Every man on the democratic county ticket is qualified for the place he seeks and is deserving of election. Look them over and you will agree that this is true.

Senator Harding favors dollar wheat. He has said so in the senate and it is a matter of record. Farmers do you hope to better yourselves with such a man as president?

Last year this county sent \$65,000 to the state. Next year we will send \$100,000. Besides this we lose the automobile tax which would amount to \$30,000 under the old law, making our actual increase for state purposes 100%.

HARNESS RACE AT RECENT FAIR—BELLMONT PARK.

the republicans, all over the country, proclaiming "Steady Americans, let's be done with wiggle and wobble." Yet every other day Senator Harding has a different idea of the league.

Senator Heflin will speak at the court house Thursday night, Judge Benjamin Meek of Bucyrus will deliver several speeches in the county this week, local speakers will appear in each township. You should attend and post yourself on the important issues of the campaign.

Join the crowd on the traction special for Fort Wayne Wednesday evening. You will like Jimmy Cox and his "pep." He is a fighter for you and is your best bet for the next four years.

You will be surprised if you compare your taxes next year to those of last year. You won't think much of the new tax law when you do it either. The increase in state taxes alone means 100% boost.

Ora Davies was short in his accounts as treasurer of Howard county and Kokomo, \$3,700. As a reward Senator Watson put him on the state ticket as a candidate for treasurer of state. He is still on. Do you want that kind of officials?

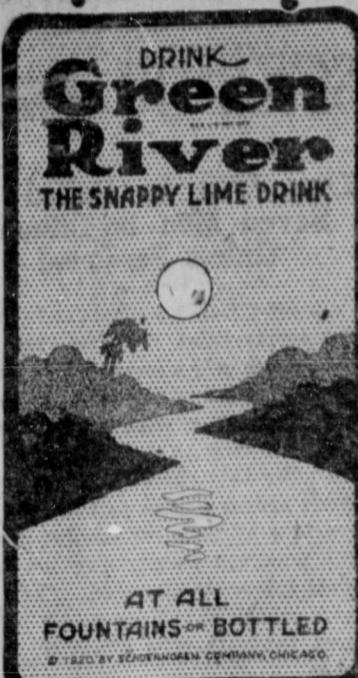

One who has any sense of humor has to smile every time he sees one of those big \$100 posters, put up by

How about those 800 votes controlled by Fred Rohrer and to be delivered to the republican party? The boys laughed up their sleeves at the people they were fooling too soon. Indications now are that the eight hundred has dwindled away and the republicans will be lucky if they hold their own in this county.

The increase in state taxes which will be sent from this county next year as compared to last year, under the old law, is double or 100%. What has become of it? Not a salary was increased, the state institutions have had a pittance sum with which to operate, there is nothing to account for the expenditure but waste, and this after the promises made by Mr. Goodrich that he would conduct an economical administration. Will they fool you again?

The laboring man who wants to go back to the \$1.50 wage, the farmer who wants dollar wheat, the merchant who wants to try to live again in a country where people are not making a living, will do well to vote for Harding. He is controlled by the crowd of men who favor that and has expressed himself favorable to such conditions. You will lose the chance of your life if you permit the old gang to gain control this year for it will take years to reconstruct the country, once it has gone to pieces.

Do you think the money you pay for automobile taxes ought to be kept at home? That's what the democratic platform stands for. This

year every penny of it was sent to Indianapolis and none came back. It should be paid in the county and kept here. The new auto law is a sample of the republican efficiency you have heard so much about. It means higher taxes. Vote for McCulloch, a clean, capable, forceful man who will give you the best service he can.

The Berne Witness is greatly worried because they have heard the editor of the Daily Democrat has been losing sleep. Now Freddie, that nervousness is all over and we are going fine. It was caused by the report that you had cornered eight hundred democratic votes in Adams county, had them in your vest pocket and was going to deliver them to Senator Harding, along with the rest of the "chair warmers." As soon as we discovered it was just one of your jokes, we began to feel better. By November 3rd we will be back with a smile. Watch the returns.

The democrats of Adams county are well organized, with men and women working in each precinct and the result is sure to be satisfactory. The returns will show a splendid victory for the old party. With three weeks to complete the work, the

county ticket will be elected by a large majority, and the majority given every man on the national and state ticket will surprise the chesty claimers of great things for the republican ticket. The voters of Adams county are too wise to be fooled by the silly propaganda used early in the campaign.

The league of nations is a contract between the countries of the world to disarm and to keep peace. Can't go far wrong doing that can we? The republican orators and papers, unfair as they always are, try to make you believe it will mean war. It means just the opposite and the only chance for war is for us to remain out. Forty nations have signed, Germany will be in soon, every nation which has a stable government, will be members of the league within a year. Shall the United States build a fence around this country and tell the rest of the world to go to the dickens? It would be a sad day for this grand old country.

The laboring men and the farmer, the ordinary business man and the small manufacturer has enjoyed the greatest prosperity in his life during the past few years. The republicans tell you almost brutally that this will end after next March if they get into power. Do you want it to end? Haven't you done pretty well? Why can't you see that your interests are not the interests of the crowd of New York bankers who wish to again control the affairs of this country. Big business leaders have interests that do not agree with yours. They are patting you on the back but it's for them. It will be a sorry day for the country if control is turned back to the powerful clique now trying to get it.
