WANT ADS EARN

SIX MONTHS I  
COULD NOT WORK

Lydia E. Pinkham's Vegetable Compound Made Me Strong and Able to Work—I Recommend It To All My Friends.

Bayonne, N. J.—"I had pains in back and legs so that I could not stand caused by female trouble. I felt so tired all the time, had bad headaches, and for six months I could not work. I was treated by a physician and took other remedies but got no relief. A friend told me about Lydia E. Pinkham's Vegetable Compound and it has helped me very much. I am well and strong and now able to do my work. I cannot thank you enough and I recommend your medicine to my friends who are sick."—Mrs. SUSIE SACATANSKY, 25 East 17th St., Bayonne, N. J.

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for over forty years, and today hold a record for such wonderful success as does Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

shorthand reporter present. He is now the official reporter for the senate sub-committee on campaign expenditures.

Carlson, a doughboy, was on his way to Luxembourg when the president's secretary called him to Paris to help report the conference sessions.

Carlson said he had read Spencer's and Reed's statements and then had gone over his notes. He said: "I can find no such statement as alleged in the St. Louis dispatch."

The St. Louis dispatch was an account of a speech by Senator Spencer.

Washington, Oct. 11—(Special to Daily Democrat)—The white house today added another chapter to the controversy between President Wilson and Senator Spencer, Missouri, by making public a stenographic transcript of the president's remarks at the eighth plenary session of the peace conference.

Spencer charged that at this session, President Wilson promised American military aid to Serbia and Rumania, if those two countries were attacked. The president replied that Spencer's statement was false. Republican leaders and Senator Reed of Missouri, a democrat, came to Spencer's support.

## The Common Fault With Most Cooks is to Use Too Much Shortening

ONE of the most embarrassing things for a housewife is to have her cake turn out "heavy"—or her pie crust "soggy." Not only unsatisfactory to the palate but the cause of many people saying: "Pies give me indigestion"—or "I can't eat pastry."

Yet this is a condition easily avoided.

Don't use too much shortening.

You use 1/3 to 1/4 less Mazola than you need of either butter or lard—with better results.

If it's pie, Mazola will make the finest, most delicate and easily digested crust you ever tasted.

Or if it's cake—both lightness and richness will result from using Mazola.

And being an oil it is always ready for instant use—no tiresome "creaming-in."

This is because Mazola is an absolutely pure vegetable fat from an edible source. It is 100% fat—contains no moisture as is contained in butter and lard.

Once you try Mazola you will prefer it to lard and other shortenings.
