"REDS" MAY REPEAT 1919 PERFORMANCE

(By Henry L. Farrell, United Press staff correspondent).

New York, April 16.—Eight National League ball clubs go to the wire Wednesday for the 1920 race.

With the tendency of baseball dope to go astray, picking a winner is almost as perilous to one's judgment as giving a dry lecture in England.

However, if the Cincinnati Reds boat goes down, it will take all the experts with it as Pat Moran's champions are almost a unanimous choice to repeat.

The Miracle Man of 1919 has intact the team that created the sensation of last season and won the world's championship. They nosed out seven other clubs last year and there is no reason why they should not leave them behind again for none of the seven have been strengthened to a more dangerous degree.

Like the Braves of 1914, the Reds may suffer from "Patus enlargus," as Johnny Evers has pointed out. But on the other hand, as another expert reasons, the Reds will hardly forget the pile that landed in their pockets out of the series divvy last fall and money has peculiar powers of inducement.

John McGraw still has that treacherous infield hanging as an ill omen over the Giants. Young blood in the persons of George Kelly and Frank Frisch have replaced the veterans, Hal Chase and Heinie Zimmerman, but Larry Doyle and Art Fletcher are still there around the keystone sack and if they were unable to stand the gaff last season it is not easy to reason that they will be able to bear up under the strain this year. McGraw has one of the best pitching staffs in the league and he should finish second.

Pittsburgh and Brooklyn look to have between them the fight for third place. George Gibson will start his first season as a major league manager; with a seasoned ball club of ability that should respond to proper handling, Brooklyn has all the "makings" of a first division club and will be stronger this year than last season. Manager Robinson was exceptionally fortunate in getting a real find in young Bernie Neis, from the Canadian league, to fill in the place of Tommy Griffith in the outfield. Geo. Mohart, a young pitcher of ability, was also an acquisition of merit.

Before going out to Pasadena, Cal., the Cubs were counted a sure one-two-three club. But misfortune overtook Fred Mitchell in California. Charley Hollocher had to have his hand operated on. Fred Merkle was hurt and then along came Charley Herzog with an injury that threatens to impair his usefulness for the season. In addition the arm of George Tyler failed to respond to winter treatment and he shows no promise of returning to his old form.

The Cardinals possess potential strength and they may live up to Branch Rickey's annual promise to "do something." The Phils have been built up by Manager Cravath and they will not start the season the hopeless tailenders they were last year. The Braves have done nothing to gain strength during the off season and they look destined for the unenviable position at the end of the column.
