Entered at the postoffice at Decatur, Indiana, as second-class matter.

Every one who votes in November must register either September 4th or October 4th. The safe way to do it is to qualify on the first day, Saturday, September 4th.

The selection of Mr. McIntosh of Worthington as the democratic candidate for state superintendent will meet the approval of the people of Indiana. He succeeds Miss Baylor who felt unable to leave her federal position.

The best weather ever known in the middle west with rain and sunshine properly distributed, means the best crops ever known here, for which we are all thankful. Let's hope that nothing interferes to prevent the realization of this prophecy.

Decatur is pulling together now as it never did in its history and it's progressing. We have just started and within a few years we propose to be the best little city in the state. It can be done and it will be done if we continue to think right and work hard as we have the past year.

The Northern Indiana fair will help advertise this community and the activities planned for the future Belmont park mean more than many people think.

Add this to the other improvements in this county the past few months and it will be seen that we have done much towards a greater and better community.

Co-operation is the biggest thing in any community. It made the fair last week. It will make Adams county if we stay on the job as we should. This can be the best little manufacturing center in the best agricultural and stock county in America. Don't that mean something? Let's all work at it harder.

The New York Evening Post, recognized as the greatest independent newspaper in the world, has announced its intention to support Cox and Roosevelt. They declare Harding a "Say-nothing and do-nothing" candidate and not qualified for the strenuous problems that must be faced by the man who assumes the presidency at this time.

There never was a time when questions of greater import were before the people than this year. In this state the tax muddle, the expensive administration, the special sessions of legislatures has brought about a condition that warrants a change. It's up to the voters to qualify to vote. Register Saturday, September 4th, in your precinct and get this part of your duty off your mind.

Mr. Harding has decided to stick to his front porch and it is generally believed that he is afraid to start out on a stumping tour. He must carefully prepare his speeches which are then censured by Deacon Hays and other ring masters before he gives utterance. It must be embarrassing and a lot of trouble. In the meantime Jimmie Cox and Mr. Roosevelt will go to the people with their messages and they will be worth hearing.

The state tax board has approved the personal property assessment of Adams county and kindly notified the local officials that there will be no horizontal increase on same. Isn't that fine? Of course the assessment is three times what it was and the new rate will fairly make you gasp but it's encouraging to know that the men in power at Indianapolis have decided not to take any more this year.

Good citizens who are qualified to vote will not for any reason refuse to perform that duty. The way to make this country better is for each and every citizen to vote. You should have enough interest in your county, state and nation to assist in the selection of the men who conduct affairs of government. Men may differ with you in politics but they think better of those who vote against them than those who do not vote at all. We have no time for the non-participant in the affairs of greatest importance.

It is surprising to see what has been done in the factory district during the past few months. Less than a year ago, the territory northwest of town was somewhat desolate looking.

Now the General Electric has a modern, fire proof factory employing a hundred and fifty satisfied people and turning out high grade motors. This number is being added to each day and it will soon be a real concern. If you look off to the north you will see another busy place, the Decatur Castings Company where almost as many are working and where much progress is being made. These industries are just starting and the future for Decatur is bright indeed if we but take advantage of the opportunity. All we have to do is to be progressive and helpful and this we should gladly do for it means much to all of us, in the way of happiness and prosperity. Visit these new plants, then remember the many others going full tilt in old Decatur and you will feel that we are moving out and will soon be on the map.

### FIREMAN WAS KILLED

New York, Aug. 18.—(Special to Daily Democrat)—One fireman was killed during the night and 70 others overcome in a three hour battle with a flaming pit under a store in 14th street. The pit in which the fire started was a store room containing a large quantity of celluloid. Many fighters used gas masks in combating the flames.

### TENNESSEE GIVES WOMEN THE BALLOT

(Continued from page one)  
result 50 in favor of suffrage and 46 against.

Walker is anti-ratificationist. By changing his vote he gains two days during which a reconsideration may be had.

For a minute after the final vote was cast it looked as if it was a tie. It would have been, but Representative Burns immediately announced he changed his vote from "no" on "aye."

After the vote the house adjourned. The session was one of the stormiest in the history of the legislature.

Aside from this and the possibility of a change in the result through a reconsideration the only step remaining to make the 19th amendment operative is the promulgation of a decree from the secretary of state. Suffragists estimated there are twenty-seven million women voters in this country.

Washington, Aug. 18.—(Special to Daily Democrat)—A little group of women suffrage leaders here today was waiting for the vote from Tennessee.

If that vote is favorable it will mean that nearly 27,000,000 American women will have the privilege of the full franchise in the presidential elections next November.

If the vote goes against ratification of the suffrage amendment, a great part of these 27,000,000 women must wait four more years before they can cast their ballot for a president of the United States.

when Kern, left fielder, the first man up, hammered the ball over the center fielder's head to the fence and was called out in a slide to home in a close decision.

The game last evening was a very interesting affair, both sides playing real ball, and both being able to hold their own. Just when the tie will be played off is not known at this time. Batteries for the clerks were White and Myers. G. E., Buffenbarger and Baxter.

The following is the schedule for the teams in the industrial league:

August 21—G. E. vs. Foundry.  
August 24—Clerks vs. Sugar Factory.  
August 26—Foundry vs. Sugar Factory.  
August 31—Clerks vs. G. E.

## Asserts New Discovery Brings Blessed Relief to Hay Fever Sufferers

Can Make it Yourself at Home at Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing Hay Fever into less than a mild cold, claims most emphatically that if taken in time Hay Fever or Rose Fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through Pharmacists to all Hay and Rose Fever sufferers who still have faith that nature has provided an effective remedy for this common, yet miserable disease.

And best of all this remedy costs almost nothing. Get three-quarter ounce bottle of Mentholized Arcline at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled, then gargle as directed and twice daily snuff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work, but oftentimes simple, natural remedies are the best; as you will find after using. If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear. Mentholized Arcline is new in this market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.

## Small Cars—and the Declining Cost of Tire Mileage

You are aware, of course, that during the last ten years, Goodyear has been able steadily to increase the amount of mileage built into its tires.

Do you realize, also, that this increase has been accomplished without extra cost to the user—that Goodyear Tires are priced no higher today than in 1910?

In no tire in the Goodyear line is the declining cost of mileage more evident than in the present 30 x 3, 30 x 3½ and 31 x 4-inch size Goodyear Tires made especially for small cars.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires—get the exceptional worth and endurance that Goodyear builds into them.
