

Asserts New Discovery Brings Blessed Relief To Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease.

And best of all this remedy costs almost nothing. Get a one ounce bottle of Mentholized Arcline at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled.

Then gargle as directed and twice daily sniff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work; but oftentimes simple natural remedies are the best as you will find after using.

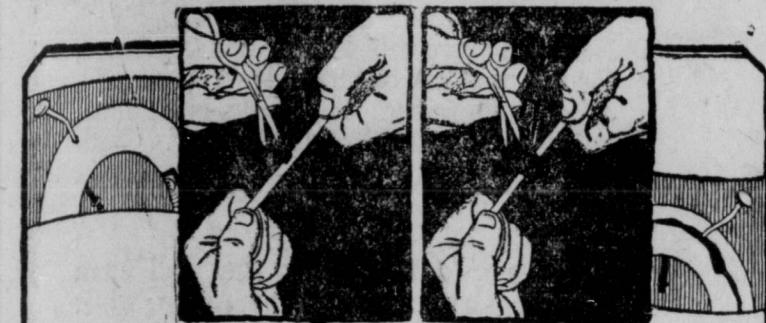

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

WATCHING THE SCOREBOARD

Once again Babe Ruth killed the pill for the full circuit, making it four in three days and 23 for the season. And the Sox again beat the Tigers 5 to 4.

The Reds got five runs off one hit in the seventh inning and beat the Phils 7 to 3.

Tobin got a single off Walter Johnson with the bases full in the ninth and the browns beat Washington 4 to 3.

Stretched, as in the tire, good tubes do not rip when cut. They cut but do not rip.

The slightest cut in an inferior tube—Rip! and the tube is ruined.

You Can Test the Norwalk Right Straight Through

THE scissors test shows you that the Norwalk Tube is different. It shows you that it does not rip as other tubes. The Norwalk Tube proves to you that the Norwalk Casing is your tire. The Norwalk Tube, floating stock*, both red and gray, is the highest quality tube made. The Norwalk cord or non-skid fabric with snow white sidewalls and black tread is the highest quality tire made.

The Scissors Test

Take sample piece of tube 1/4 in. by 3 in. Stretch to 9 in. or three times its original length. Cut on the edge with the scissors. The cut should not be more than 1/8 in. across; the sample. If the strip tears apart the rubber is inferior.

Norwalk products never ask acceptance on faith alone. Prove them before you buy. Take the first test now. Take the scissors.

Find out more about Norwalk tires at
THE SCHAFER HDW. CO.
ELBERSON SERVICE STATION
WM. LINNEMEIER, Preble

They have them in stock.

*Floating stock is a standard of quality as definite as 24K gold or sterling. It means rubber so pure that it floats. File away a dated sample of Norwalk Tube and others, and compare them at the end of a year. You are going to learn a lot more about Norwalk quality. But don't wait. Start saving your mileage-money now. Ask us for a sample of Norwalk rubber.

NORWALK TUBES and CASINGS

HERE'S A NEW ONE

Decatur Has Prodigy in
Shape of a One-legged
Tennis Player

HE SURE GETS AROUND

Tucks His Crutch Under
His Arm and Makes
'Em All Step.

The hall of fame has swung wide its creaky old doors to admit a new member, and this time one of Decatur's prodigies slipped through the gloomy portals, cut a niche for himself, and prepared to repose comfortably there for quite a spell.

You're probably heard of one-armed baseball players, and artists who painted with their teeth, or handless authors who pounded the typewriter with their toes, legless swimmers, blind composers—but did you ever hear of a one-legged tennis player?

Decatur has got probably the only one in captivity hereabouts, and he's in the person of Frank (Red) Houston. Red lost his left leg about four years ago; it was cut off just at the hip and since that time has been navigating around with one crutch. And believe us, not many folks, with two natural pegs, can put anything on Red when it comes to speed.

Just this summer Frank took up the game of tennis on the court back of the North Ward schoolhouse, and found it much to his liking. He slides and slithers around on that one leg, assisted by his faithful old crutch, and surely can soak the ball. When he serves, he just tucks the wooden part of his anatomy up under his arm, braces himself and lets go. And he says he's learning to take 'em all across.

Come on you folks, what have you got to beat it?

CHANGE IN EMPLOYES

After a period of six years' service as bookkeeper at the Bank of Berne, Miss Meta Neuenschwander has tendered her resignation and the same has been accepted to go into effect in the near future. During the time in which Miss Neuenschwander has been employed at the bank, she has proven herself very efficient and accurate. Her courtesy which she showed to the bank patrons has won for her many friends who will regret to see Miss Neuenschwander leave. At a meeting of the bank directors, Miss Frieda Lehman was chosen to succeed Miss Neuenschwander in her duties. Miss Lehman, soon after her graduation from high school in 1913 became employed at the Witness office, where she has proven herself a valuable help. She will begin her new duties at the bank on September 1.—Berne Witness.

RULING ON ELEVATORS.

Otto L. Klaus, auditor of state, has notified the Indiana inspection bureau, E. M. Sellers, manager, that the state insurance department has ruled against the bureau applying terminal grain elevator insurance rates to ordinary grain elevators. The terminal rates are said to be about forty per cent higher than the ordinary elevator rates. The ruling was made by the auditor as the result of a test case heard Wednesday by Miles C. Schaefer, actuary, and Thomas S. McMur-

ray, fire insurance rate expert, in the state insurance department. The Noblesville Milling company complained that the bureau had applied the high terminal rate to its private elevator B. Indianapolis News.

LABOR PARTY MAY CONTROL GREAT BRITAIN

(United Press Service)
London.—(By Mail)—With the rumbling of approaching dissolution shaking the Coalition government, and recent developments in the industrial world, all eyes are turned on the Labor Party in the House of Commons and the question "How long before a Labor Government is in power?" which would have been laughed at ten years ago, is asked seriously.

For labor alone of the political parties stands better than ever before, and political experts declare that labor can never expect to find itself in a more favorable position, politically. The Coalition is doomed, but neither of the old parties, Liberals and Conservatives, can go back to their pre-war status. Many old leaders have been modified or abandoned, and the breaking up of the coalition would leave them shivering like the babes in the wood, uncertain which way to turn, or who to look to.

Labor is not absolutely united in parliament, there being several groups known as the Labor Party, the Independent Labor Party, the miners' representatives, and numerous free-lancers like Colonel John Ward, the "navy" M. P. who was promoted to the command of a battalion in the war, C. B. Stanton, one-time miners agent, Commander J. H. Wedgewood, one time Liberal, and Jack Jones, the "Common People's Member" from east London.

The Independent Labor Party contains the "intellectuals" like Philip Snowden, Ramsey MacDonald, Sidney Webb and other regular Socialists but for the purposes of a Labor government they would unite with the larger group. And in the two groups there are many good men, who would doubtless make excellent statesmen, and who would have the support of people ordinarily bitterly hostile to labor.

ADVERTISED LETTERS

Miss Pauline Wells, Mr. Clark Niblick (2), Mr. Roger Grove.
JOHN W. BOSSE, P. M.

OBITUARY OF JACK MURLIN DAVIS

Jack Murlin, little son of Irvin and Jessie Davis, was born April 24, 1919, at Celina, Ohio, and departed this life August 18, 1919, aged three months and twenty-five days.

He leaves to mourn his loss a father, mother, three brothers and three sisters, Leona, Earl, Harry, Charles Beatrice, Mary and a host of other relatives and friends.

Baby Jack was one of the dearest of babies, always having his little smile for every one who met him, enduring all his sufferings with patience to the end.

While he is greatly missed in his home, we know he is safe with Jesus.

Oh, hearts that are mourning a little one gone,
That are longing its face to behold
Thank God for the care
That protects them there
The wee, white lambs in the fold.

PUBLIC SALE

As I have decided to quit farming, I will offer at public auction at my farm located one mile north and 6 miles east of Bluffton, 1 mile north and 6 miles west of Monroe, one mile west of Honduras, on

Tuesday, September 9, 1919, the following personal property to-wit:

Ladies' Aid of Zion will serve lunch.
sept 2 & 5

CARD OF THANKS

Mr. and Mrs. Irvin Davis extend their thanks to their friends at Salem for the kindness shown them through the burial of their beloved baby, Jack. Also Rev. Thompson and the choir, for their beautiful services.

\$\$\$—WANT ADS EARN—\$\$\$

TO WAR MOTHERS

All War Mothers are urged to come to the Red Cross room of the Library on Tuesday afternoon at 2:30. This is the annual meeting for the reorganization of the club. If you are interested in the work of the war mothers, come and help us decide whether we shall continue the organization or not.

All mothers who have not yet returned their sons second service blanks properly filled out for the Indiana war record, please be sure to bring them on Tuesday afternoon.

Mrs. W. S. Mills, President.

Mrs. Margaret Huber of Marion, Indiana, is the guest of her parents, Mr. and Mrs. C. M. Welty.

YOU'LL DO BETTER AT HOME

At this season of the year, sufferers from hay fever and asthma who can afford to travel are seeking relief at health resorts. Some find it; others do not. Hay fever and asthma victims compelled to remain at home will find relief in Foley's Honey and Tar Compound. This standard family remedy allays inflammation, soothes and heals raw and painful bronchial tubes and helps to overcome difficulty in breathing, making sound, refreshing sleep possible. Good for coughs, colds, etc.

Sold Everywhere.

Grip, Hold, Let Go!

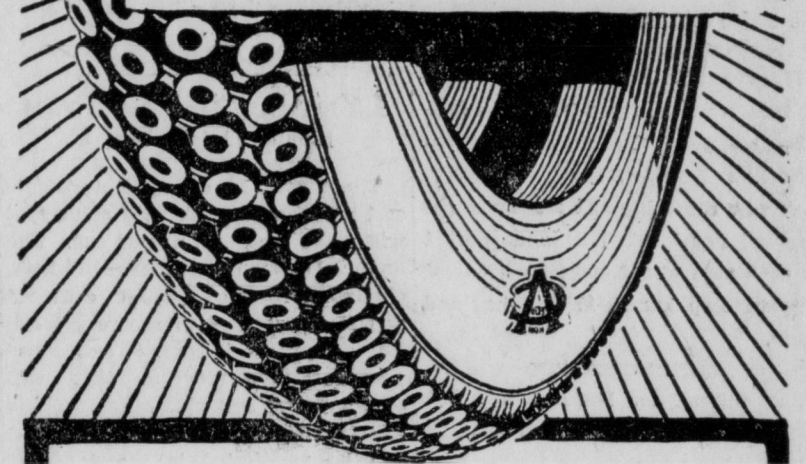

That's the action on wet, slippery pavements of the Vacuum Cups of the famous

Pennsylvania VACUUM CUP TIRES

While the suction grip holds fast, there is no loss of power or speed and no excess consumption of fuel, for the forward rolling of the tire raises the edge of each Cup and releases the vacuum hold.

Vacuum Cup Tires cost approximately the same as ordinary tires sold on 3,500 mile basis, though they are guaranteed—per warranty tag—for

6,000 Miles
