Sellemeyer; playlet, "Mrs. Jenkins' Brilliant Idea"; piano solo, Celia Andrews.

ARE PICKING UP

(Continued from page one)

to this they are equipping all of their machinery with motors and will enter the packing business on a much larger scale. Within a short time they expect to start their artificial ice plant and which will be operated night and day. The company employs 25 men and with the increased business expect to add six or eight more to their list.

The Decatur Catsings Co., at present employ 75 men and are operating every day. Mr. Cowan, the local manager, states that orders are coming in nice shape and that prospects are exceptionally good for a steady run. Over 200 women and men are being furnished with employment at the General Electric plant and with the proposed increase of production to begin the first of the month, a large number of new employees will be added to the pay-roll.

Krick, Tyndall & Co., state that at the present they are operating on part time only but that within the next month or six weeks they will be in position to being full time operation and which will mean the employing of a considerable amount of new labor. Viewing the situation as a whole, conditions are far more favorable looking than at any time in the past and it is believed that the next few months will see a decided change for the better in the industrial situation of this community.

HIGH SCHOOL NEWS

The Adams county high school discussion league will have a debate tomorrow evening at Pleasant Mills. Clyde Myers represents the local school and a number of students will drive over from here to aid to his support. The judges include Mrs. Faye Smith Knapp, of this city; Supt. C. O. Lehman of Berne, and Supt. Don Collum of Geneva. The debate will commence at 8 o'clock promptly.

The county spelling match will take place this Friday, the 7th and 8th grades spelling in the court house while the 5th and 6th grades will spell in the gym. Both matches will begin promptly at 7:30 with ten cents as the price of admission. All money will be converted into dictionaries.

Rev. Elliker spent yesterday afternoon and evening in Fort Wayne. Mrs. Fred Hauer visited in Fort Wayne yesterday afternoon and evening.

ARE COMING IN

Many Candidates Are Taking Advantage of Last Few Days to File

THEIR DECLARATIONS

April 1st Ends the Period Allotted by Law in Which to File Names.

With the final days of the period allotted to candidates for county offices to file their declarations with County Clerk Kelly drawing near at hand, many aspirants for a place on the ballots at the primary election to be held Tuesday, May 2, are bringing in the necessary blanks required by the statutes.

Committeemen and delegates to the state convention have until April 12, but all other candidates must file by April 1.

Those who filed their declarations today were: Democrats, M. E. Hut-ton for committeeman; L. L. Mason for constable of Wabash township; Samuel Derickson for Justice of Peace of Wabash township; George O. Staley for Justice of Peace of Wabash township; and Henry Derickson, J. A. Long and Charles N. Brown for committeemen. Republicans, Herman Pyle for assessor of Wabash township; Harry Brown for assessor of Wabash township and Josh Asby, William Farlow and John Brown for members of the advisory board.

TO REUCE CAR FARES

Chicago, March 29.—(Special to Daily Democrat)—Reduction of Chicago street car fares from 8 to 6 cents, with a charge of one cent for a transfer, has been decided upon by the Illinois commerce commission, according to reports today.

The commission will issue an order to that effect before April 1, it was learned.

The reduction, which will set on "experimental rate," of 6 cents will be announced as soon as attorneys for the street car company complete their defense in hearings now in progress before the commission. In case the 6 cent rate is found to be too high, a further reduction to 5 cents, as demanded by mayor William Hale Thomson, may be made effective.

The Mecca

TONIGHT
Admission 10 and 20 cents.

"Don't Neglect Your Wife" is a drama of San Francisco society and the wicked five points district of old New York. It is the first original screen story from the pen of one of America's greatest writers, Gertrude Atherton.

SAN JOSE SCALE BAD THIS YEAR

Lafayette, Ind., March 23.—The rapid increase of the San Jose scale in Indiana orchards the past year and the conditions which indicate a continued increase in the numbers and destructiveness of the scale the coming season, make it imperative that orchardists adopt immediate and stringent measures to control the pest, according to Prof. J. J. Davis, head of the Department of Entomology of Purdue University.

"The scale increased in incredible numbers in many Indiana orchards last year and went safely into the winter hibernating condition," said Prof. Davis, who has just returned from a trip to Southern Indiana. "The winter mortality is only slightly more than 50 per cent, much less than in normal years, which means that even in orchards now slightly infested the trees may become incited by late summer and in the heavier infested orchards, a great many trees will be killed before fall, if measures are not taken this spring, before the buds open, to fight the pest."

The treatment recommended by

Purdue for the San Jose Scale is liquid concentrate lime-sulphur, one gallon to eight of water, or a soluble or miscible oil, sold under such trade names as "Scalecide", "Scale Oil", "Orchard Brand", "Target Brand", etc., diluted according to recommendations on the container. If the oil sprays are used they must be applied before the buds open but the lime-sulphur applications can be made even up until the leaves are the size of one's thumb-nail.

If dry lime-sulphur is used, it should be diluted to no weaker strength than 20 pounds of the powder to 50 gallons of water.

Effective control of the serious scale infestation also is more or less dependent on summer spraying and that summer applications of lime-sulphur to apple, using one gallon of the liquid concentrate to forty gallons of water should not be omitted. In mid-summer even the weak lime-sulphur solution may burn the apple foliage if the temperature is above 90 degrees. Peaches are subject to summer strength commercial lime-sulphur at any time when the foliage is out.

It is important that the application

be thorough. Seldom can this be accomplished unless the trees are sprayed from both sides, spraying opposite sides on different days, if necessary, depending on the wind. Thoroughness is also dependent on the operator and if a high pressure is not obtainable, a spray rod must be used.

WRONG TEAMS GIVEN

Berne, Mar. 28, 1922.
Decatur Democrat:

Sirs: In the Saturday issue of your paper you gave a list of the successful contestants in the spelling match at Geneva and had two names given wrong. Instead of Merel Parr and Louis Haines (of B team) being as given they are both from Dist. No. 7 Monroe township and Ray Duff, teacher.

Women who wear skirts too short in Berne are subject to being fined.

RECIPE TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking An Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts, and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus causing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

Hupmobile Dealer Wanted for Adams County

We offer an excellent opportunity to an individual or firm qualified to represent the Hupmobile in this county. The steady growth of the Hupp Motor Car Corporation makes it possible for a larger distribution of cars. No cars will be more welcome in your locality than the Hupmobile.

Write or phone us for an appointment.
