Entered at the postoffice in Decatur, Indiana, as second-class matter.

Let every person join in the Easter services to be held in the churches in this city tomorrow in honor of Him who has arisen. It is needless to say that we should be grateful for His many blessings.

The public enjoyed the band concert given this afternoon by the General Electric band and will welcome their return here next week for the dedication exercises of the G. E. building.

George L. Saunders, editor of the Bluffton Banner has announced that he will be a candidate for the democratic nomination for joint representative from the counties of Wells, Blackford and Adams. A more qualified man for the place could not be found and with his election this fall his presence will add dignity to the state assembly. Mr. Saunders is a man of good business judgment, fully capable for the office to which he aspires and it is gratifying to know that a man of his splendid character seeks an office which is in the hands of the voters to give.

We like the tone of talk expressed by Ben F. Bilitier, managing editor of the Indiana Farmer's Guide, which company publishes "Business Chat", a newsy little trade magazine for the live-wire merchants in Indiana. Mr. Bilitier says in this month's issue of "Business Chat": "Some people do not like the boaster, but give me the man who is continually boasting about his store, his bank, his church, his home, his town, his state. That's the man I like because I always feel he is the man likely to make those things worth boasting about. The man who never boasts about things, probably never did anything to create things to boast about. He's a dead one. We want live and honest boasters in Indiana."

It was a happy thought of the

Knights of Columbus to give the city of Metz a statue of Lafayette, to stand on the public square of that historic city in the place recently occupied by a statue of Kaiser Wilhelm. It would be appropriate in any case to have the French liberator replace the Prussian autocrat. It is especially so in this instance, because it was from Metz that Lafayette set out in 1775, to fight for American freedom. It is fitting too, that this statue, which is to be made of bronze from captured German guns, should be presented by Americans and paid for by American subscription. It recalls the similar, though greater, gift of the children of France to America—the Statue of Liberty in New York harbor. The Metz monument will be a new bond uniting the sister republics.—Goshen Democrat.

Dr. Charles A. Paddock, of Portland, twice the mayor of that city and well known in this part of the state has announced that he will be a candidate for the democratic nomination for congress from the Eighth congressional district and will be unopposed for the nomination. The democracy of the district welcomes his entering into the race because in his election this fall the voters and the people in general see a chance of "shaking" and obtaining relief from the present inefficient and incapable incumbent of this important office, for they realize that this district has practically been without a congressman the last two years, although a man is drawing the per diem. Dr. Paddock during his term as mayor of Portland proved that he was a good business manager by paying off the city's debt of one hundred thousand dollars and placing his home town on a firm financial basis. He is widely popular among the voters as was proven in his election as mayor, Portland normally being a republican stronghold and it is without doubt that he will place the old Eighth district in the democratic column this fall.
