Entered at the postoffice at Decatur, Indiana, as second-class matter.

In Norway it is proposed to follow Sweden's plan and ration liquor. Of course, one could save up allowances until he had enough to make it worth while.

When an Iowa man attempted to hang himself, his son cut the rope and the father fell about 50 feet. What this father had to say to his son probably was rather ambiguous.

Miss Ranking, only female member of congress, wants two hundred of her sex in that body. She agrees that the woman's place is in the house, but evidently means the house of congress.

Ambassador Harvey alluded to the bonds binding England and America in a speech on his arrival abroad. At the rate some bonds are being paid they will be uniting us for a long time.

The debt due us from the countries of Europe would pay for a large portion of the proposed highway system in this country and few would object if this fund as it comes in is diverted to that purpose.

Let there be light. We don't know of a city of 5,000 in this part of the country where the street lights are now operated so small a portion of the time as here and we ought to take pride in making the city plant show for itself. We can at small cost advertise this city and its municipal plant. Why can't we do it?

Every employer knows something about trying to get service from employees who have spent the preceding night, or the great part of it, in social pleasures, instead of spending seven or eight hours in sleep to fit the mind and body for the duties of the next day. Most of these persons will declare they feel fit as ever, but the work they produce usually refutes the words. The necessity of sufficient sleep that the body and

mind may be recuperated for the work of the next day is emphasized in the case of children, especially those of school age. The nervous, irritable school child is mostly a modern product, the result of laxness on the part of parents in requiring the needed time for restful sleep. Considerable criticism is being heard of deficiency in the work of the public schools, but it would be interesting to know how much parents are to blame because they do not require their children to observe hours that will give them sufficient sleep to fit them for their studies.

In the first batch of ninety-two nominations for postmaster sent to the senate by President Harding there was not a democrat in the list. Every man was a republican with a straight pedigree for party loyalty and active work. We want to congratulate the new president. In contrast to his record we have the last four years of President Wilson when 3,000 presidential postmasters were named and 1,500, or half of them were republicans. One of them was here in Henry county, a half dozen of them in the sixth congressional district and many of them in Indiana. We did not like that system, and do not like it now. But in order for the republicans to fully appreciate what it means we should like to see President Harding name a democrat for postmaster at New Castle, and also at a half dozen other places in Indiana, including South Bend or Fort Wayne, so that republicans could better realize what it means to hand out jobs like that to the opposition. —Newcastle Times.

The highway department at Washington has figured out that the gigantic sum of six hundred million dollars is now available from federal state and county bond issues or two million dollars for every working day. That's true and there is no doubt that most of the amount will be raised and expended—but we should not forget that we are buying something and must pay the bills in the end. Before this nation stops road building we will have the finest system in the world with hard surface roads in every direction from every city and town and with highways crossing the republic east and west and north and south. It is well to do this but we should not build faster than we can pay. Rather it seems we should build well what we do construct. The department also calls attention to the fact that while 10,000 trained engineers are needed, the universities are now graduating but 1,000 per year and it will be some time before this demand can be met. The road question is one of the big and important ones.

A good many people are asking each other and themselves just now why no effort is being made to improve the lighting conditions of Decatur. This is not a joke or a hobby. We have the finest power and light plant in this part of the country, we pay taxes to support it, we have every facility to produce electricity and we ought to have lights at least sufficient to guide those who are out at night. The people are requesting it and a few moments at this office would assure any one interested that there is no question about them actually desiring it. Since they own the plant it looks as though they ought to have what they want. We will not progress very far unless we look the part. There should be no waste of power or light but there should certainly be enough used to make us the equal of towns half the size of Decatur. We do not even use the lights now up which is about half what we need to do the job right. The light committee of the council we hope will report on the matter at the next meeting of the council. In the meantime it will help if the business houses will make a little effort to brighten up the store fronts.

An invitation is extended to all women of the church.

The Progressive class of the Presbyterian church will be entertained by Mrs. Bain and Mrs. Battenberg at the home of Mrs. Bain on Tuesday evening.

The Evangelical Woman's Missionary society will hold their annual business meeting then. All members are urged to be present.

The territory of Hawaii will produce enough motor fuel for its own needs within two years. They would also be able to supply the requirements of the army and navy forces there, should their bases of supply be cut off. Commercial manufacture of fuel alcohol from sugar molasses has been made practicable on a large scale on the island of Maui.

Mrs. Mary Congleton and Mrs. D. B. Erwin have returned from a visit with friends in Muncie.

SPORT NEWS

Track Meet Held Today.

The annual track and field meet for this district is being held at Centerville park, Fort Wayne, this afternoon with twelve teams from the different schools from northern Indiana competing for the right to represent the district in the state meet to be held at Franklin May 21. The big program is scheduled to get under way at 1 o'clock, the Wabash high school team being the favorites. Ten men will represent the local high school and will take part in a number of the events. The local team is composed of Victor Baltzell, Lowell Smith, Bernard Clark, Deane Dorwin, Milton Swearingen, Irvin Steele, Arthur Kiess, Joe Morris, "Bill" Gay and Paul Castle.

Coldwater vs. Decatur.

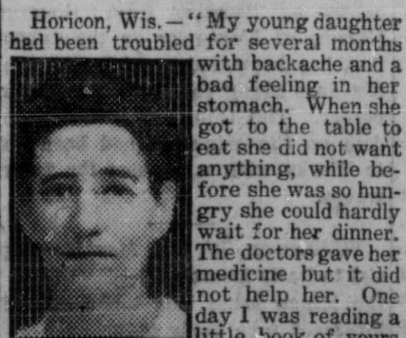

The base ball game to be staged at Belmont park tomorrow afternoon between the Decatur base ball club and the Coldwater, Ohio, team promises to be a good one and the local fans are urged to be on hand to support the locals. The game for Sunday was first scheduled with the Kokonut Giants of Fort Wayne, the game being cancelled on account of the team not being as strong as they represented themselves, and the game with Coldwater arranged instead. The local fans are assured of a hot contest tomorrow and a large crowd is expected to be present. The game will be played on the new diamond where there is plenty of seats for all. Follow the crowd to Belmont park tomorrow afternoon. Game called at 3 o'clock. Admission, 25 and 50 cents.

BRONCHIAL TROUBLE CAUSED ANXIETY

No medicine has a better reputation than Foley's Honey and Tar for quickly relieving coughs, colds and croup. It loosens the phlegm and mucus, clears the passages, eases hoarseness, stops tickling throat. John G. Hekking, 195 Burgess Place, Passaic, N. J., writes: "I was suffering from an acute case of bronchial trouble which gave me considerable anxiety. Foley's Honey and Tar deserves all the credit for my being well now." Sold everywhere.

Mrs. SELCHERT'S DAUGHTER

Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Horicon, Wis.—"My young daughter had been troubled for several months with backache and a bad feeling in her stomach. When she got to the table to eat she did not want anything, while before she was so hungry she could hardly wait for her dinner. The doctors gave her medicine but it did not help her. One day I was reading a little book of yours which was left on my porch and it reminded me that when I was a young girl I took several bottles of Lydia E. Pinkham's Vegetable Compound. So she went to the drug store and got a bottle and after the second one she could eat and has not had backache since. In all she took six bottles of it. She goes to school and on Saturdays helps with the housework. She is a normal, healthy girl now and we recommend your medicine. You have my permission to publish this letter as a testimonial for the Vegetable Compound."—Mrs. FRANK SELCHERT, 150 Larabee St., Horicon, Wis.

Mothers all over the country have found Lydia E. Pinkham's Vegetable Compound to be a most reliable remedy for such conditions.
