The Store Ahead.

ABOUT TOWN

J. H. Stewart was in Fort Wayne Monday evening on business and while there called on George Kinzie, who was operated upon last week at the Hope-Methodist hospital. Mr. Kinzie was much improved Monday over his condition of a day or two previous, although he suffers much pain from the operation. It is believed he will continue to improve from now on.

Ira O. Asbuckle, 24, Redkey soldier, wounded in the World war, died at the home of his parents last week, the wounds received in battle being the direct cause of his death. Mr. Asbuckle had been under the care of the Jay County Red Cross society since last December. Funeral services were held Monday afternoon.

Many stiff necks are noticed today, caused by watching the northern lights, or more properly the aurora borealis. The lights showed forth in unusual splendor last night as they flashed across the sky, receded and brightened and faded for several hours.

T. M. Reid has returned from a trip through the West for the Waring Glove company.

J. H. Heller returned to Indianapolis this morning after spending two days here looking after business interests.

Is a husband responsible for the actions of his wife? Constance Talmadge answers this question in "Who Cares?" at the Mecca tomorrow.

Thompson to Elizabeth Fairfield, outlot 24, Decatur, \$2,750; William H. Hefner to Main Realty Co., tract in Wabash tp., \$1; Magdalena A. Sprunger et al. to Hiram H. Baumgartner, 100 acres, Monroe tp., \$6,500; Magdalena A. Sprunger et al. to Alfred Sprunger, 89 acres, Monroe tp., \$7,900; Levi Augsburg to Mary W. Kerr, Inlet 453, Berne, \$5,200; John W. Kelly et al. to Peter W. Dunwiddie, 80 acres, Wabash tp., \$12,500.

In the Charles M. Myers estate a petition was filed by the executrix for authority to purchase and pay for monument. Petition submitted and sustained. Executrix authorized to purchase monument and to expend therefor a sum not to exceed \$500.

Inventory number one was filed in the Mary Weaver estate.

William Frazier was appointed inheritance tax appraiser in the estate of Jacob Omor. He was authorized to make appraisement and file written report as provided for by law.

To Arrest Him

(Continued From Page One)

Kapp insurrection.

Dublin, March 23.—(Special to Daily Democrat)—A man and a woman were killed and several other persons injured in a clash between soldiers and civilians here last night.

A band of 300 soldiers were parading through the streets jostling crowds and pushing civilians from the sidewalks, it was said. When civilians resisted their actions a general fight followed during which time some of the soldiers fired into the crowd.

London, March 23.—(Special to Daily Democrat)—Reports of new radical successes continued to come from Germany today.

Gustav Noske, president, Ebert's minister of defense, has been forced to resign, a Berlin dispatch said.

Other resignations of cabinet members may be expected, the dispatch said.

Ebert has promised complete reorganization, with labor unions participating.

A Southern woman aged 99 has been invited by the mayor of Savannah, Ga., to hold her next birthday reception in the city hall.

HOW DOES THIS SUIT YOU?

(United Press Service)
Washington, March 23.—(Special to Daily Democrat)—An investigation of the high price of gasoline was demanded in a resolution introduced in the house today by Representative Dyer (Missouri).

The probe would be conducted by the attorney-general and would also go into oil prices.

Four increases in the price of gasoline have been made during the last thirty days and huge profits are being made by the oil interests, Dyer charged.

ADDITIONAL SOCIETY.

The Zion Lutheran Ladies' Aid society will meet Friday afternoon at the school house. Every member is urged to be present.

The Queen Esther's mite box opening will be held at the home of Mrs. John T. Myers on Fourth street Friday evening at 7:30 o'clock.

The Christian Women's Board of Missions of the Christian church met at the home of Mrs. Dr. Mangold Friday afternoon, with Mrs. Mary Artman as the leader. Dr. Ghidoni, pastor was present and gave a splendid talk. The program carried out was as follows: Song; devotionals, led by pastor; reading by Mrs. Daniels, "The Great Closed Hand"; reading by Florence Leichenstager, "Mother the Half of the World"; solo, Dr. Ghidoni; music by Irene Steele; Mrs. Olin Baker who just returned from Muskegon, Mich., was present and also furnished music. Tempting refreshments was served by the hostess.

Live Stock Reporting Service Adopted by Indiana Federation of Farmers

TOWNSHIP MEETINGS

Will be Held in Every Township in the State Last Day of March

Indianapolis, Ind., March 23.—All the plans have been completed for a co-operative live stock reporting service by the Indiana Federation of Farmers' associations working in conjunction with the United States Department of Agriculture, which, if successful will be a great aid in the marketing of live stock in this state and tend to steady the market along with a more even supply from day to day. The project calls for a listing of all cattle, swine and sheep from each township in the state along with data showing the number being used for brood purposes, the approximate date the stock will be ready for the market and other information calculated to give the reporting service an exact line on the available supply.

In addition to tables which will be sent to the various county units of the Indiana Federation of Farmers' associations and turned over to the township units every three months to be filled out, a ten day service is to be tabulated at the headquarters of the farmers in this city.

Lewis Taylor, general secretary, said that the quarterly reports will show when the stock will be ready for the slaughter houses and that the farmers will be advised from time to time concerning conditions so that they can keep an even flow of live stock on the market and thereby do much in the way of obtaining steady prices.

"A meeting in every township of the state has been called for March 31st," said Mr. Taylor, "and at that time the farmers will be called upon to fill out the blanks we have prepared. The working program of the plan will be explained and we have high hopes that the system will prove of immense benefit to the producers. Under present conditions we find the market glutted one week and the following week a scarcity. If we tabulate this supply we will be in a position to advise the producers so that a more steady flow will come to the yards. Officers of the federation are optimistic of the success of the venture. Many other states will watch the movement in Indiana, the first in the country to try out the plan."

The reporting blanks have three divisions, one for cattle, one for swine and one for sheep to be made out quarterly, based on the following number on farm, births during quarter, bought on farm during quarter, sold off farm during quarter, slaughtered, died, females on hand for breeding, stock being prepared for market, number on feed at end of quarter, number that we will be finished during next ninety days, approximate date of finishing, and approximate average weight per head at time of finishing.

Word has been received by Secretary Taylor from several members of the executive committee of the American Bureau Federation, to which the Indiana farmers are affiliated, stating that the newly formed national organization is getting well under way. J. R. Howard, of Iowa, national president, with a coterie of able assistants will soon start an active campaign in many lines to promote the general welfare of the agriculturists of the nation.

ALFALFA WEEVIL CHECKED

The alfalfa weevil in some sections not only causes financial loss but even threatens actual ruin. Heretofore the control methods were only partially successful. Flooding the alfalfa fields, cultivating them when dry, and dragging them with a brush harrow, seemed to check the pest only in a measure. Also, the growth of a second cutting was so delayed and often so short that the crop as a whole was much reduced.

Work by the Salt Lake City office of the Bureau of Entomology United States Department of Agriculture, showed that best results came from spraying the alfalfa fields with a solution of arsenate of lead when the larvae of the weevil were doing the greatest amount of damage on the first crop. Demonstrations were held in various sections of the great Salt Lake Valley in co-operation with the county agricultural agents. During 1919 this work was extended and ten demonstrations carried forward by the county agents indicate that an effective and cheap method of stopping the destructiveness of this pest has been found.

DOINGS IN SHORT

(United Press Service)

Chicago—Sheriff Frank Haynes, Taft, Cal., impressed by Chicago's high moral tone, decided to wire the "Missus" that this wasn't a wicked city. Then he missed his wallet and \$65. He didn't send the telegram.

Chicago—After establishing pedestrian records in India, Japan, Australia and Africa, Charles Johnson was found dying in a timber east of Gary, Ind. He wore several medals won in walking contests.

Emporia, Kan.—When wind blew a dog into a deep well here, Owen Miller, 9, jumped in after him and clung to a chain until pulled out.

Pittsburgh—Gas well drillers struck a flow of two million feet after drilling only six feet at Swissvale. They were overjoyed until it was discovered a gas company main had been pierced.

Cleveland—"I thought I was dreaming," Anton Novach told the police. But when he woke up he found his \$600 missing and he knew the burglar he saw in his dream was painfully realistic.

Lafayette, Ind.—"I may be making a mistake, but if I am I have the satisfaction of knowing seven other judges made the same mistake," Judge Carr said as he granted a divorce to Alva Turner, laborer. "This is the eighth time Turner has been freed from what he termed 'matrimonial slavery.'"

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

"People who have catarrh or frequent colds invite influenza," declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days. Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcline into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcline in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.
