

# AT THE BAPTIST CHURCH

Rev. E. O. Miller of Montone, Ind., will preach at the Baptist church this evening. Every member is expected to attend.

## How Fast We Die

A Race of People Who Fight the Hand of Time

The population of the world is about 1,600,000,000.

The average age of death is about 33 years.

About 57,374,113 die annually.

Nearly 500,000 die weekly.

About 2,319 die hourly.

About 39 die every minute.

About three die every two seconds.

Sixty persons have died while you have been reading the above.

Death at 23 (before our prime) means very short. From 23 to 35 is regarded as the sweet summer of life.

Adventures, loves and romances are usually lived with these years, after which comes the problem of how to fight off early old age, premature senility and the distressing, dependent life that usually comes to us in the winter of our lives.

In the famous Balkans, or that part of Europe known as the Near East, live a hardy, rugged people. Though brave and fearless, they are a peevish people.

Their fellowship with nature has given them precious secrets in herbs, plant life and agriculture.

Two-thirds of the forest and most precious perfumes (santal of roses) comes from Bulgaria.

The Bulgarians gave the idea of fermented milk to the world, and it is generally known that in Bulgaria, in a population of 1,000,000 people, 1,000 live to be 100 years or over, while here in the United States it is regarded as a rare news item when any one reaches the century mark.

Their one great family remedy upon which they rely and which for centuries has been handed down from one generation to another is the famous preparation called Bulgarian Blood Tea.

Composed of roots, herbs, leaves, seeds, berries, bark and flowers. A teaspoonful of these herbs brewed in a cupful of hot water and taken at bedtime eliminates the fatal toxic poisons which are responsible for early old age and most of the ailments that afflict the human race.

To retain youth and the world over and gained by millions of sufferers fighting disease and weakness off old age weaknesses.

They include huge girls budding into womanhood, or women craving protection and health of life. All blood and weakness in the body is removed, the rough and scaly, the bloodless, rich and pure and the spark of good health returns to those who were in despair. Just ask your druggist today for a trial package of Bulgarian Blood Tea and you will never regret the time you spent in reading this from.

## Will Organize County Workers

(Continued from page one)

The meetings will be held at 7:30 o'clock Tuesday evening at headquarters and every one interested in the success of the party is urged to attend. Mr. Crittenger will make every effort to organize the district down to the individual and is asking your assistance.

## Will Repair the Bridges

(Continued from page one)

Not only the bridges are showing signs of weakening, but the roadbeds on many of the main highways are showing wear. The highway superintendent is now spreading crushed stone on the Russell street highway, and this will proceed to the Henry Elting corner, a mile south of the corporation line.

Repairs are also being made to the road leading east and northeast from the Monroe street bridge. By closing the north bridge to Fort Wayne traffic is diverted over this highway, and it must of necessity be kept in good repair. Then, too, this road will be used quite extensively during the week of the Great Northern Indiana fair and the Old Home Week in August. It is also planned to oil this highway after the stone has settled to make. This will be greatly appreciated by those living along the route and by traffic to and from the fair grounds to the city.

## Why a Majority of the Smaller Cars Come on Goodyear Tires

Last year more cars using 30x3-, 30x3½-, or 31x4-inch tires were factory-equipped with Goodyear Tires than with any other kind.

This is plainly a result of the high relative value produced in these tires for the smaller cars by Goodyear's enormous resources and scrupulous care.

They represent the same intense endeavor to supply utmost satisfaction in tires that has laid the basis for the marked preference which exists everywhere for Goodyear Tires in the larger sizes.

This real Goodyear value in tires is available for your Ford, Chevrolet, Dort, Maxwell, or other car using one of these sizes, at our nearest Service Station. Go there for these tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread..... \$23.50  
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread..... \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water- \$4.50 proof bag
