

THE WEEKLY MARKETGRAM

(Week ended March 3, 1921.)

Hay—Light receipts caused principally by the bad roads and the unsatisfactory prices being received by the producers and shippers have resulted in higher prices in several markets. Receipts exceed the demand at both Cincinnati and Memphis and prices have declined on timothy and alfalfa in those markets. No Idaho hay reported at Kansas City but some on tracks unsold at Chicago. Prairie higher at Kansas City with receipts light. Quoted March 2: No. 1 timothy N. Y. \$30.50, Philadelphia \$24.50, Cincinnati \$22, Chicago \$25, Minneapolis \$21, Memphis \$27, No. 1 alfalfa Kansas City \$20, Omaha \$18.50, Memphis \$26, Minneapolis \$21, No. 1 prairie Kansas City \$15, Omaha \$10, Minneapolis \$15.50.

Transit shipments reported to be accumulating and receipts are fairly heavy. Offerings of gluten feed good; of hominy liberal. Cottonseed and linseed meal in light request with prices slightly lower, and linseed meal offered by resellers for March. April shipments at \$41 Buffalo. Alfalfa meal and beet pulp

Grain—Prices advanced during the week although the market was easily affected and somewhat uncertain. Principal factors: Renewal of export demand foreign political situation and Green bug and Hessian fly reports. Omaha reports good mill demand for cash wheat; flour demand somewhat improved. Hessian fly infestation rather general in soft wheat states. In Chicago cash market No. 3 mixed corn and No. 3 yellow 5-5½c under Chicago May. Live Stock and Meats—Hog prices at Chicago continued to advance the past week gaining 80c—1 per 100 lbs. Sheep and lambs showed no material change, 25c, advances on some classes being offset by 25c declines on others. Beef steers practically unchanged, butcher cows and heifers up 50c. March 3 prices good grade meats: Beef \$16-17; veal \$20-23; lamb \$18-21; mutton \$12-15; light pork loins \$22-24; heavy loins \$16-20.

Dairy Products—Butter markets firm the early part of week but developing signs of weakness now. Closing prices, 92 score; New York, Chicago and Boston 53c; Philadelphia 54c. These prices are 3c higher than week ago. Trading is now quiet as dealers are fairly well supplied with goods.

Cheese—Markets easy at close. Trading less active than a week ago and tone of markets less firm. Early in week, however, prices advanced in distributing markets and these gains have been maintained. Wisconsin primary markets now trifle lower than a week ago, sales being made at: Twins 26½; Daisies 27c; Double Daisies 26½; Longhorns 25½c; High prices Wisconsin cheese has resulted in some eastern cheese finding its way to Chicago market which heretofore has been depending largely on Wisconsin for its supply.

Within the Walls of Home

USE YOUR HEAD

A woodpecker pecks
Out a great many specks
Of sawdust
When building a hut.

He works like a nigger
To make the hole bigger
He's sore if
His cutter won't cut.

He don't bother with plans
Or cheap artisans,
But there's one thing
Can rightly be said:

The whole excavation
Has this explanation—
He builds it
By
Using
His
Head.

WHOLESALE DISTRIBUTORS

Outfitted for Easter

HERE are two youthful followers of the mode outfitted for Easter—and afterward—with new suits, new hats and new footwear. As they are experts in the art of dressing tastefully and as each has made her selections different from the others, it is worth while to study the details of their quiet, springtime apparel for the street. Their suits are widely different, but equally good style, their hats agree only in being small, but in the matter of footwear each has chosen plain silk stockings and low shoes—to be worn with spats when the weather is cool.

The extremes of the box-coat style begin with the jacket at one end and end with the finger-length flaring model at the other. In the youthful, spring-like suit at the left of the picture, there is a short, loosely adjusted jacket with flaring sleeves, a plaited skirt, somewhat longer than the passing styles, and a sash of brightly striped ribbon finished with knot and tassel at the ends. The hat of silk and cellophane braid has a narrow brim and the shoes are plain kid pumps with baby French heels.

The suit at the right is a dignified model, which might be worn by an older woman. Its coat has bands of cire ribbon as a decoration on collar and skirt, which is quite full; it owns allegiance to the coat-sleeve and is one of the few models having a wide belt that definitely defines the waist line. The skirt is a little longer than the average and quite plain; the turban is of deep blue Batavia cloth and cellophane braid and the smart shoes of suede with strap over the instep and the fashionable baby French heel.
