Entered at the postoffice at Decatur, Indiana, as second-class matter.

The railroad operators announce in literature being sent out and in interviews with press associations that they are reducing freight rates when and where they can and have already cut two hundred thousand tariffs. That's fine but the trouble is we can't seem to locate any of the reductions. Evidently they haven't so far effected this part of the country and this is an awful good part to be left out of anything like that.

If you are planning a trip on the traction better take a look at the new time table, published today. Several slight changes have been made and two cars taken off.

Decatur has a hand to be proud of. They are coming along in real style and within a few weeks will be recognized as one of the best in this territory. Mr. Rice who is directing them has had the experience, loves his work and is glad to thus assist the home town boys. The crowd which attended last evening's concert, the first of a series of twelve given through the efforts of the band leaders and the business men of Decatur who so generously contributed, prove the popularity of these events. The people love music and that's a good sign.

Mr. Dawes is receiving the plaudits of the country because of his emphatic assertions that he proposes to save the nation a billion dollars. Fine. But we have been fooled so often by assertions of intentions that

we will have to be shown. We do not doubt the good intentions of Mr. Dawes but it's a big job and that gentleman has not yet felt the opposition of politicians, dissatisfied office holders, job seekers and those who will thus be returned to civil life and actual work. When he has disregarded these and pushed on, he will be entitled to the applause and not before. Talk is cheap but what we need and want is action.

Of course there is some merit in the thing proposed in some of the constitutional amendments to be voted on September 6th but most of them are vicious and the very fact that it establishes a dangerous precedent of changing the most important document in the state at every whip stitch should make the voters of Indiana view the efforts now being made, with considerable alarm. Be careful.

Try reading the declaration of independence over next Monday. The occasion is the Fourth of July, anniversary of the date upon which that important document was signed and the beginning of the greatest nation in the world. We are just a little apt to forget what the day means and we ought never to do that.

Yep we are getting back to normalcy—the Public Service Commission of Indiana actually turned down a petition for an increased rate for the Home Telephone Company of Fort Wayne. The rates there are \$3.50 for a business phone and they asked for six dollars, claiming that they could not earn any money. The commission found that they are now earning about eight per cent and that expenses could be reduced some \$37,000 per year if they wanted to. The boys at Fort Wayne don't seem to be in right or something or can it be that the commission is awakening to the fact that the public is mad and awful tired of the up grade of overhead?

After nearly three years, the congress of the United States has decided that we are now at peace with Germany and Austria. The resolution adopted late yesterday provides

YOU can now obtain at perfume counters everywhere these famous extracts in the most delightfully economical form. Imagine being able to carry your favorite perfume with you wherever you go, without danger of breakage, spilling or evaporation. And how simple and convenient to use! You open the little French Ivory case—it's about the size of a lipstick—take out a NIP, break off both safety sealed ends and Presto!—out comes the rare extract. The glass you break has the consistency of sand. Each NIP contains just enough essence for correct perfuming; there's no danger of over-use; so common when applied from a bottle. With NIPS, wastage is impossible. Breakage is unknown. You can drop a case of NIPS from your purse to the street yet every tube remains intact, its fragrant contents safe always.

Go to the nearest drug, perfume or department store and ask to see this very modern and chic way of carrying the world's most exclusive extracts. If you cannot supply yourself at your dealer's, mail order and cash direct to The Seneco Corporation, Cincinnati, Ohio.

WHOLESALE DISTRIBUTORS

for many of the terms of the Versailles treaty and now diplomatic relations will be resumed. In another few years we will probably have a treaty with these countries and have some of the things we could have had by accepting the treaty a long time ago. If we had made peace when we should of we would not now be suffering from a business depression and other national ailments.

How would you like to meet the additional expenses of an income tax added to your other items this year? That's one of the proposed amendments you are to vote on September 6th. Of course they will tell you that this will reduce your regular taxes but don't let them kid you any longer. Within a short time they will just have this added to your other woes. If they can amend the constitution in this manner there is nothing to prevent them from amending the amendment. It's a joke.

We received returns from the big fight today, blow by blow, for the benefit of those who like this sport, a newspaper service equal to that of the largest cities a few years ago. We get the news if it's possible and we are glad to furnish it to the people of Adams county all the time. Subscribe now.

accept invitations to speak for the next six weeks. That's wise. If everybody else would follow his President Harding has declined to example and then keep it up six months longer, most of the troubles of this country would evaporate. Step, on the gas boys. Remember.

GETTING ALONG GOOD

Women are as great sufferers from kidney and bladder ailments as men. Foley Kidney Pills help rid the blood stream of impurities that cause rheumatic pains, backache, swollen joints and stiff, painful muscles. Mrs. Carey, Box 81, R. P. D. No. 2, Middletown, N. Y., writes: "I had kidney trouble ever since I was a little girl, but I am getting along good since I have taken Foley Kidney Pills. They act immediately and help restore the kidneys to healthful activity. Sold everywhere.—Adv't.

Announcement!

We have purchased the Decatur Iron & Metal Co., and wish to announce that we will assume operation by the first of the week, and will be pleased to take your order for your coal for the winter months.

We have several loads now on hand, all of which are good clean coal, in the favorite size and guaranteed to burn.

Now is the time. Do not put it off. Let us fill your bin. Place that order with us today.

PURDUE HEN LAYS 151 EGGS IN 164 DAYS

Lafayette, Ind., July 2.—One hundred and fifty-one eggs in 164 days, from the famous Holler man and E. and still going! This is the remarkable Thompson Barred Rock strain, able achievement of Lady Purdue, after mother has a record of 182 eggs pedigree Barred Plymouth Rock hen a year to her credit and her grand in the Purdue University poultry flock. Lady Purdue is a family of high producers. She she did not know when Sunday came, but she was naturally just so full of eggs that she had to work on the Sabbath the same as other days. She was hatched March 10, 1920, and classed as an early hatched bird, one of the points emphasized by the Purdue poultrymen for years. Because of this early hatching she matured before cold weather last fall and during October laid 12 eggs when "eggs were eggs." In November she laid 11, in December 5, and in January she produced 26 eggs. In February, 22 eggs were marked to her credit and in March 30th missing only one day which was Saturday, March 12. She started March 13th and did not miss a day laying an egg until May 31st. The excitement of the Speedway race evidently was too much for this chicken and she failed to lay an egg June 27 to July 5th my office will be closed. N. A. BIXLER, Optometrist. 150-47.
