SHIPPING AT A STANDSTILL

(United Press Service)
New York, March 17.—(Special to Daily Democrat)—Coastwise shipping was practically at a standstill today as a result of workers on piers of all Sound Lines joining the coastwise longshoremen in their strike. About 7,000 longshoremen, stevedores and checkers have gone on strike since Saturday morning and more than 2,000 members of crews on vessels unable to operate have been thrown out of employment as a result.

NORTHERN BAPTISTS MASSING FORCES IN \$100,000,000 DRIVE

Big Sum Asked in One Movement to Fulfill Five-Year Program—Personal Service of 2,000,000 Members to Be Used to Make Huge Pledges More Effective—Education to Be Feature of Great Activity; Both in U. S. and Abroad.

By LUPTON WILKINSON.

The 10,000 churches which constitute the Northern Baptist Convention are moving forward this spring in a program termed by their leaders one of the most significant unified advances a Christian body has ever made. Thirty-four state convention headquarters are teaming with activity and the entire strength of the denomination is marshalled, ready for a task whose size may well be called staggering.

It is now nine months since the assembled national delegates of the Northern Baptists met in Denver and after providing entirely new and modern church organization machinery set the face of 2,000,000 people toward a five year effort, necessitating expenditures which will total at least \$100,000,000. The urgency of the world situation, viewed from the Christian standpoint and made clear in detail to the convention through a 150-page itemized survey of the field's needs, has worked like multiplying leaven. Thousands upon thousands of copies of that survey have been distributed in answer to individual written requests.

The denominational program is known officially as the New World Movement of Northern Baptists. It is defined as "an attempt to apply vigorously the principles of Christianity to the problems confronting the world." The shadow of many ills, the stresses and pain of humanity, struggling to give a new order birth after the cataclysm of war has swept away old standards and safeguards, are the basic urges behind the Baptist effort.

The churches involved, believing the call to service imperative and fated only to grow larger, have decided to pledge the entire \$100,000,000 Baptist fund in one financial "drive" between April 21 and May 2. My purpose here is not to discuss the task involved in the raising of such a sum. The impetus of aid and co-operation from numerous other denominations working together in the Interchurch World Movement will aid the Baptists greatly in their money campaign, a larger one than any other denomination faces this spring.

What must interest the general public in considering the huge undertaking are some very practical questions. Through what channels does the church hope to effect the application of the Christian ideal and the Christian machinery toward a lessening of unrest? How clearly and wisely have the church leaders viewed the situation? Do they work with a seeing vision of the tremendous ground, physically and spiritually speaking, that they must cover? How definite and concrete are their plans?

No one who has read the report of the Field Survey Committee of the Northern Baptist Convention can reasonably doubt the earnestness with which the men behind the New World Movement are striving to be practical. The scope of the Americanization plans indicates the trend. Children in the Sunday-schools will be asked to treat the children of the foreign-born as friends. Baptist women will be asked to cultivate friendship as individuals with foreign-born women. Missions will be established in mining, manufacturing and logging districts where the native proportion of the population is small.

Speaking of "future citizens," the report of the committee says: "We cannot honestly preach to them and teach them national ideals if we are silent while they, because they are strangers, are being exploited. It is our Christian duty to assist in the bettering of factory conditions, standards

Buddhism Seeks to Regain Grip

Buddhist priests of Burma, after ignoring the progress of Christian missions in that country for more than a century, are making a vigorous effort to restore Buddhism to its old place. This is the report made by Baptist missionaries in that field. The outcome of the struggle is of vital importance, as Burma has the most advanced civilization of any part of British India, and its influence is growing.

With this in view, the General Board of Promotion of the Northern Baptist Convention believes that the working forces of Christianity should be doubled. Especially is this so since, under direction of the British authorities, the missionaries sent out by the Northern Baptists are conducting 55 per cent of the educational work of the country.

An indication of governmental co-operation is found in the offer of the authorities to pay half the cost of construction of a new plant for Judson College. The government, too, has secured a beautiful new campus outside the city of Rangoon. Schools of every grade, from kindergarten through college and seminary, are conducted by missionaries, and educational work is particularly strong among women and girls.

Some idea of the task of expansion is shown by the fact that there are 40 races in an area as great as Texas and with a population greater than that of New York State. In spite of the work already done, the illiteracy of Burma is estimated at 62 per cent. The needs

UNINSTRUCTED DELEGATES

(United Press Service)
St. Paul, Minn., March 17.—(Special to Daily Democrat)—Storms played havoc with Minnesota's political program. Several counties will send uninstructed delegates to the district and state conventions, political leaders believed, because blizzards interfered with precinct caucuses and today prevented many republican county conventions.

PROHIBITION RESTRICTIONS

(United Press Service)
Chicago, March 17.—(Special to Daily Democrat)—Important restrictions on prohibition enforcement officers were announced here today. Growing out of the troubles of Major A. V. Dalrymple in crushing the Michigan "rum rebellion," it was ordered from Washington that such officers cannot arrest suspects nor search suspected liquor caches without warrants.
