## A WONDERFUL HELP

At Two Stages of Life Lydia E. Pinkham's Vegetable Compound Made Mrs. Fairburn Strong And Well.

Chattanooga, Tenn.—"I used Lydia E. Pinkham's Vegetable Compound before my baby came when I could no longer keep up. It strengthened my back and relieved me of the dropsical effect which so often develops at such times. It helped me wonderfully. That was my first experience with the Vegetable Compound. Years afterwards I took it during the Change of Life and got along so well I scarcely ever had to lie down during the day and seldom had dizzy fainting spells. I am now well and strong, can do all my housework with perfect ease and it is a comfort to me to be able to say to other suffering women 'Take Lydia E. Pinkham's medicine and be strong.' I will be glad to have you use my name if it will be the means of helping any one."

—Mrs. R. A. FAIRBURN, 606 Orchard Knob Avenue, Chattanooga, Tenn.  
For forty years this famous root and herb medicine has been pre-eminent successful in controlling the diseases of women. Merit alone could have stood this test of time.

### HE WILL ACCEPT

(United Press Service)  
San Francisco, March 31.—(Special to Daily Democrat)—Plans for an active nationwide campaign to secure the republican presidential nomination forced Herbert Hoover, were being launched here today following Hoover's announcement that he would accept the republican nomination.  
"While I do not and will not myself seek the nomination, if it is felt that the issues necessitate it and it is demanded of me, I cannot refuse service," Hoover declared in a telegram received here by the Hoover Republican club of California.

Farm Labor is Short This Year as a Result—Good Jobs are Now Open

(United Press Service)  
Chicago, Mar. 31.—(Special to Daily Democrat)—Jazz, luxuries, dinners, plenty of shows and late hours, together with easy jobs at high wages, threatens to cause a labor shortage on farms this year which may cause further increases in living costs, observers here said today.

Tempting offers by farmers in the grain belt are meeting with little response and unless farm help is obtained shortly farmers will have to work night and day to get in their crops, according to reports.

"There is a very great labor shortage on the farms," said C. S. Boyd, head of a federal state employment agency here. "We receive 50 orders for farm hands daily and are only able to fill ten."

"The jobs pay from \$50 to \$80 a month, with room, board and washing. This is an increase of 25 per cent over last year. Jobs for married couples pay \$100 a month and they are given a house, garden and a cow."

"The lack of farm labor is caused by the fact that the saloons are closed and the laborers have lots of money," said Sam Cummings, farm labor agent. "They can get \$5 a day and city life attracts them. With plenty of money to spend they don't care to give up life in the city."

Boyd estimated the shortage on the farm will be 30 per cent. "We could place 300 single men at between \$50 and \$80 a month right now," said Boyd. "But we can't get them. The farm hands got good jobs during the war and don't want to give them up."

"The shortage will have a bad effect on crops and means higher prices. If the price goes up the farm hand will demand more money and then more increases will follow."

Indianapolis, Mar. 31.—(Special to Daily Democrat)—Food production in Indiana is threatened seriously by a shortage of farm labor, George C. Bryant, field agent of the department of agriculture said today.

"Farmers generally contemplate reducing production about 15 per cent," Bryant asserted. "This is due mainly to the labor shortage, and the high wages the labor is demanding. Another factor in causing reduction is the fluctuation of prices and the high cost of farm machinery."

St. Louis, Mo., Mar. 31.—(Special to Daily Democrat)—Farm hands of the southwest with wages paid this year will be able to come back to the country next year as summer boarders, employment agencies and farmers declared today.

A serious shortage of farm labor is forecast for Missouri, Arkansas and Southern Illinois, despite highest wages in history.

### CUTS THEIR THROATS

(United Press Service)  
Elk City, Okla., March 31.—(Special to Daily Democrat)—Mrs. E. J. Bowart despondent and in ill-health, cut the throats of her five children and then slashed her own throat this morning.

The five children ranging from four months to twelve years in age are dead. Mrs. Bowart is in the hospital here in a serious condition.

Tells the Story  
(Continued From Page One)

"Nobody had come to help us so I thought I had better start for Geneva—it's a mile and a quarter. I took the two children part way—had them wait, though they were afraid and were crying. I had to go back for mother and the baby, so partly crawling and trying to walk part of the way, I got back to them. Mother, whose collar-bone is broken, could walk a little—I don't know how. I picked the baby up and took off my petticoat to wrap him in. Then we three started for the other children. I can't remember much—I guess my leg hurt some, but most when we got to them some men in machines reached us. We went to the doctor and everything was 'all right.'"

Smiling courageously this sixteen-year-old girl continued to recite the details of the attention given them at Geneva and of the trip to the Fort Wayne hospital. As a last request she asked her visitor to write a short note to a neighbor near their former home, which luckily was fully covered with insurance, asking him to search the ruins of the place for her wrist watch and anything which might be left of an Easter outfit which had never been worn. "The things were so pretty," the youngster said and for the first time shed real tears in true girl fashion.

Mrs. Mary E. Roach, of Lynchburg, Va., who says Tanlac is her favorite medicine and that she will always keep it on hand as it enabled her to enjoy three years of good health.

"Tanlac has been the favorite medicine in my cabinet for three years," said Mrs. M. E. Roach, of 402 Clay street, Lynchburg, Virginia, in an interview, recently.

"At the time I began taking Tanlac," explained Mrs. Roach, "I had been suffering from indigestion, rheumatism and other troubles for nine years and could find nothing to help me. If I ventured to eat anything the least bit heavy I would blow up with sour gas and almost smother. My heart would palpitate frightfully and when these spells came on me I was so dizzy and weak I could hardly stand up. I often had to stop and rest while doing my housework. I was badly constipated and hardly ever free of headache. I also suffered with rheumatism in my fingers and especially in cloudy, rainy or snow weather my pain was almost unbearable. My kidneys and liver were out of order and I had the worst kind of pains in my back, legs and shoulders. I had no appetite and what little I did eat seemed to do me more harm than good, as I always suffered afterwards and had become so run-down weak and miserable that I sometimes felt like life was hardly worth living."

"One day I read a testimonial for Tanlac that seemed so sincere that I decided to see if the medicine would help me. Well, the first bottle did me so much good that I got another then another and so on until my troubles all disappeared. As I said that was three years ago, and I have been able to keep myself in good health ever since by taking a few doses of Tanlac now and then as I feel the need of it. Tanlac has built me up and given me strength and energy so that my housework is easy for me. It makes life worth living for it keeps me with a good appetite, helps me to digest my food properly and, by relieving me of all suffering and nervousness, enables me to sleep soundly every night. I shall always praise Tanlac."

Tanlac is sold in Decatur at Smith Yager and Falk's, in Berne at Stengel & Craig's and in Geneva at F. C. Deitsch's Drug Store.

### WASTE LAND WOULD PAY ITS OWN TAX

A total of 17,340,000 tons of wild hay was harvested in 1919 from prairie and marsh lands throughout the United States. At least a few thousand tons were produced in every state Dakota leading with 3,728,000 tons, with Nebraska, Minnesota and South Dakota following with over 2,000,000 tons each, according to the United States Department of Agriculture.
