Many are wondering why the "master minds" are not called to Washington to help decide the momentous problems now dividing the administration. Perhaps most of them are peeved because they haven't a place in the cabinet or anywhere else in the sun.

As advertised Dr. Arthur F. Sewer of Chicago brought to those attending the Decatur chautauqua two wonderful and inspiring messages yesterday. He was chaplain of the 7th division of the army overseas and is an inspirational speaker. His address last evening on "Twentieth century America" was delightfully optimistic and entertaining and pleased the big audience.

An event of considerable interest to day is the graduation of the class of twenty students from the Repper Auction School. The class while small has been one of the best one in the history of the school. The boys have worked hard and have made good. By their gentlemanly action while here and their aptitude to meet people they have made many friends who wish them every success in the world.

We believe there is no doubt that those who have attended chautauqua this week have been more than pleased with their investment. The first sale of tickets last evening resulted in disposing of 437 adult tickets for next year. It is desired to sell 750 that the program may even be improved and those who have the best interests of the community at heart should gladly invest. You have one more opportunity.

Next week comes the big fair, important for this county because it is the greatest advertisement of its kind we have. Every one within a radius of many miles knows about the Northern Indiana fair and how clear it is conducted. It's a great week for the people of this section and this year promises to be the best ever. Decatur people are urged to decorate and to boost the fair and the community. It all helps. Most business places will close at noon several days.

The retail coal dealers of Decatur deserve the greatest commendation for the manner in which they have held down the prices to the consumers of this community. Right now we understand they are selling coal for much less than they could buy it on the market, in some cases almost half. The loss is theirs and too often we do not give credit in such cases. These men, and they have not even mentioned it to us, are showing their bigness and their unselfish desires to be real citizens in the best community on earth. Tell them so.

The strike situation seems improved today and the efforts of the administration officers will probably result in such action as at least temporarily to close the strike while settlement of the questions are pending. It's certainly time and most of the people who are now beginning to feel the results are wondering why this effort wasn't made sooner. However an end to the disagreeable and inconvenient contest between labor and capital, the tieup of traffic and the closing of factories and shops and utilities will be gladly and thankfully accepted. Go on and do it and let nothing stop you that is fair and just.

We have never been able to understand just what good a professor or any one else gets out of climbing the highest mountain peak just to say he did it but there must be something alluring about it. Dr. Frank Wynn of Indianapolis is the latest victim. He fell from the peak of Mount Siyeh, highest in Glacier park yesterday and was of course instantly killed. As a result a useful citizen has passed and the world is no better off for his having scaled the mountain peak. Hiking is fine exercise but beyond the point of healthy endurance and safety it seems very foolish.

The new reformatory now being built near Pendleton is to be a three million dollar palace with red tile roof, pressed brick, tile floor, baths, every modern convenience, a place far more comfortable than the average criminal has been used to or most of the rest of us in fact. It seems a waste of money to thus spend the people's money to take care of law violators. During the administration of Mr. Ralston the penal farm reformatory was erected to take care of 750 men at a cost of \$100,000 which is one third of the amount now being lavished to take care of law violators. We step a fast pace these days and some times it would seem a very foolish one. Prisoners should be given decent treatment but not luxuries if crime is to diminish.
