Entered at the postoffice at Decatur, Indiana, as second-class matter.

"Keep on the hungry side of your appetite" is the advice given by Henry Ford and he says that was the secret of his success when he worked all day in an electric plant and all night in his back yard on his automobile which afterwards made him a multi-millionaire. The fellow who feels "stuffed" is not as good a worker as the one who feels just a little hungry but of course both sides can be overdone.

Giving the tariff question first place in congress means giving politics the first place rather than the business condition and the prosperity of the country. The leaders of that body will scrap for months over a tariff that is certainly not needed at this time when we wish to take down the barriers between this nation and others and in the meantime the tax problem and others of momentous importance will be pigeon holed.

As to Mr. Lansing's book, it is the expression of a trained diplomat, justifying his own course and freely conceding the great powers of his chief. One can not help thinking, however, that the secretary could have been more effective had he resigned from the cabinet before the president sailed for France and after it became apparent that he would not heed nor even counsel with his secretary of state—Indianapolis News.

The death of Mr. Irvin Brandyberry shocked the community, coming in an unexpected manner and moment and there is the sincerest regret among our people. Mr. Brandyberry was a leading citizen, a splendid man in every way and one to whom many turned for counsel. In public office as in private life he conducted affairs in an economical and careful manner and served well. His life was clean and he leaves a record that should help others.

Col. Proctor who financed the Wood campaign last spring is suing for \$110,000 which he claims is due him. The other fellows don't relish the idea of putting up this cash which they now assert was wasted. So it goes. Had Wood been nominated for president and he was no doubt the most popular republican candidate, he would now be passing on applicants for jobs and the boys falling over themselves to pay up their campaign subscriptions.

The commission form of government does not seem to be a very popular one in Indiana for but few cities are petitioning for it. After all Hoosiers like to scrap and the old fashioned election seems to be a good way to let off the steam but the trouble is that this does not always result best for the community. Candidates have just another week in which to file declarations and there are indications that the boys will get busy during that time.

It is evident that Debs is to be pardoned and the howl which will follow may cause the reasons to be made public. At present many will be unable to figure just why this should be the first problem to be taken up by Attorney General Daugherty. Certainly it is not of the greatest importance. What do you think the republican press would say about it if the same excursion had been given Debs under a democratic administration? Isn't it just as bad for Daugherty to do it with the support of the Harding administration?

Cardinal Gibbons is given credit by the greatest men in this country and by the press generally as having been not only a great church man but a man of broad ideas along every line, a great patriot and an American first last and always. His career was a remarkable one and his memory will be held by millions of citizens. He is deserving of the splendid praise now being given him and an unusual thing is that he received much due credit during his life. Usually one has to die to be recognized but there certainly could have been little doubt in the mind of the church leader as to the opinion of his fellow citizens for he was frequently and handsomely honored and in such a way as to prove the sincerity of those taking part. His death will be deeply regreted.

TOO ILL TO WORK

A Mother Tells How Her Daughter Was Made Well Again by Lydia E. Pinkham's Vegetable Compound

Philadelphia, Pa.—"At the age of sixteen my daughter was having trouble every month. She had bad pains across her back and in her sides, her back would pain her so that she could not do her work and would have to lie down. My married daughter recommended Lydia E. Pinkham's Vegetable Compound. She took it faithfully and is now regular and has no pain. We recommend the Vegetable Compound and give you permission to publish this letter."—Mrs. KATIE EICHER, 4034 N. Fairhill St., Philadelphia, Pa.

Standing all day, or sitting in cramped positions and often with wet feet, young girls contract deranged conditions, and before they are hardly aware of it they develop headaches, backache, irregularities, nervousness and bearing-down pains, all of which are symptoms of woman's ills. If every mother who has a daughter suffering from such symptoms would profit by the experience of Mrs. Eicher and give Lydia E. Pinkham's Vegetable Compound a fair trial she may expect the same happy result.

NEW SERIAL AT CRYSTAL

The new William Fox serial, "Fantomas," which is to be shown weekly at the Crystal theatre beginning Monday, is to be in twenty episodes instead of the usual fifteen. When Director Edward Sedgwick was making this great detective serial he found he had a far greater wealth of material than could be contained in fifteen episodes, even with thrill and stunt following fast one upon another, so Mr. Fox told him to give the public all he could. Then Director Sedgwick sat down and included another batch of thrills and stunts in an additional five episodes.

The "Fantomas" serial is based on the widely read detective novels, over twenty-five in number, that were written by the great French authors, Marcel Allain and Pierre Souvestre. These novels have been translated into thirteen different languages. They are THE detective stories of France.

In connection with the first episode of this serial, the big William Fox special feature, "If I Were King," featuring William Farnum, will be shown. A big double program for the same old price, ten and fifteen cents. Remember, it's Monday evening at the Crystal theatre.

AT LOW PRICE

(United Press Service)
Indianapolis, March 26.—Shoe prices in Indiana have fallen about as low as they will go until next fall, W. D. Franklin, assistant buyer for the Marotts Shoe company of this city, said here today.

"Most shoes have already fallen from one to two dollars," said Franklin, "and I don't think they will drop any more this season. They may drop early in the fall, but I doubt it."

"The high price that the manufacturers paid for the hides when turned into shoes on the market before the summer is over, and now that hides have fallen a little it will take almost until September before they get on the market," he said.

"Not only hides are keeping up the prices but the cost of labor has something to do with this. Labor has not fallen off as yet, and when it does, it will have a tendency to bring down the cost of shoes," he said.

ONE CHANCE IN FIVE.

Natchee, Miss., March 26.—(Special to Daily Democrat).—Lieutenant William D. Coney, trans-continental aviator, who was seriously injured in a ball near Crowville, Louisiana, yesterday has about one chance in five to recover, attending physicians said today. Coney was brought here for hospital attention.

An X-ray examination disclosed, said Dr. Ullan, that Coney is suffering from a spinal fracture, located between the fourth and fifth lumbar vertebrae. He has several minor injuries.

JURY STILL OUT

The jury trying the case of Joseph Sipe vs. Dr. Amos Reusser of Berne and Dr. Albert MacBeth, of Fort Wayne, Mr. Sipe charging malpractice on the part of the physicians, was still out at 3 o'clock this afternoon. Judge McGriff called the jury from their room at 2:15 and reconstructed them. Word from Portland at 3 o'clock said it looked like a disagreement. Sipe asks \$10,000 damages. The case had been on trial a week and one day, going to the jury Friday evening.

BALLOONISTS ARE LOST

The last message from the five naval balloonists who have been missing since Tuesday stated that their supplies were exhausted as they continued to drift helplessly south over the Gulf of Mexico reports to the navy department today revealed.

Two carrier pigeons captured at Panama City, Fla., late Tuesday brought the last word of the missing men. This led naval officials to believe that the men were still alive Thursday night or early Friday morning.

BALL PLAYERS INDICTED

(United Press Service)
Chicago, Mar 26.—(Special to Daily Democrat).—Eighteen White Sox players and gamblers were indicted by the Cook county grand jury today in connection with the 1919 baseball scandal.

Eight indictments were returned against each of the men charging general conspiracy to obtain money under false pretenses and operating a confederate game.

The jury returned indictments against the eighteen who were indicted last fall.

NUT BREAD

One and one-half cups of sifted whole flour, one and one-half cups of whole wheat flour, three teaspoonsful of baking powder, one teaspoonful of salt; one tablespoonful of sugar, one cup of chopped nut-meats, two small cups of milk or water. Put into the pans and bake one hour in a slow oven, when taken from the oven grease over top lightly with butter.

APPLE CAKE

Take one quart of flour, three teaspoons baking powder, one teaspoon salt, two tablespoons butter or lard, two cup of milk or water, enough to mix a soft dough. Roll out a half inch thick, cover the bottom of the pan, spread with butter, sprinkle with sugar, nutmeg, and cinnamon, slice tart apple thin and lay over the dough, sprinkling a little more sugar over fruit. Bake in a pan same as biscuit, serve with milk or sauce, or cream.

DOCTORS COME HIGH

New York.—It costs \$4,000 to turn out a doctor at Columbia, according to the university authorities, who say that of this sum the student contributes only \$1,250. To educate a student in medicine now costs ten times as much as it did thirty years ago. The expense has practically doubled in the last six years.

South Sectional Spelling Bee.

Berne, Ind., March 26.—Capacity houses were present at the south sectional spelling matches here last night. Keen interest was exhibited on the part of the audiences. The boys and girls who were contestants put up a stiff fight and it was several hours until all but the lucky fourteen were left standing in the two classes.

The interest shown last night is a very positive proof that the folks of Adams county are very desirous for better spelling in our schools, the kind that made our fathers and mothers famous as spelling experts years ago. The winners of the south section are going to work hard for the next few weeks and hope to bring the honors this way at the county contest to be held at Decatur.
