

DEFORMED FEET

When we see so many deformed feet, the deformity caused by mis-fitted shoes at some time or other we can't help but talk about proper-fitted shoes. Even children in their teens suffering from corns, hammer toes, callouses. If there is one thing this store prides itself on above any other it is the method we use in measuring feet and fitting shoes. If you have not been a customer here we would like to demonstrate to you.

Labor Meeting

(Continued From Page One)

sition is based on the grounds that all laboring men could not be pledged to support any one candidate named.

These favoring organization of a party without naming candidates say that the party should not be pledged to support any certain candidate or group of candidates, but should be left free to vote for anyone favoring labor. This group is of the opinion that labor could make better progress by not placing a ballot before the people for acceptance or rejection.

Between seven and eight hundred delegates were expected to attend the meeting. More than six hundred local unions are affiliated with the state organization and each local was asked to send one delegate for every fifty men belonging to their union. It was thought, however, that many of them would send only one representative for the entire local.

MUCH DIVERSION WITHOUT A PEER, MRS. HOGE AVERS

Springtime Maids are Badly Puzzled as to Coming Fashions as They Show

VERY MANY CHANGES

Vital Question as to Length of Skirts and Style is Still Undecided

(United Press Service)

New York, Feb. 13.—The Spring-time maid is all mixed up over what she is to be, because the fashions seem to show so much diversity. Some say wasp waists and hips are chic while others do opine we will adhere to straight effects and cling to length of line. That vital question—length of skirts—is still up in the air. Most of the smartest skirts are, too, you see the models wear. And yet a goodly portion cling about the ankles prim and with their Turkish trouser drapes conceal the well-trimmed limb.

Then there's the footnotes of the mode, milady's dainty shoe. Some still insist the long sharp vamp our insteps step into but more and more on every hand and every foot also one sees the snub nosed French short vamps to tripping and for. For many seasons they have tried to get a toehold here. That they have won by many feet it really does appear. Quite irrespective of your feet, it sort of seems to me, the shape of shoes the keynote of your temperament may be. If you elect the narrow path most decorous to tread, of course, you wear a narrow shoe, sharp pointed, if, instead, along the broad highway of joy you archly wish to skip, a short broad vamp your high arch foot will greatly aid to trip. They come in most ornate effects with lavish straps and boys with three inch heels as high—almost—as prices, goodness knows.

Of fabrics for the Springtime wear some say the best are plaids. Hoot mon! the tartan flaunts supreme for gown ups or for tads. In serge, in taffeta or voile in gingham, crepe de chine, in gay or neutral colors, all sorts of plaids are seen. When you have seen this chic display you're sure to be in bad as feminine Beau Brummells if you don't go in for plaid.

And then another faction in manner temperament decrees the motifs of spring stuffs is all Oriental. Morocco and Algeria, far China and Japan with a dash of little Egypt make up the general plan of blended hues harmonious designs distinct and quaint that from all other fabrics these differentiate. The most of them have backgrounds of neutral beige or gray on which gay ships go sailing or birds and beausties play. Fans, bowls of fruit or landscapes these quaint designs depict. You'll be a moving picture when in this stuff you're tricked.

From Serbia, Roumania and other Balkan spots have come designs and colorings of reds and blues, oh lots. Just like the peasantry out there our gent will be decked. When our dress up it may be hard one's status to detect.

But what is to be gathered from this conflict of the modes when to extremes Dame Fashion her apeing spavelings goads? Well, really, the deduction that seems quite plain to me is "Be a bit of everything to be le dernier cri."

Miss Margaret Leahy returned to her home in Fort Wayne after attending the Delta Theta Tau dance and visiting with her sister, Mrs. Will Bowers.

Miss Anna Adair of Hoagland was a visitor in the city today.

"I don't care if everybody in Peoria was here to listen I'd tell them all the same thing about Tanlac that I'm going to tell you," said Robert Grider while discussing the medicine with friends at the Stulliff & Case Drug store in Peoria a few days ago. Mr. Grider is business manager of Teamster's Union No. 627, of Peoria and lives at 135 West Washington street, Peoria, Ill. His statement regarding the results he has obtained from Tanlac is so remarkable as to be almost incredible and realizing this he refers anyone who may doubt to his friends and neighbors for verification of the facts.

"Ten years ago," explained Mr. Grider, "my stomach got out of order and I started down hill. Nothing helped me and I kept going down until I finally became just a helpless wreck and weighed only one hundred and thirty-five pounds. Not being able to work any longer and, as everything had been done for me at home that could be, I set out for treatment elsewhere. I spent a long while in St. Louis under the best specialist I could find there. From there I went to Chicago and finally came back to Peoria the worst discouraged man you ever saw. By this time I was down in bed more than I was up and had to live mostly on milk as anything else bloated me up as tight as a drum and the gas from it affected my heart until I could scarcely breathe. There was a heavy feeling like lead in my stomach and such awful cramping pains that I could hardly stand it. I was having attacks of acute indigestion so bad at times I thought I was going to die. My circulation was so poor that I felt cold all the time and the color of blood couldn't be seen in my face. I had paid out over four thousand dollars, but in place of getting better I got worse until I reached the point where I had little hope of living much longer."

"Now this is just the condition I was in at the time I began taking Tanlac, but since then I have gotten rid of my trouble entirely and I now weigh two hundred and forty pounds. In a day or so after I started on Tanlac I commenced to want to get out and it wasn't long until I could eat without it hurting me. I was almost dumfounded when I could once more eat a meal without suffering from it, for it had been ten years since I could do such a thing. I have never been able to eat more or digest my food better than I can now and I am as well as I ever was in my life. I am as strong as an ox and my robust health by the use of Tanlac has cost me only twenty-four dollars. My friends look at my broad shoulders in utter amazement. I am not only willing to go before any notary in this town and swear to the truth of my statement, but I could bring at least a hundred of my neighbors here who will tell you that an awful fix I was in before I took Tanlac. All the praise, thanks and gratitude for my wonderful recovery befitting to Tanlac and I would be ungrateful not to pass the good word along."

Tanlac is sold in Decatur by Smith, Yager & Falk and in Berne by Stengel & Craig Drug Co.

MEETING POSTPONED

The meeting of the Home Guards of the Methodist church has been postponed until further announcement.

J. A. M. Adair was temporarily elected secretary-treasurer and general manager of the Body Works plant at Portland to succeed the late Bert Ehrhart, at a meeting of the directors of the factory, held Wednesday evening.

While it can not be definitely told at this time, it is probable that Mr. Adair's new office will be made permanent.

Mr. Adair is a capable man for the place and his many friends wish him success. He is a former congressman from the Eighth district and recently returned home from Washington.—Portland Review.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply. He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and cough and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Four three-quarters of an ounce of Mentholized Arcline into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcline in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.
