### SUGGESTIONS FOR HOT WEATHER SUPPERS

To many housewives the problem of hot weather suppers assumes enormous proportions.

There are many reasons why hot weather suppers should differ from those during the cooler months. There is more need for food that is cool and refreshing including cool drinks and fresh fruits and vegetables. Because the weather is warm, many times the evening meal fits these needs better if no hot dish is prepared. In preparing meals of this kind it relieves the housewife of the trying duty of heating up the kitchen and spending a part of the late afternoon in this uncomfortable place. Also, the evening meal can be prepared at the same time that the noonday lunch or dinner is being prepared. The following hot weather supper menus were prepared by Miss Inez Richardson of the home economics extension staff of Purdue university.

Chopped egg and pickle sandwiches.  
Perfection salad.  
Potato chips.  
Ice tea.  
Cherry cobbler.

Cold sliced ham.  
Bread and butter sandwiches.  
Cottage cheese and pineapple salad.  
Radishes.  
Cold milk or ice tea.  
Sliced peaches and cakes.

Chopped meat sandwiches.  
Bread and butter sandwiches.  
Lettuce salad with mayonnaise.  
Honey.  
Ice cream and cakes.  
Lemonade.

### MISTRESS INVADES OWN KITCHEN—SHE IS FINED!

London—(By Mail) — There is no etiquette so strict as that which dominates London life "below stairs."

With all the upheavals of the world war, the dignity of cooks and butlers remains unassailed. A case was recently heard in the high court wherein a cook took offence because the mistress invaded the kitchen and insisted on cooking some mutton chops herself. The insulted culinary queen immediately gave notice, and in this she was joined by her husband, the butler. Whereupon the mistress locked the back door and thus got herself sued for "wrongful imprisonment."

During the hearing of the case the judge asked why, if the mistress had only locked the back door, did not the couple go out by the front.

The cook and butler nearly collapsed as the suggestion.

"That," said the butler, painfully surprised at the judge's ignorance, "is against all kitchen etiquette. When a servant is engaged, he enters the house through the front door. After that he regards the back door as his sole means of entrance and exit. No self-respecting servant would dream of leaving his employer's house by the front door!"

On inquiry it was found that the etiquette ruling such matters was a very real thing to the circle of overlords and underlings of the kitchen, and the aggrieved pair were allowed £5 damages.

## DOCTORS FAVOR NEW TASTELESS CASTOR OIL

New Process Removes Disagreeable Taste From Castor Oil.

Doctors have always prescribed castor oil when a real laxative is needed, and all mothers know how much trouble it is to get children to take it. There need be no more trouble, for doctors are now recommending Kellogg's Tasteless Castor Oil, from which absolutely all nauseating taste has been removed. Children take it readily. They need not even know it is castor oil. This splendid new form of the good old family remedy is the result of a remarkable process perfected by the chemists of Spencer Kellogg & Sons, Inc. Kellogg's Tasteless Castor Oil is exactly the same as the old-fashioned disagreeable kind. Nothing has been removed but the taste; strength and purity remain the same—a 100 per cent. pure castor oil. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles, plainly labelled Kellogg's Tasteless Castor Oil. Three sizes, 15c., 35c., and 65c.—(Adv.)

# Fordson Farm Tractor

## Early Summer Plowing Is Most Important

Ground should be broken as soon as possible after wheat and other summer crops are removed.

Early summer plowing and seed-bed preparation will assure larger yields from any crop sown in the fall, whether it be Alfalfa, Red Clover, Crimson Clover or Wheat.

The Fordson Tractor can be used with tremendous advantage this summer in accomplishing early plowing and cutting and threshing small grain.

The Fordson saves from 30 to 50 per cent of the farmer's time, and time saved—getting fields in shape to plant in the proper season and getting things done when they should be done—means money to the farmer. Besides it solves the labor problem.

Price Only \$850.00 F. O. B. Dearborn, Mich.

Order a Fordson Now. Factory demands will be unusually great this year, and delay may mean heavy loss to you.

REMEMBER—The Fordson Power Farming Unit can be operated by one man. This unit consists of the Oliver Plow, the Dunham Culti-Packer, Roderrick-Lean Automatic Disc Harrow, Smoothing Harrow and Amsco Tractor Seed Drill.
