Entered at the postoffice at Decatur, Indiana, as second-class matter.

If that fellow with his five hundred barrels of moonshine had closed out he could have lived the rest of his life in ease, provided the price in Vermillion county is as high as is quoted in Fort Wayne, Muncie and other cities with a reputation.

Few people in this section will have to pay any income this year but by the same token where will the government come in? There will be a deficiency that will make a good many fellows sit up nights before another year rolls around, we fear.

Notwithstanding the efforts to belittle the Decatur basketball team, they will go to Purdue with the good wishes of hundreds of loyal boosters and good sports from this district. They will do their very best to defend the championship and that's all that ought to be asked of them.

During the past few weeks, fifty stock brokerage houses in New York City have suspended their liabilities reaching into the hundreds of millions and the losses to individuals being rather serious. It will be just as well now that they are out to keep them out for after all just what good are they to the country. They are after all just licensed gambling houses.

The president is back to a sales tax or no bonus for the soldiers. Every few days some one discovers a new way of paying this bill, present it to the president and then after he has announced his approval along comes the great Mr. Mellon and declares it won't work and then the president goes back to the sales tax which he knows the people won't stand for and

Congress don't dare to pass. And the railroads got theirs without any bother at all.

The regular meeting of the Jefferson club on Friday of this week should be well attended. There will be several local speakers and an interesting talk by Hon. F. A. Bolser of New Castle, a candidate for secretary of state and one of the leading democrats of the middle west. He will have interesting data to give you and the meeting will be an important one. Be sure to attend.

Candidates for county and township offices should remember that unless their declarations of candidacy is filed before April 2nd for judicial and legislative offices, must file with the county clerk while they file with the secretary of state. In this county only six candidates have filed for county offices and eight for township places, though it is known that several others are expected to enter.

Babe Ruth, it is announced has signed a five year contract with the New York Yankees at a salary of \$75,000 per year and a bonus of \$500 for each home run, making a total of about \$100,000 for hitting fifty home runs a year is just like picking peaches for Babe. This gives him, by far the greatest salary ever known in sporting circles. It exceeds that paid the president and almost puts him in a class with Will Hays.

W. J. Bryan has reconsidered and will be a candidate for United States senator from Florida provided sufficient signers are secured to his petition and to encourage the move towards him he will make a speech in every county in that state. When the boy from the Platte is not running for office its because he is where there are no offices. At that if he gets in the senate the world will know he is there and that's more than can be said of the gentleman now holding the job from Florida.

Already many housewives are giving spring house-cleaning problems attention. And as usual the biggest problem of all is how to get rid of a lot of stuff that has accumulated, and for which new things will be purchased. We want to suggest that this season housewives of this community lay aside their worries about second-hand articles, and let this paper dispose of them. Surely there is someone who would like to have the very

BEWARE OF HEAVY LOADS

Indianapolis, March 8.—Mild temperature and the resulting softening of dirt roads, together with the hauling of heavy loads over the thoroughfares has caused great damage in many parts of the state, according to information reaching the state highway department from many parts of Indiana.

The department, therefore, with spring near at hand, is calling attention to the law governing the use of highways and which provides for a fine of not less than \$5 and not more than \$50 in case of conviction is brought about.

Section 2313 of Burns Revised Statutes of Indiana, 1913, provides that "it shall be unlawful for any person to haul heavy loads or weights, particularly specified, over any turnpike macadam or gravel road at any time when the road is thawing or when the road because of wet weather is in condition to be cut up and damaged by heavy hauling on vehicles with tires of stated widths, and any person violating any provision of this section shall on conviction be fined not less than \$5, not more than \$50 for each load so hauled."

In addition to the right of any person to sue for prosecution by affidavit as in other cases the statute further provides that any road superintendent shall have police power to arrest on sight any person who is seen violating the law. Provision for a \$2 fee for each arrest, if successfully prosecuted, for the officer making the arrest, is made in the Statute.

SON RUINS FATHER

Hartford City, Ind., March 7.—James W. Philabaum, son of Henry Philabaum, prominent Blackford county resident, was bound over to the circuit court yesterday on a charge of forgery.

Henry Philabaum, the father is practically penniless in an effort to cover up the son's forgeries, and at the end of his string, is able to do no more.

The young man was arrested on his return from Arkansas. He is alleged to have forged his father's name to notes totaling \$5,497.99, and ranging from \$80.52 to \$1000. These notes were held by Muncie, Hartford City, Montpelier and other banks in that community.

Miss Madge Hite who has been ill with lagrippe for the past three weeks remains about the same.

ON THE WATER WAGON

By CLARENCE DUBOSE
(United Press Staff Correspondent.)
Tokio.—(By Mail to the United Press).—The Acting Emperor of Japan is on the water wagon.

Some of the Tokio papers are predicting that this new fashion is the forerunner of prohibition at the Imperial Court.

The "Chuo," one of the dailies here, recently made this statement:

"The Price Regent has not touched alcoholic drink since his recent European tour. He merely lifts his glass to his lips at toasts. Prince Kan-in, following his example, has not touched alcohol since last spring."

The paper draws the conclusion that the "formal adoption of prohibition at the Court would seem to be only a matter of time."

However, the sake hounds don't seem to be worried and some of the breweries are building extensions.

HOW TWO WOMEN ESCAPED OPERATIONS

Doctor Advised Use of Lydia E. Pinkham's Vegetable Compound

Happy Results in Both Cases

St. Joseph, Missouri.—"Both of my sides swelled and hurt me so that I could not move or do any of my work. There was heavy pressure and pains through my lower organs and the doctor told me to try Lydia E. Pinkham's Vegetable Compound for these troubles. He said I had this one chance, and if the Vegetable Compound did not help me nothing but an operation would. After taking several bottles I felt it was helping me and now I am able to do my own work. If my testimonial will help others I shall be glad for them to read it and hope your Vegetable Compound will do them as much good as it did me."

White Plains, N. Y.—"I had such a pain that I could hardly walk and the doctor said that I needed an operation. I was sick for a year before I started taking your medicine and I could not work. I saw your advertisement in a little book and that is how I came to take Lydia E. Pinkham's medicines. I have been taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine, also Lydia E. Pinkham's Liver Pills and used Lydia E. Pinkham's Sanative Wash and the capsules and prescription recommended. I am doing all my work and have gained twenty pounds. I am taking the medicines still, but I feel fine. You have my permission to use this letter for the good of others."

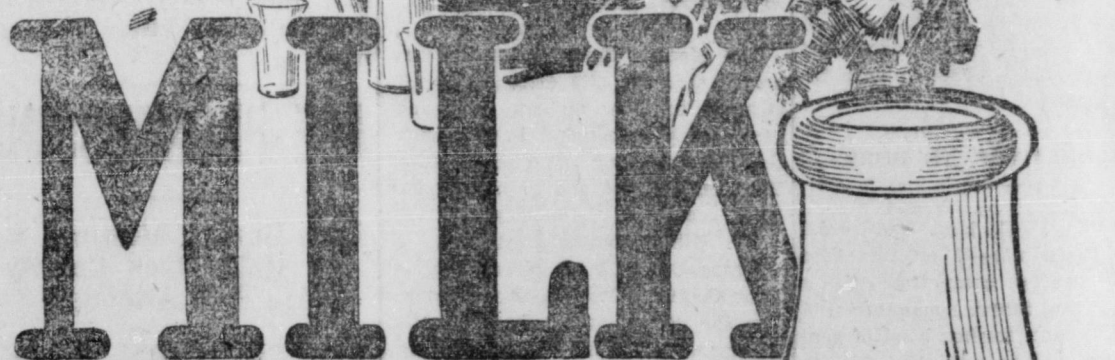

—Mrs. MARY MARK, 37 Hamilton Ave., White Plains, N. Y.

Some female troubles may through neglect reach a stage when an operation is necessary. But most of the commoner ailments are not the surgical ones; they are not caused by serious displacements, tumors, or growths, although the symptoms may appear the same.

When distressing ailments first appear, take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. Many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to the Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

HAVE YOU HAD YOUR MILK TODAY?

JUST a "bite of milk," after the movie show or evening outing, makes children and grown-ups too, rest soundly, healthfully. Mothers will do well to allay that bedtime hunger with milk. Wonderfully wholesome and easily digestible.

The Milk Way Is the Health Way

Dr. E. V. McCollum, foremost American authority on child food problems says:

"Every household in which there are children should be a household in which there is milk in abundance."

Science has proved that milk alone contains all the essentials necessary for life, health and growth.

Without milk, Dr. McCollum tells us, children cannot attain the full mental and physical growth so necessary to their future success.

There is no substitute for milk but in itself milk is a substitute for all foods. Science has demonstrated that milk is our protective food; that it makes good the deficiencies of whatever else we choose to eat.

Feed your family milk—at least a quart of milk per day per child.
