"A dollar bushel wheat is enough for any farmer!"—Harding.

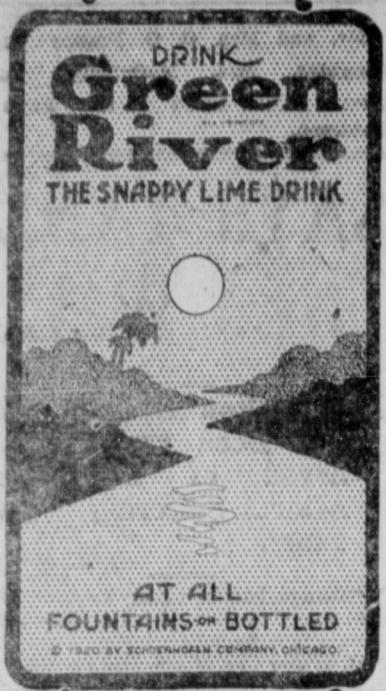

The men of the county ticket are qualified, efficient and worthy of your support on November 2nd. Don't join that controlled soop which Fred Rohrer boasts of manipulating.

If you want a copy of the league of nations covenant, you can secure them by calling or sending word to democratic headquarters. Every voter should read this most important document.

Here is what Senator Harding said about Hiram Johnson a few years ago: "Such braying asses as this egotistical Johnson. He appears at close view to be both a fakir and a blackguard."

The Monroe doctrine which has operated successfully for a hundred years will be extended to cover the civilized world, by the league of nations. Will your conscience permit you to vote for a man who admits he hasn't a single idea on the plan that should be used?

If the Berne Witness can deliver eight hundred democratic votes or any other amount to the republicans of Indiana who have broken every promise they have made, increased your taxes shamefully and otherwise

boards and commissions. Stop it right now.

Senator Heflin has a style of finished oratory that is worth hearing. He has the vocabulary, the style, the punch and the argument and few people here have ever heard a more masterful address than that delivered at the court house last night. His comparisons were rich with humor, his drives were powerful and he brought forth much real enthusiasm. Hundreds proclaim it the best political address ever heard in this country.

The visit of Mrs. Idaho Maglone Gibson to Decatur on the night of October 30th will prove a fitting one for the closing of the big campaign. Mrs. Gibson as is well known is an orator of great ability, whose argument is clear and plain and wonderful to listen to. She exhibits the flags of the world with a story of each and her tribute to the flag of this nation is a word picture rarely equalled by any speaker, man or woman. Her appearance here should be the occasion for a wonderful rally of the women of Adams county.

The league is a contract or peace treaty between all the nations of the world, providing means for preventing war. That's its purpose. It is opposed by the gun and munition manufacturers, a strong business trust who favor military training and more wars. That's when they make money. If you vote for Harding you take a chance on continuing bloodshed. If you vote for Cox you know we will have a league with proper reservations if he wins and has a congress. There should be no hesitancy about it. The league cannot hurt you. If it stops war and it will, it will be the greatest step forward in all time.

Senator Heflin is a brilliant orator and a great lawyer. He tried the opponents to the league of nations and the audience as the jury decided he

had made a perfect case. He made every point clear and he proved conclusively that the interests of the people are best cared for by the democratic party—your party. There is no doubt that the great interests again want to control the finances of the country. The candidate tells you straight out that dollar wheat is enough for any farmer, that wages are too high and that he will train with the reactionaries. Surely the people will not be fooled by them again.

Announcement was received here today of the birth of a boy baby to Mr. and Mrs. Joe Burd at Cleveland, Ohio. The little fellow made his appearance last Saturday, and weighs eight and one-half pounds. Mr. Burd is a son of Mr. and Mrs. Al Burd of Mercer avenue.

And now Root, Wickersham and other republicans who favor the league announce they will vote for Harding because they believe he will give them the league. How they make up their minds when in each speech he is making the senator announces he will scrap the league, is more than we can understand. The truth is they don't know what he will do and he doesn't know himself. As he said in Baltimore he hasn't a single constructive idea regarding the league. If by any chance Harding should be elected the party will split wide open on the issue and as a result there will be no league. If you want to stop war forever, vote for Cox.

The tax payers of Root township will send to the state next year exactly \$3,582.46 more than last year. That's your share of the money from this county under the law which it was assured you would not increase your taxes a penny, that's your share of the money that is wasted on garages and on other ways, useless to you. If you vote the republican ticket this year you are voting against yourself and your best interests. It was never so clear. The republicans were never so bold—dollar wheat, low wages, higher taxes, seems to be their platform. Surely you can see the smooth working of the greatest political machine ever built up in this country. Every citizen, rich and poor is hurt by the new tax law. Will you endorse it? The republican candidate, Mr. McCray has done so.

At all the great religious gatherings held in America during the past two years the league of nations covenant has been approved. Practically every denomination has joined in endorsing the principles contained in the covenant, the Methodist church was first in its meeting in Des Moines, and the Baptist National association was next; then the Presbyterian general assembly meeting in Philadelphia followed; then the triennial general convention of the Protestant Episcopal church meeting in Detroit; then the national council of the Congregational church meet-

ing in Grand Rapids; the Unitarian general conference meeting in Baltimore; the Christian Church of Disciples meeting in Cincinnati; the Council of Jewish Women of America, and then the federal council of Churches of Christ in America—made up of practically every religious faith, and Pope Benedict, head of the Catholic church, in his last encyclical used these words: "Once the league among the nations is founded on the Christian law in all that regards justice and charity the church will surely not refuse. A special reason for forming this society among the nations is the need generally recognized of reducing, if it is not possible to abolish it entirely, the enormous military expenditure which can no longer be borne by the states in order that in this way murderous and disastrous wars may be prevented."—Governor Cox in speech at For Wayne.
