Advertising has provided the one hope for this country during the past year and its the best asset you have now. You can climb over the hill by the use of sensible and wise publicity.

Secretary Hughes has proposed a naval holiday to continue ten years during which time no nation will build new battleships. It would save the world billions of dollars and prevent wars because nations could not prepare for it. It sounds wise.

Much credit is being given to Oliver Schug, an old Adams county boy, who served as democratic city chairman at Hartford City during the city campaign and won a splendid victory. He worked hard and got results. John McGeath was elected mayor by 460 and the entire democratic ticket won.

Come on good people of Decatur and Adams county, lets pull together and work in co-operation. There are so many things to do and it requires the combined efforts of every one if we get anywhere. The outlook is splendid and with a little real and sincere boosting we will progress during the next year. Where are you? Will you help or will you sulk and let the other fellow do the work?

With the first little skiff of snow the youngsters were out today with their sleds. Parents should remember that the streets are now used extensively by automobiles and that conditions are much different than a few years ago when this was a comparatively safe sport. We notice a sled slip off the side walk this morning and a car had to swerve to miss it. Warn the children and

know where they go for coasting.

Gossip is an ugly old thing, which creates discord in communities and erects a barrier between those who should be friends. During the past few days we have heard numerous stories, most of which started from a slight remark which meant nothing but wagged around many tongues became vicious. When it is all worked down you will find we are all just humans and made out of about the same kind of mud. Let's live in harmony and lets say a few kind things about each other. Its so much better all around.

The people of the country are for peace and with the exception of a few interests favor the disarmament of the world. This thing of training our boys to lead in war is the greatest crime of this era when we are supposed to have reached the pinnacle of decent living and christianity. Most of the people don't care whether they call it a league of nations or a disarmament convention just so they accomplish the real purpose of reducing probabilities of future wars, the sacrifice and the great cost which go with them and follow them.

There is nothing too good for the people of Adams county and we hope they continue to progress. During the past quarter century we have outstepped most of the communities of the middle west, macadamizing almost every mile of highway. Now there seems to be an inclination to build hard surface roads. These are expensive and by no means permanent and we doubt the wisdom of the investment except in a few places where the travel is exceedingly heavy. It should be remembered that when a township builds these roads they must pay for them and that each mile of road thus constructed means higher taxes for a number of years. If you build them you must pay for them and you should not complain about your tax rate or at least about that part of it which you make by your petitions. Lets decide it before we make the investment and then every one will be satisfied.

## GENEVA NEWS

Mesdames William Bradford and Samuel Renner were hostesses to the Methodist Ladies' Aid society at the former's home on Railroad street, last Tuesday afternoon. Thirty members answered roll call and three visitors were present. The business of the society was attended to and two new members accepted. It was planned to observe "Earn a Dollar Day" on Tuesday evening, November 22nd. Each member, and any other persons who desire to do so, is to earn a dollar and as the roll is called she is to tell how she earned it. The money will then be donated to the Ladies' Aid to be used in the upkeep of the church. After the social hour, dainty refreshments were served by the hostesses.

The M. W. Club held a farewell party in honor of Mrs. D. F. Odle last Tuesday evening at the home of Mrs. F. J. MacWhinney on Shackley street. All expressed their regret at losing such fine people from their midst, but wished them success and happiness in their new home.

Mrs. Harry Lynch of Hartford City spent Thursday here visiting her parents, Dr. and Mrs. L. L. Mattox, and giving piano lessons.

SYMPTOMS  
WOMEN DREAD

Mrs. Wilson's Letter Should Be Read by All Women

Clearfield, Pa.—"After my last child was born last September I was unable to do all of my own work. I had severe pains in my left side every month and had fever and sick dizzy spells and such pains during my periods, which lasted two weeks. I heard of Lydia E. Pinkham's Vegetable Compound doing others so much good, and thought I would give it a trial. I have been very glad that I did, for now I feel much stronger and do all of my work. I tell my friends when they ask me what helped me, and they think it must be a grand medicine. And it is. You can use this letter for a testimonial if you wish."—Mrs. HARRY A. WILSON, R. F. D. 5, Clearfield, Pa.

The experience and testimony of such women as Mrs. Wilson prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound will correct such troubles by removing the cause and restoring the system to a healthy normal condition. When such symptoms develop as backaches, bearing-down pains, displacements, nervousness and "the blues" a woman cannot act too promptly in trying Lydia E. Pinkham's Vegetable Compound if she values her future comfort and happiness.

COMING TO CRYSTAL

Chartering a complete street carnival company, including every animal tent and person connected with the organization, forms an interesting chapter of the production history of "Something To Think About" which will be shown at the Crystal and Mecca theatres next Tuesday and Wednesday. Cecil B. De Mille, producer of this unusual Paramount screen drama, wished to establish in the mind of his central feminine character the difference between two men—the one youthful and virile; the other older and crippled.

With this object in mind, he selected a day at a typical country fair as the time and place. The two men, the girl and her father comprise one group of visitors.

But it was first necessary to duplicate the country fair in question. This difficulty was solved by leasing a traveling street carnival company for a period of one week and adding to this background half a thousand "extra people."

The carnival included the usual fat lady, the snake charmer, fire-eater, hula hula dancers and other freaks and strangely talented performers. All entered into the spirit of the picture and lent to this episode a striking note of realism.

A good entertainment is being arranged for the evening following the bazaar at Presbyterian church, November 22. 267-4f
