Canada is discussing the possibilities of the musk ox as a source of wool. In the Arctic region, east of the Mackenzie river, millions of these animals are to be found foraging and thriving on a pasturage which no other animal but the reindeer could live on.

TAKES OVER LEASE

Michael Hanley, the owner of the Grand opera house, returned from Indianapolis last evening and finally closed the deal between he and Mrs. Sirk today. By the arrangement he will take charge of the house Wednesday, as announced in yesterday's Banner, and the fire marshal will be here Monday to place his okeh on the improvements. Mr. Hanley expects to make the old house look like new, and to make room for the workmen the Busy Bee restaurant will close down its business while the work is going on. Mrs. Sirk has made no plans for the future, but is getting out of business on account of poor health. She will not take up any active line of business for the present, it is thought.—Bluffton Banner.

Statistics of women's colleges show that for a period covering sixty years the average college girl of today is an inch taller than the college girl of 1860. Statistics also prove the modern girl is about seven pounds heavier.

Everybody Worked But Father

"Father's stomach trouble seemed to be getting worse all the time and finally he had to quit work altogether. Two brothers and myself gave up school and went to work to support the family. Father had lost sixty pounds in weight and was yellow as saffron and no medicine helped him. Telling a friend about it six months ago she advised taking Murr's Wonderful Remedy. I got a bottle and it helped father at once. He was able to go back to work a month later, has regained his weight and strength and eats like a wood chopper." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Miss Esther Peoples who has been in Chicago taking a course in the Dunning System of Improved Music Study for Beginners has returned and is now ready to receive pupils at her studio at 223 North First street. The pupils are formed into classes and taught by means of symbols—disks, rhythms, sticks and movable musical characters—the fundamental principles of music. A keyboard is constructed with grand staff attached, which simplifies notation by uniting these two important factors. Interesting games make otherwise tedious drills, subjects of pleasure. Stories and songs are also given to stimulate ideas and cultivate musical intelligence. The ear is acquainted with musical tones by oral exercises. The eye is trained to read musical notation quickly and correctly. The muscles of the fingers, wrist and arms are developed and strengthened by finger gymnastics and table technique, performed to the rhythm of delightful little songs. Real piano work illustrates the principles taught by games and exercises and many other pleasing features which makes music pleasing and interesting even to the tiny tot of four and six years.

ELECTION TODAY

(Continued from page one)

filed. The democrats have several races of interest. For Mayor, Coffee, Christen and DeVoss are candidates; for clerk, Mrs. Katherine Kauffman, John Schuitz and John Stults are making the race; for councilman first ward Emerson Beavers and John Scheiman are contestants and in the third ward Fred Ashbaucher and J. S. Bowers have places on the primary ballot.

Up to noon the vote was rather light for the democrats and extremely so for the republicans, only about one-third of the total vote having been cast. A number of women are serving on the boards and the ladies are doing their share of voting.

Official returns will be received by the election commissioners at the office of the city clerk and returns as early as possible will be posted at the office of the Daily Democrat. We will be glad to answer phone calls during the evening.
