## GOES TO CHICAGO

To Attend National Dairy Show—Work of All Students of Class Praised

G. J. Brown, of Milford, a junior; Paul Blackburn, of Decatur, a junior; W. J. Poe, of Rockville, a senior, and R. B. Oyler, of Warsaw, a senior, as alternate, will compose the team which will represent Purdue University in the intercollegiate dairy products judging team at the National Dairy Show at Chicago October 7 to 18th. This was the announcement made last night by Prof. F. D. Lucas of the Dairy department, who has been coaching the twelve agricultural students who have been competing for the team. The work of all the students was excellent, he said, and it was only after most careful calculations of all the grades that he was able to select the team.

Attend Show October 7.

The team will leave for the dairy show October 7th, and will spend several days judging market milk, cheese and butter, not only at the show, but also at Chicago commission houses. Expenses up to \$15 are being paid for each of the four men by the Indiana Dairy Manufacturers' Association, and in addition the association will give the member of the team scoring the highest a cash prize of \$15; \$10 to the second man and \$5 to the third.

The dairy cattle judging team which has been coached by Prof. L. H. Fairchild will leave Sunday on a trip to Wisconsin to judge dairy cattle for a few days before entering the competition at Chicago.—Purdue Exponent.

## Strive To Have Healthy Skin

Next time you are in a gathering of women note the different conditions apparent in complexion. You will see some filled with blackheads, some dry and rough, some smooth and greasy, some smeared with rouge, some streaked with heavy metallic powders and once in a while you will see one that is a demonstration of intelligence from every point of view. The color is rosy, the skin is clear and smooth, the pores are small and open, the powder does not show on the firm vigorous skin. Every woman can have a good complexion if she will only use a little discretion. If you would acquire real beauty, the beauty of perfect health, you must replenish your worn-out nerves with lecithin, Nature's own nerve restorer, and put into your blood the invigorating iron which Nature intended it to have for health. In most of the modern foods these and other vitalizing elements have been largely eliminated. Yet to be healthy and beautiful the system must have them. They are found in Bio-feren, not only in proper proportions to restore health but in such form as the system can best assimilate.

There is no use waiting for health and beauty. It is better to do things today than tomorrow. Go to your physician today—right now—he will prescribe Bio-feren and you can take it at once as he advises or as directions on the package call for.

A treatment of lecithin and iron peptone as combined in Bio-feren immediately aids nutrition and invigorates the patient.

And Bio-feren in its pellet form is easy and palatable to take—no liquid

iron discolored of the teeth, no unpleasant taste.

There is no secret or mystery about Bio-feren. Doctors prescribe it regularly because they know exactly what it contains as well as what it will do and they know they could not formulate a better upbuilding tonic.

The action of Bio-feren on the system is so beneficial, we are so sure of its giving you positive health and vigor, providing, of course, there is no disease. It cures such things as cancer, tuberculosis, etc., that we only sell it on the condition that you agree to return the empty packing and accept a refund of your money unless you are entirely satisfied.
