WOULD NOT DO WITHOUT IT

You can stop a common cold if you act promptly at the first sign of sneezing and chilliness, hoarseness, tickling throat or coughing. Just take a dose of Foley's Honey and Tar Compound. It is effective and pleasant to take. Harry L. Neff, Price Hill, Cincinnati, Ohio, knows it is good for long-standing coughs and colds, too. He writes: "I had a very bad cough for almost two years. FINE SERVICE AT

CHRISTIAN CHURCH

All services of the Christian church were well attended last Sunday notwithstanding the absence of Rev. C. E. Morgan, the regular pastor. The large audience was fully repaid by the masterly addresses delivered both morning and evening by Rev. E. V. Ghidoni a lecturer well known in St. Louis. Dr. Ghidoni is a native of Rome, Italy, and was educated in the best of the Old World universities, but he is now an American citizen and willing and happy to use his wonderful talents in preaching the simple gospel of Jesus Christ. Rev. Morgan will be absent on a business trip for the next two Sundays, but his pulpit will be filled by a substitute fully as acceptable as that of last Sunday, and the regular services will be continued along the lines planned by the pastor.—Salem (Ill.) But now is the time to make plans and changes.

How about a better way of keeping track of money you take in and pay out?

How about a farm account book and a check book? They are all the tools you need for keeping track of how you stand the year around.

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following statement:

"The price of the FORDSON Tractor has been reduced from \$790 to

\$625.00

EFFECTIVE IMMEDIATELY."

"This price change has been made possible through lower costs of materials and the fact that we are now located in our new Tractor Plant with greatly increased economic manufacturing facilities in immediate connection with our foundry and machine shops and large blast furnaces where iron is poured directly from the ore, giving us maximum efficiency with the power to reduce cost of production, and down comes the price in line with our policy to market our products at the lowest possible figure without in any way affecting our high standard of quality.

"We are particularly pleased in being able to bring about this big reduction in price at this time because the farmer needs all the help we can give him and this big cut in price will be the means of placing a valuable power unit within the reach of practically every one of them, not to mention industrial and commercial concerns which likewise have benefited through its use and are already realizing, to a much greater extent, its value as a power and hauling unit. But particularly has the FORDSON Tractor proved a most valuable factor in the saving of farm labor, at the same time increasing the per acre crop yield as well as making possible a utilization of previously uncultivated land, to say nothing of removing no end of drudgery.

"There is no question that the use of a machine power on the farm is the greatest advancement made in the development of agriculture, not only in money saving and money making results, as well as raising the standards of living on the farm to a much higher level, but because of its proved value in making every type of land more productive, and consequently our desire to place the FORDSON within the reach of all.

"THERE IS NO CHANGE IN THE PRESENT FORD CAR AND TRUCK PRICES, which are already at the lowest possible figure and now with rock bottom reached on the tractor price a further reduction in price of either the Car, Truck or Tractor is out of the question; in fact, the big price cuts have been made in anticipation of continuous maximum production and increases may be necessary before long if a large volume of new business is not obtained. Therefore, present prices of Ford products cannot be guaranteed against possible increases."

Ask for the book "THE FORDSON AT WORK," which will be supplied free of cost. Let us demonstrate the value of the Fordson on your farm, in your factory, lumber yard, coal yard, or in any general hauling or power work you have to do and let us have your order for a Fordson.
