President Wilson will start on his trip across the country next Wednesday, speaking in twenty-five cities, putting up to the people his position on the peace treaty and controverting the statements by his opposition that he is not dealing square with the people or is trying to keep any thing from you. He will place his cards on the table and will have the support of the people, we do not doubt.

The present congress has certainly established a record and one that we hoped will never be excelled. In session three months they have done nothing. Worse than that, they have tried to do any thing except thwart every thing the president intimated he wanted them to do. Former sessions may be criticized for mistakes but we forgive them for they tried. About the most disgusting thing we know of is a lazy, good for nothing, do nothing body of lawmakers who obstruct, rather than construct.

struct. Better make mistakes than not try. This is no time for "chicken feed" as Representative Mann calls it.

The Fort Wayne News in rather a weak manner is attempting to answer the attacks against the tax law brought about by blanket increases of valuation. Wouldn't you like to read what they would have to say if this burdensome, confiscating law had been passed by a democratic legislature or under the direction of a democratic governor? If they wouldn't make the fur fly it would be because there are no words in the dictionary to fit. They know that the law is one which gives entirely too much control to three men in Indianapolis, that no difference what the rate is, the principle is wrong. No one is objecting to the increased cost of maintaining the state's business, but the average citizen, regardless of politics, does reject with all his might the arbitrary increase of valuations beyond all reason and beyond the "true cash value."

The support of the people of this community for the Athletic hall is asked. A year ago the project started when Mr. Worthman rented the old opera house for basket ball games. As the interest grew, slight improvements were made and early in this year the Decatur Athletic association was formed. They put in shower baths, added to the east side, built seats, and put in a furnace. Later an option was secured on the building, a hard wood floor put in, the building was roofed and painted. Now it is proposed that the purchase be consummated, the building stuccoed and a better heating plant installed, completing a gymnasium that will provide more amusement for the people here than any in-

vestment ever made. There is no desire to make any money, no idea in mind, except to help the boys and girls to a clean place of amusement. The school board has an excellent instructor, Mr. Groves, who will have charge, and now the association is asking your earnest support. They want twenty or more men to assist in financing the loan and they want the people to support the project by buying season tickets and patronizing the games and other amusements at the gym. It's the most important step ever made in Decatur for the young people. Won't you help make it a real success?

My doctors could not help me. Six doses of Mayr's Wonderful Remedy have entirely cured me. I have regained my weight and every one is congratulating me how well I look." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. TOBACCO HABIT DANGEROUS

says Doctor Conner, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and lo! the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Conner soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. Must We Ratify Treaty To Save the World?

At the now famous White House conference with the Committee on Foreign Relations President Wilson emphasized the moral obligation resting upon the Senate to ratify the Peace Treaty as it stands.

THE LITERARY DIGEST of August 30th cites numerous leading newspapers which have taken up this question with ardor. "The first, the imperative duty of this country," says the *Jersey City Journal*, is to make the Treaty effective and then "to join the other civilized countries of the globe in an honest effort to make peace lasting," and the *Philadelphia Inquirer* maintains that America "can never return to a sane basis until the Peace Treaty is disposed of and actual peace is brought about." The opposition view is voiced by the *Hartford Courant*, which feels that while "benefit all round" should result from the conference the Senators will not be "stampeded by the President's plea for urgency." Senator Lodge hints at delays in his statement that "we all respect and share" the desires of those who want a Peace League, but "some of us see no hope, but rather defeat, for them in this murky covenant."
