Entered at the postoffice at Decatur, Indiana, as second-class matter.

We can't all see all things alike but one thing we are sure ninety per cent will agree with—congress has fooled long enough and they had better do something right now and do it well or they will hear from home.

A railroad strike just at this time would so paralyze the country that we would not only reach the bottom but go through it. Business conditions would not long withstand the loss and inconvenience which such a disaster would bring.

There is but little doubt that the advice to buy your coal now is timely and good. There is no chance for cheaper prices in the fall and the mine operators now idle will be given an opportunity to juggle prices if every one waits until fall or winter to buy. Better fill the bin now and be safe for there is small chance to beat the prices.

Students at the Reppert Auction School will receive a sincere and earnest welcome from the citizens of this community. Do you remember that those of the January session left here with enthusiastic boosts for the Decatur people and that such a result is the very best thing for any town? We are sure the summer class will be just as warmly welcomed and entertained and assisted.

The trouble seems to be that too many meetings are being held in Washington. When the president discovers that politicians are selfish and tricky and can't agree he will begin to understand why he will have to be the president himself whether the rest like it or not. He has no doubt changed his mind by this time on many things which he discussed last campaign.

And now we are to have a high tariff which will further prevent a foreign market. At a time when we should be bidding for world trade we will build a fence around this nation

and prevent prosperity. What does it matter if we have a thirty-five cent wheat tariff if we can't sell our surplus at any price? It begins to sound foolish even to the solons in the senate and house.

Mr. Quinn assures us that he is greatly surprised at the number of nature lovers who have expressed their delight at the prospects for Hanna's Children's Park, located just northwest of town and the most attractive natural park in this part of the state. Several hundred have tendered their assistance to him and there is not the least question but that the people here will be glad to do anything possible to make this wildwood a popular and always happy place for birds and children and grown-ups.

Attorney General Lesh of Indiana has handed down an opinion that under a law enacted by the recent general assembly no person shall be elected to or hold the office of attendance officer unless he has completed the work of the elementary public schools. This bars those who attended private or parochial schools of any kind and likewise it would seem those who did not complete the grade work. If this is possible why can't they go farther and prevent almost any person by classification from holding office unless the little ring at Indianapolis so desires? A lot of funny business is now being pulled off.

Jimmy Cox, overwhelmingly defeated for the presidency last November, at least has the satisfaction of expressing his opinion now and of reminding the voters of the justification of his argument. He says:

"The dawn of rehabilitation was in sight, but it was obscured by a result the effect of which in its extremity has not been felt even yet. In a word, our unhappy business conditions today are due to vast inventories bought at high prices and that cannot be sold even at great reduction. Europe needed every dollar of our surplus of farm and factory, and we had a prosperity not long ago upon which we could have based a credit that would have saved the day. The stagnation on the farm in November and December in 1920 and the surplus of manufactured goods all could have been avoided. Inventories would have been turned into cash and the banks today would have had more money than at any time in the history of the country. In times past, when manufacturing was at low ebb, banks had ample funds; now money is tight and factories are doing little or nothing for the very reason that vast inventories have not

been turned into funds. Readjustment at its worst under the circumstances of international co-operation would have been as but a slight fever. We are witnessing a stroke of paralysis. That's the difference. That's the cost."

**FAMOUS PLAY FILMED.**  
"The Prince Chap" is First of William DeMille Productions. Edward Peple's charming play, "The Prince Chap," is declared to have been given an excellent presentation as a film drama, with William DeMille as the producer and Thomas Meighan in the leading part. The photoplay will be the attraction at the Mecca and Crystal theatres on tonight only.  
The central figure, played by Mr. Meighan, of "The Miracle Man" and "Male and Female" fame, is a sentimental California bachelor who joins the bohemian artist colony in Soho, London, to win fame and fortune with his brush. Becoming the guardian of a four-year-old orphan girl he refuses to abandon the child, even when it means a break with his fiancée. And after many vicissitudes, when his ward blossoms into glorious womanhood, he marries her and "lives happily ever after." Benefit Tri Kappa sorority.

## AN ADVERTISEMENT HELPED HER

Mrs. Lucille Mackey, 16 Buena Vista St., Washington, Pa., writes: "Last winter my 3-year-old girl caught a bad cold which left her with a dry cough. It bothered her most at night and she would cough until she vomited. I think she must have had whooping cough. I saw an advertisement for Foley's Honey and Tar. I tried it and bought two bottles and her cough left her before she finished the second bottle. She had gotten awfully thin, but now she is as fat as ever."

### PREPARED FOR HIM.

The Indianapolis News says: "Edward Miranda, conductor on the Pennsylvania between Madison and Richmond, is one of those who has a saving sense of humor and always appreciates a good joke. He, however, realizes that it is possible to carry some jokes too far.

"Recently he had a regular passenger on his train from Manilla to Rushville. The fare is 20 cents. For three days the passenger was without a ticket, and each time flashed a \$100 bill on the conductor, who was unable to change it.

"The fourth day Miranda was ready for him. He got 100 silver dollars before starting on his trip. He carried this money in a bag and waited for his passenger, who boarded the train as expected, and again flashed the big bill. The conductor coolly took the bill from him and slowly counted out with much gravity ninety-nine of the silver dollars and 80 cents besides. The passenger distributed his change throughout his pockets with a look of genuine disgust. Since then he has had a ticket every day."

### HOP OFF ON SECOND LAP

(United Press Service)  
Ft. Bliss, Texas, June 28—(Special to Daily Democrat)—David Davis and Eric Springer, aviators who were forced to land here late yesterday, on a trans-continental flight from Riverside, Calif., to Mineola, L. I., resumed their journey at 5 a. m. today. Springer said just before leaving this morning that they would attempt to reach New York without stopping and hoped to do it in twenty-two hours.

### TWIN DEERS AT PARK

Twin deers were born to the doe at Belmont park Monday afternoon, and are about the "cutest little things" inside the park enclosure. They are fine, healthy little animals, and they are welcome additions to the menagerie at Belmont park. To see the mother deer and her babies will well be worth the price of an admission ticket to the races, or the Northern Indiana fair.

### BROWN BABE DIES

George Donovan Brown, aged two years, five months and one day, son of Mr. and Mrs. Luther Brown, of Bush street, died Monday evening, at 7:30, after an illness since last Friday of cholera infantum. **I ought to know—I grow tobacco**

You can't beat a Camel, because you can't beat the tobacco that goes into Camels.

That's why Camels are the choice of men who know and love fine tobacco. They know what makes Camels so smooth, so fragrant and mellow-mild.

They'll tell you that the expert Camel blend of choice Turkish and Domestic tobaccos makes a cigarette smoke you can't equal—no matter what you pay.

But it doesn't take an expert to tell Camel quality. You'll spot it the very first puff. Try Camels yourself.

How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound

Sunnyside, Ky.—"I suffered for more than two years with my back and nervousness, and was not able to help my mother do the housework. It has done me a great deal of good. I weigh 138 pounds and am in good health. I will gladly recommend Vegetable Compound to anyone who suffers with the troubles which I had, and you are welcome to publish my testimonial."

—VELMER HENDRICK, Route 1, Sunnyside, Ky.

Pinkham's Vegetable Compound a fair trial. For over forty years this old-fashioned root and herb medicine has been relieving women of just such troubles.

**REMEMBER** to ask your grocer for Calumet Baking Powder and be sure that you get it—the Indianhead on the orange label. Then forget about bake day failures. For you will never have any. Calumet always produces the sweetest and most palatable foods. And now remember, you always use less than of most other brands because it possesses greater leavening strength.
