CHARLES RAY
Gosh all Tarnation, but he was mad! He meant nothin' but good. Fact was, he had the grandest little rheumatism cure that ever brought relief to sufferin' humanity. And then to think that his very first "prospect" should have busted his new bicycle and chased him down the road! Mad!! Well, Bill just had to go and do something desperate, and he did! Fell head over heels in love, became a regular fighting hero, and made more money than you'd ever dream, looking at him, here. You'll laugh and thrill and glow like any kid at a circus when you see this picture.
Also another of those famous "Vod-avil Movies."

FAVOR A RETURN
Farmers and Big Business Men Favor Return of the Railroads to THE GOVERNMENT
Daniel Roper Gives Out a Statement — Farmers Send Out Letter
(United Press Service)
Washington, May 28.—(Special to Daily Democrat)—The nation's railroads must go back under government control soon unless private managers begin to operate them efficiently and without calling on the government for financial assistance, Daniel C. Roper, big corporation head, warned today.
"Business men will demand a resumption of government control unless service is bettered quickly," said Roper.
"Private management now seems to be costing the public millions under the guarantee clause of the transportation act."
Roper, until recently directed collection of federal taxes as commissioner of the internal revenue board.
"As a taxpayer," he said, "I'm alarmed at the financial demands which the roads are preparing to make upon the government. If the government must pay the bill, it might as well assume control."
"There are indications that under the government's promise to guarantee the private managers 6 per cent. on their investments, the roads will soon call on the government to make up a deficiency of about \$500,000,000 for six months' private operation."

Washington, May 28.—(Special to Daily Democrat)—Government ownership of railroads and merchant marine was demanded today by the farmers national council in a letter addressed by George P. Hampton, director of the council, to the democratic anti-republican national committees.
Other planks he said the farmers wanted were:
Legislation to control the packers.
Taxes on lands and other natural resources held for speculation.
Adequate and cheap credit for farmers, and protection of farmers cooperative societies from prosecution under anti-trust laws.
