424 North Union street, Kokomo, Ind.

State Officers Busy.

The warm summer weather has not in any degree affected the ardor of the state officers of the federation. They have been busy during the rest months, writing letters and sending out bulletins to the different districts, getting ready for a splendid work in the fall. Mrs. John E. Moore, president of the state federation, has sent out letters to the district chairman, hoping through them to reattach the different clubs. She requests that all clubs pay their state dues so that they may be entitled to delegates to the state convention. She requests that the district chairman have their club directories ready and send them to her by the middle of September, that every county be federated by October 21; that every strive to win the gavel for new clubs (goal for 1919, one new club for each county); every club, a subscriber to the General Federation Magazine and every penny of the endowment fund raised by convention time.

The first vice-president, Mrs. J. C. Gibbs has sent out circulars to all the district chairmen urging especially the organization of county federations and organization of new clubs.

The second vice-president, Mrs. W. A. Morris, is still pushing the membership campaign.

The state treasurer, Mrs. W. C. Smith through the state president, sent a list of all delinquent clubs in their district to each district chairman.

Americanization Topics.

Mrs. J. A. Patterson, Americanization chairman of the Indiana Federation of clubs, has arranged the following topics for club study:

Americanization of our Country. Relation of Americanization and Industrial Problems.

Americanization and the Home Influence.

How can the Schools Assist With Americanization?

How Will Suffrage, Child Labor, and Women in Industry, be Changed by Americanization?

Good Housing and Americanization.

The nearest Standard Oil representative has this chart and he will be glad to show it to you.

was inaugurated to stimulate community interest in the subject of Americanization and also to give to the ambitious author an opportunity of finding an audience ready to receive her contribution.

Johnson, president; South Bend Thursday club, Mrs. C. L. Smith, president and South Bend Progress club, Mrs. Fred Woodward, president. The subjects of the papers are "Captain Bruce Bairnsfather, Cartoonist," "The Friendly Stars," "American Magazines," "Geographical and Historical Environment of America's 32 New Soldier Cities," "Artificial Birds," "Our Solar System," "The Great Lakes Congress," "Carrie Jacobs Bond and the Bond Shop."

War Victory Commission.

Mrs. Alice Foster McCulloch, of Ft. Wayne, General Federation secretary received a letter recently from Mrs. Margaret Gowles Blesch of Green Bay, Wis., War Victory Commissioner of District No. 5, concerning the work which has been accomplished by the War Victory Commission. Although the commission did not do what it started out to do—namely to procure the furlough houses—it did accomplish some worthwhile things. One hundred selected young women were sent to the various "leave areas" that have been set apart by the government for the boys on furlough, under the supervision of the "Y." They did a great work, especially after the armistice was signed and the soldiers were anxious to return home, filling the leisure hours of the boys with wholesome recreation, cheering the homesick tired ones and making the weary hours of waiting for "return orders" more endurable and happier. The War Victory Unit will be brought home by the last of September.

New Club Directories.

Mrs. Moore, state president has received new year books from three clubs, the Woman's Club of Winchester, the Indiana Study Club of Seymour and the Valparaiso Woman's Club of Valparaiso.

The woman's Club of Winchester will take up the study of South America. "The Continent of Opportunity" next year. In addition to this study there will be a Civic Day and Christmas program.

The Indiana Study Club of Seymour will make a special study next year of English history and English literature. The club will have five lectures by Mrs. Depacharis Brown of Indianapolis in addition to the programs by the club members.

The Valparaiso Woman's Club has published a year book of forty-eight pages, containing all the activities for the coming year. The club has departments of art, civics, home economics, history, literature, music and dramatic art. The program for the year is an interesting one, with a wide variety of subjects of interest to women, among them Americanization topics, a study of the sand dunes, a study of modern Europe, civic topics of local interest and demonstrations in the preparation of foods.

Columbus, Ohio, Aug. 20.—(Special to Daily Democrat)—One hundred tanks of the one man type and 2,000 rifles have been shipped from the army reserve depot here to Forts on or near the Mexican border within the past week, it was learned today.

GETTING ORGANIZATION READY.

The Reformed church is rapidly shaping up its organization for the great Forward Movement recently undertaken by its general synod. Headquarters have been opened in the Reformed church building, Philadelphia, Pa., where the central offices are located.

A commission of twenty-five members appointed by the general synod has charge of the movement. This commission has called a number of leaders from various branches of the church's work to constitute the executive staff. Dr. Joseph H. Apple, president of Hood college, Frederick, Md., has been made executive secretary, the Rev. E. S. Bromer, D. D., pastor of the First Reformed church of Greensburg, Pa., has been appointed secretary of the department of spiritual resources. The Rev. William E. Lampe, Ph. D., Philadelphia, secretary of the United Missionary and stewardship committee of the church, has been loaned by the latter to become secretary of the department of stewardship of life and possessions. Ursinus college at Collegeville, Pa., has given leave to its president, Dr. George L. Omwake, in order that he may head up the department of education and publicity, and in like manner Edwin M. Hartman has been released from the principality of Franklin and Marshall Academy at Lancaster, Pa., to direct the department of field work.

Under this movement the entire church will be organized the vitalized to the finger tips, with a view to making the denomination efficient as a working force both at home and abroad. A great chain of training conferences has been planned for the early fall in the principal centers, and thereafter this work will be carried into every locality of the church.
