

A Man Is As Old As His Feet

Men are pleased when they come to this store to be fitted to a pair of shoes. Why? Because we employ expert foot fitting methods.

Our Footograph system makes shoe fitting as accurate as though your shoes were made to order.

A shoe when properly fitted to the foot ceases to be a liability but proves an asset paying 100% in comfort and satisfaction.

PHYSIOLOGICAL ACTION OF TANLAC EXPLAINED

World's Leading Authorities Show Just What Tanlac Really is and Explain Effect of Each of Ten Ingredients on the Human System. Power of Medicine Conclusively Proven. A day never passes but what thousands of people ask the

question: What is Tanlac? Why its phenomenal success? Why do we hear so much about it? and Why has this preparation so far outstripped all other medicines of its kind?

The answer to these questions is easy and can be explained in just one word—merit. Tanlac is scientifically compounded and represents years of work, study, experimentation and research by some of the foremost chemists and pharmacologists of America.

The Tanlac formula is purely ethical and complies with all National and State pure food laws. It is purely vegetable and is made from the most beneficial roots, herbs and barks known to Materia Medica. The Tanlac Laboratories are among the largest and most modernly equipped in this country.

Ten Ingredients in Tanlac. Altogether, there are ten ingredients in Tanlac, each of which is of recognized therapeutic value.

In referring to one of the more important ingredients of Tanlac, the Encyclopedia Britannica says: "It has been the source of the most valuable tonic medicines that have ever been discovered."

In referring to other of the general tonic drugs contained in Tanlac, the 13th Edition of Potter's Therapeutics, a standard medical text-book, states that "they impart general tone and strength to the entire system, including all organs and tissues."

This same well-known authority in still another of the ingredients of Tanlac, which is of value in treating what is commonly known as a "run-down condition", uses the following expression: "It is highly esteemed in loss of appetite during convalescence from acute diseases."

There are certain other elements in Tanlac which, because of their influ-

ence upon the appetite, digestion, assimilation and elimination, improve the nutrition and vital activity of all the tissues and organs of the body and produce that state of general tonic which is called health.

The United States Dispensary makes the following comment regarding another ingredient: "It may be used in all cases of pure debility of the digestive organs or where a general tonic impression is required."

There are certain other ingredients described in the Dispensary, and in other standard medical text-books, as having a beneficial action upon the organs of secretion, whose proper functioning results in a purification of the blood streams passing through them. In this manner, objectionable and poisonous ingredients of the blood are removed and the entire system invigorated and vitalized.

Tonic and Body Builder.

Tanlac was designed primarily for the correction of disorders of the stomach, liver and bowels. At the same time, however, it is a powerful reconstructive tonic and body builder, for it naturally follows that any medicine that brings about proper assimilation of the food and the thorough elimination of the waste products must, therefore, have a far-reaching and most beneficial effect upon the entire system.

George Donivan Brown, son of Mary and Luther Brown, was born Jan. 26, 1919 in Decatur, and died June 27, 1921, in Decatur; aged two years, five months and one day. He leaves a father, mother and the following brothers and sisters, Thelma Charles, Florence, Frederick, Catherine and Rose Mary. Another jewel has been transferred to the heavenly home.

AN ADVERTISEMENT HELPED HER

Mrs. Lucille Mackey, 16 Buena Vista St., Washington, Pa., writes: "Last winter my 3-year-old girl caught a bad cold which left her with a dry cough. It bothered her most at night and she would cough until she vomited. I think she must have had whooping cough. I saw an advertisement for Foley's Honey and Tar. I tried it and bought two bottles and her cough left her before she finished the second bottle. She had gotten awfully thin but now she is as fat as ever." Sold everywhere.—Adv.

TOO ILL TO WORK

A Mother Tells How Her Daughter Was Made Well Again by Lydia E. Pinkham's Vegetable Compound

Philadelphia, Pa.—"At the age of sixteen my daughter was having trouble every month. She had bad pains across her back and in her sides, her back would pain her so that she could not do her work and would have to lie down. My married daughter recommended Lydia E. Pinkham's Vegetable Compound. She took it faithfully and is now regular and has no pain. We recommend the Vegetable Compound and give you permission to publish this letter."—Mrs. KATIE EICHER, 4034 N. Fairhill St., Philadelphia, Pa.

Standing all day, or sitting in cramped positions and often with wet feet, young girls contract deranged conditions, and before they are hardly aware of it they develop headaches, backache, irregularities, nervousness and bearing-down pains, all of which are symptoms of woman's ills. If every mother who has a daughter suffering from such symptoms would profit by the experience of Mrs. Eicher and give Lydia E. Pinkham's Vegetable Compound a fair trial she may expect the same happy result.

STATE TO MAINTAIN THEM.

Indianapolis, July 5.—The work of maintaining state roads in Indiana is to be pushed with all possible speed according to announcement by Lawrence Lyons, state highway department director.

The department recently received from the Federal government thirty-five caterpillar tractors and each of these is now engaged in hauling a big grader on the roads. As farmers along state roads are moving their fences back to new lines established by department engineers to make the distance from fence to fence fifty feet road crews are opening ditches for a system of complete drainage on roads as one of the points in highway maintenance the commission is insistent on, and a well drained highway serviceable the year around, is the initial step for an improved system throughout the Hoosier domain.

The present work of road maintenance and widening and ditching along highways in this state is being done with funds obtained by automobile and inheritance taxes and monies obtained by direct tax and road levy, department officials say.

Dr. J. Q. Neptune and children will leave tomorrow in their automobile for Lawton, Mich., where they will enjoy a ten days' outing in the Michigan woods. They took tents with them and will camp in the woods and expect to have a glorious time.

Mother says—
"I don't want him to run barefoot over the stones"

He finds the Hood Bayside "sneaker" is so much lighter than others that he'll wear them. They are thick enough to protect his feet—and the lighter weight, I find, gives better wear than others. Also, the Baysides cost less.

Hood Baysides are a long wearing summer shoe for the low price. They are a sensible shoe for children in hot weather from every point of view, but they are made in all sizes for every member of the family.

Give the growing young feet a chance. Children are delighted with the new found freedom in cool, easy Hood Sandals. Brown duck uppers, with white binding and white lining. Long wearing soles. Saves the expensive shoes, too.

Why not work under the most favorable conditions? The Lenox House Shoe is light, cool, flexible and easy. Neat and stylish in appearance; and you don't wet the foot when you step onto damp ground, gives extra long wear. Is moderate in price.
