FOR THE FARMERS

Items of Interest to the Farmers of Adams County.

(By the County Agent)

Township leaders and others interested in the Adams County Farmers' Association are asked to meet at the Monroe State Bank, Monroe, Monday morning, December 20, at 10 a.m.

Community Fairs "Go Big" With Steuben County Fairs.

Community interest in better homes, better crops, better livestock and better folks, everything that goes to make up a better neighborhood is being aroused widely in Steuben county through community fairs, eight of which have been held during the last two months or so, covering practically all sections of the county. In every case the fair has been centered around the consolidated school with the school superintendent helping to arouse interest among the patrons to make the fair a "go." The entertainment was of a varied nature, depending on the liking of the superintendent and the local committee which worked with him. In some places the school drive was the big feature, in others the Red Cross drive was featured, while in some, County Agent T. A. Parker, one of the starters of the community fair idea in the county, was the principal speaker. At least 3,500 different people attended these community shows, with practically double this number at all the sessions, some of the places having one-day and some two-day meeting. The exhibits were large and varied in every instance, some even rivaling the county fair.

Many Short Courses Offered at Purdue.

In addition to the usual farmers' short course of one week and the regular eight weeks' winter course in agriculture, Purdue University is offering this year a free short course of two weeks in poultry which is nearly over; three tractor short courses of two weeks each; a course of one week, January 24 to 19 for creamery field men; a course for fruit growers, February 7 to 11, and one for canners, February 21 to 25. Three well known livestock herdsmen from Iowa already have signified their intentions of enrolling on the eight weeks' winter course in animal husbandry because as one of them said at the recent international, "We can get the best work at Purdue that we can anywhere." Courses are free, except laboratory fees to Indiana folks.

PUBLIC SERVICE COMMISSION TO HEAR PETITION OF POWER CO.

Indianapolis, Ind., Dec. 16.—The public service commission here today was to hear argument on the petition of the Indiana Power company for authority to increase its electric rates in Vincennes and the territory which it serves about that city. The company's petition asks that it be allowed to increase its rates from 8 cents per kilowatt hour with thirty-three and one-third per cent. discount to 10 cents per kilowatt hour, with discount of 26 per cent, and an increase of from 10 cents per kilowatt hour to 12 cents per hour with a 10 per cent. discount.

In its petition the company seeks a still larger increase in its commercial power rates. The one to ten horsepower motor, according to the petition, should be increased from \$21 to \$30 per month, plus an "energy charge," graded from 3½ cents per kilowatt hour to 2 cents per kilowatt hour.

The commission has not taken any definite action and it is expected that it will be at least two weeks before it hands down its decision.

There is a world of pretty neckwear that every woman will love to receive and almost any woman can make. A favorite piece consists of a collar with vestee to match, like that shown above.

STORM DAMAGE IN SOUTH PART OF COUNTY

Considerable damage is reported from the south part of the county as a result of the windstorm of Monday night and Tuesday morning. At the Baker school house in Wabash township a part of the east wall was blown out, and it will be necessary to repair the building before school can be resumed. Farmers of the neighborhood report the loss of several small outbuildings, and parts of roofs of various buildings, as well as the loss of shade trees and fruit trees. The neighborhood four miles southeast of Berne was also hard hit, a barn on the Pickett farm being blown down, and a corn crib on the Jacob Neuenschwander farm was blown from its foundation and taken for a considerable distance by the wind. The towns of Berne and Linne Grove were without electric current for eight hours, and candles and lamps were again forced into use.

STATE TAX BOARD BOARD MEETS

Indianapolis, Ind., Dec. 16.—The annual conference of the state tax board of tax commissioners was scheduled to begin here today. Usually the conference is held the first week in January, but owing to the convening of the legislature and the new appointments, which are to be made by Governor-elect McCray, the board convened two weeks earlier.

The county assessing officers are instructed at the conference relative to the work of the 1921 assessing period.

SAYS IT FIRST AND SAYS IT LAST

Carrie G. Harrel, 319 Nicholson St., Norfolk, Va., writes: "I'll tell anybody that Foley's Honey and Tar is all right. It did me all the good. I said it first and I'll say it last." Thousands of bottles of this reliable remedy were bought last week by careful mothers so as to be prepared to check coughs, colds and croup at the beginning. It acts almost instantly, cuts phlegm, soothes raw, irritated membranes, stops tickling in throat.—Sold everywhere.
