HOLD GOOD SALE

Second Sale of Decatur Horse Co., Shows Tendency for Higher Prices

ABOUT HUNDRED HEAD of Good Stock Offered at Auction—Several Foreign Buyers Attend.

The second sale of the Decatur Horse Sale company was held today at the sale barns on First street, when nearly one hundred high grade draft animals were offered at public auction. Buyers from Kentucky, Ohio and various other localities were present at today's sale and competition in the bidding was much stronger than that of last week's sale and which resulted in a higher average price being paid for the offerings. A gradual revival of the horse market is also under way with a tendency towards higher prices, and it is thought that before long the market will at least get back to a somewhat normal condition. Col. Guy Johnson of Sheppard, Ohio, acted as official auctioneer and secured some exceptionally good prices.

HEAD ACHED AND BODY ACHED

There are various symptoms of kidney trouble—rheumatic pains, backache, sore muscles, stiff joints, and "always tired" feeling. Mrs. Geo. Morgan, E. Fairfield, Vt., writes: "My head ached and my whole body ached so I could not sleep. Foley Kidney Pills gave me relief." They heal and strengthen weak, disordered kidneys and bladder and help them in their work of filtering the blood and casting out of the system the impurities that cause pain and disease. Prompt in action.

MARKETS-STOCKS

Daily Report of Local and Foreign Markets.

New York Stock Exchange
New York, Jan. 27—The list on the New York stock exchange today was reactionary during the first few minutes. The possibility of calling off the Independent Steel merger negotiations caused heavy selling of this group with Midvale making an early low below 30 compared with the recent high above 33 while Bethlehem public at 31 1/2 was off 3/4. Bethlehem public, however, being unchanged at 60 1/4. Steel Common was unchanged at 85 1/4.

Equipment opened off an average of nearly a point. In this Motor group, the first sale of Studebaker was at 87 1/2, up 1/4 but the stock then reacted. Can stocks continued to give a good account of themselves with American Can above 36 and Continental Can at 55. Ralls opened irregular.

The whole list had a brisk rally resulting in recovering of a point to 3 points in Studebaker, Davison Chemical, Gulf States and the Rubber shares. There was an extremely tight market for Gulf States. The stock sold from 69 1/2 to 65 on a turnover of a few hundred shares. Inasmuch as Gulf States had not been mentioned as likely to be included in any of the proposed steel mergers it is difficult to understand why it should be sold on rumors that merger plans have been called off.

The list sold off, cancelling all the recovery that took place in the first hour. Call money renewed at 5 percent against 4 1/2 Thursday. Lower money is expected shortly after the turn of the month.

A new pool is said to have been formed in Famous Players common. In the first nine months of 1921 Famous Players showed net profits of \$4,186,637, after deducting for charges and tax reserves. This is equal to an annual rate of over \$23 a share for common after the preferred dividends. In other words approximately three times the current dividend of 8 percent.
