HAD NERVOUS BREAKDOWN

Mrs. Ireland Permits us to Publish this Letter for the Benefit of Others Who Are in Her Condition

Warsaw, Missouri.—"For five years I was weakly, nervous and in a run-down condition. Then I had a nervous breakdown and doctors said I would never be well again. After I took seven bottles of Lydia E. Pinkham's Vegetable Compound I was healthier, stronger, and felt better than I ever did in my life before. I can't praise the Compound enough and will recommend it to all women. You may publish this letter if you think it will help others."—Mrs. FLOYD IRELAND, R. 1, Warsaw, Missouri.

Nervous women are both ailing and wretched, and with a nervous breakdown all joy goes out of a woman's life. It is said that the ill peculiar to women act on the nerves like a fire.

Lydia E. Pinkham's Vegetable Compound is so successful in overcoming such conditions, a large number of American women who were once great sufferers from nerve troubles owe their present health and comfort to Lydia E. Pinkham's Vegetable Compound.

Write Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health.

Varied Styles for Evening

IN THE gay world of evening gowns it is hard to choose only two for illustration. There are so many different kinds of them with charms so varied and captivating, that the distracted fashion reporter would gladly display them all. They differ in character more than other gowns, because there is little restraint put upon the fancy of their creators—they furnish a playground for it. The two chosen for illustration here include a net gown at the left—a modest, unpretentious but elegant affair—and a brilliant and glittering creation made for high occasions beside it.

The quieter of these two models is equal to many demands and, with a little helping out of the bodice, may take on the responsibility of serving for afternoon wear. It is made of brown dotted net, in a warm shade, over brown satin, and could hardly be more simply designed. A plain bodice and full skirt of the satin serve as a foundation for an over bodice and full skirt of net.

Brown and gold tissue make a narrow binding at the bottom of the skirt that widens at the left side and is extended on an overlapping seam to the waist line. Brown and gold are combined in the wide girdle of brocade ribbon and brown footwear will complete an evening toilette.

Satin and sequins in the handsome gown at the right are destined to spend a glittering career under artificial light. The apron and bodice drapery of sequins are posed over an artfully draped dress of plain satin with a very generous and handsome sash at the left side. Sequin covered fabrics are made to match many colors in satin and one can imagine with pleasure this gown in lovely blues and greens that call to mind the glorious plumage of the peacock.

Useful Mode for Lace Frocks

ONE thing we may be sure of, and that is the continued vogue of the lace gown. Everything conspires to make this mode certain of long life. To begin with, women love laces, and lace makers stimulate their devotion by constantly turning out new and alluring varieties of lace. More than all else, the general usefulness of lace gowns is a factor in their favor—they fit in for formal and informal wear, with them, and are at home either in afternoon or evening affairs.

Black, brown and ecru laces are in demand just now, at the beginning of a season that may see the list of colors increased. They are made up with silks or satins, usually in the same color, but with contrasting color notes in girdles and sashes, or in trimmings, which are sparingly used with lace. Paris says, "longer and wider skirts," and all the world says, "ribbons." With these assurances, the designer of lace frocks has everything to encourage him.

in the lovely frock pictured we have all these style points emphasized in a dress of ecru lace and changeable taffeta which may be imagined in tan and rose. A wide net top lace is arranged in a long tunic with points at the bottom falling below the hem of the skirt. This hem, it should be noted, makes no pretensions to evenness. The tunic is shortened at the sides. In the bodice the pattern in the lace sweeps across the front in diagonal lines, but over the right shoulder in straight lines. The net sleeves show the top portion of the lace pattern. The wide and long sash would be of ecru colored ribbon. Such a gown might be chosen by maid or matron of honor; in company with a hat as distinctive as that pictured, it could not fail to triumph.
