To win a race a Jockey doesn't put extra weight on the horse that helps him succeed

No man or woman who wants to succeed in the race of life can afford the handicap of headaches, insomnia, indigestion and debility. Nor can they afford to take anything that may keep up a continual irritation of the nervous system.

Yet this is what many people do who drink excessive amounts of tea or coffee. For tea and coffee contain caffeine, a substance that is sometimes very injurious. Many doctors say that caffeine raises the blood pressure, irritates the kidneys, and over-stimulates the entire nervous system. Also that it is especially bad for growing children, or for any one who has any tendency to nervousness or insomnia.

If you want to avoid a pos-

sible cause of headache, insomnia, or nervousness, it might be well to stop taking tea and coffee for awhile, and drink rich, satisfying Postum, instead.

Postum is a delicately-roasted, pure cereal beverage—delicious and wholesome.

Order Postum from your grocer today. Drink this fragrant, healthful beverage for awhile, and see if you will not feel brighter, more active, and more resistant to fatigue—as so many thousands of others have felt.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

QUEEN'S WEDDING

Stage is Set for Marriage of Princess Mary to Viscount Lascelles.

LONDON IS AGLOW

King George Makes Son-in-law Knight of the Garter on Eve of Wedding.

By Ed L. Keen

United Press Staff Correspondent London, Feb. 27.—London is ablaze with gay flags and bunting, the capital streets are thronged with visitors, everywhere there is feverish popular activity, unprecedented since the coronation of King George. The city is preparing to do honor to Princess Mary, who tomorrow, in the historic Abbey, becomes the bride of Viscount Lascelles.

Everything is in readiness for the ceremony which has drawn thousands of visitors from every corner of England and from the continent to say nothing of hundreds of Americans who are eagerly seeking places of vantage along the wedding route at \$50 a seat. Only two American citizens, ambassador and Mrs. Harvey, will witness the actual ceremony.

The schedule for the Royal wedding has been arranged and will be observed punctually even to the exact minute at which royal relatives of the bride shall leave their palaces for the Abbey. The bridal processions, with Princess Mary on the arm of her father, King George, will move down the aisle of the Abbey to the magnificent altar where Viscount Lascelles will be waiting. Sixteen clergymen will be there to assist at the ceremony.

The time table for the wedding, which was issued today, provides for the stopping of all traffic along the route of the wedding procession at

8:45 a. m. The last of the guests to arrive at the Abbey will be expected to be in their seats by 10:30. The most distant royal relatives of the Princess will reach the Abbey at 11:08 while Queen Alexandra and Princess Victoria and their suite will arrive at 11:12. They will await Queen Mary at the door of the Abbey.

A Knight of Garter

Ging George has made Viscount Lascelles a Knight of the Garter, one of the highest honors of British royalty.

Court etiquette has forbidden them the privacy enjoyed by other lovers until after their wedding. The honeymoon will begin at Weston Park, the Viscount's estate and later the couple will live for a time at the villa Medici near Florence, Italy.

DECISIONS MADE

Supreme Court Holds Commission Had Power to Increase Railroad Rates.

THE INCREASES STAND

Suffrage Amendment to the Constitution Upheld—Important Decisions.

Increased intrastate railroad rates put into effect in all states by the interstate commerce commission during the last nine months were upheld by the supreme court today.

The decision read by Chief Justice Taft was one of the most important handed down in the last decade.

The court declared constitutional that part of the rate making provisions of the Esch-Cummins law which gave the interstate commerce commission virtually complete control of intrastate as well as interstate rates.

This provision of the law was attacked by forty-three states who claimed that their sovereign rights were invaded by the status and that congress had no authority to give the commission control over interstate rates but only over inter-state matters.

The inter-state rate increase made in August declared valid today were: Passenger fares, excess baggage, milk and cream, 20 percent surcharge on Pullman accommodations, 50 percent; rate in the eastern states 40 percent, the eastern 35 percent, the mountain and Pacific 40 percent, the southern 25 percent.

The same increases were applied to inter-state rates but these were not involved in the suit decided today.

The decision it is agreed virtually wiped out the powers of state railroad commissions unless the interstate commerce commission chooses to delegate them some powers.

Suffrage Amendment Legal
Washington, D. C., Feb. 27.—(Special to Daily Democrat)—The woman suffrage amendment to the federal constitution was declared legal, by the supreme court today.

The test suit was brought from Maryland where the state legislature twice refused to ratify the suffrage amendment and passed resolutions challenging its constitutionality. Oscar lesser and others of Baltimore challenged through the courts the rights of Cecilia B. Waters and Mary B. Randolph, both of Baltimore, to register as voters in 1920.

Old Friends are Best

What Did I pay for them?
I've had them so long, I've forgotten

It's a good memory that a pair of HOOD Red Boots cannot outwear. And wear is in our opinion about the first consideration in selecting a boot. At least, other things being equal, the boot that wears the longest is the one that gives permanent satisfaction.

Besides wear there is one other outstanding HOOD feature, and that is comfort. HOOD Boots have been made for twenty-five years, and we have never in that time ceased to improve them where improvement was possible. One result is that all reinforcements are placed with scientific accuracy—not slapped on indiscriminately—and this means extra wear without clumsy weight—or comfort at the end of a long day's work. Ask your dealer what he thinks of HOOD Boots—and look them over for yourself.

Consider the Door Construction on the Buick Four Sedan

This is merely another example of the care with which Buick bodies are built and of the attention to details which contribute so much to ownership comfort.

Notice the solid steel lug on the door. When the door is closed this lug fits into a slot on the door post. It is held firmly in place within the slot by means of two heavy pieces of metal.

This device holds the door rigid—prevents its rattling no matter how rough the roads and also prevents wear in the tongue of the lock—a characteristic occurrence when the door is held closed only by the lock itself. This is a feature on all Buick closed cars.
