PEACE NEAR IN THE INDIANA COAL WAR
Terre Haute, Ind., Aug. 22—(Special to Daily Democrat)—A complete coal mine peace in Indiana was a step nearer today as negotiations were resumed between miners and operators.

The operators' association authorized its scale committee to "use your own judgment" in acting on a settlement, and the conference today was cut down to a joint sub-committee meeting, instead of joint conference of the entire scale committees.

New York Stock Exchange
New York, Aug. 22—Profit taking caused considerable irregularity during early trading on the New York stock exchange today. The feeling in professional circles was that five consecutive days of simultaneous new highs in the industrial and rail averages entitled the market to a little setback. The pretext for a reaction was found in the unfavorable turn in the negotiations between the shopmen and rail executives. The Canadian Pacific, New York Central, Lehigh Valley, Reading and other active rails receded a point and more from their highs on the move.

GIVES LIFE SAVING OTHERS

W. C. Gentry Escaped Injury in World War, Dies Rescuing Texas Flood Victims.

After serving with the colors in the infantry, field artillery, motor transport corps and the navy, W. C. Gentry returned from the World War to his home at Fort Worth, Tex., without having been injured. During the flood at Fort Worth in April, 1922, the American Legion called upon its members to do rescue work.

Young Gentry was one of the first to present himself at the Legion office. During the first few hours he was in the flood district Gentry rescued six persons. While swimming toward the levee, after carrying a woman to safety, he became entangled in a barbed-wire fence which had come to the surface of the water. He called to a companion for help, but the companion was too nearly exhausted to save him. The surging waters from which he had saved others soon engulfed him.

Mayor E. R. Cockrell of Fort Worth urged his fellow citizens to erect a fitting memorial to the young man who had unselfishly given his life for his fellow men.

WHEN ONLY FOUR HOURS OLD

Miss Rosalie Carol Larson of Worthington, Minn., Probably Youngest Auxiliary Member.

Fortunately, there are no age requirements for membership in the American Legion Auxiliary. A number of grandmothers were among the charter members of the organization in Minnesota. On the other hand, there are several young women who may say that they have belonged to the Auxiliary all their lives. Little Rosalie Carol Larson of Worthington, Minn., was admitted to membership when she was exactly four hours old. No, she didn't apply for the honor, it was just conferred upon her.

Rosalie's father, Warner Larson, served with the Twenty-ninth division, and her mother received her diploma as a graduate nurse after volunteering for service with the American Red Cross.

THE FLOWERS OF THE LEGION

American Daisy and French Poppy Official Posies of Both Branches of the Organization.

There has been some confusion in the minds of Americans in general as to the status of the daisy and the poppy in connection with the American Legion and the American Legion Auxiliary.

The daisy is the Legion's official flower; the poppy is the Auxiliary's memorial flower. The misunderstanding arose in the first place, because in its early days the Legion did adopt the poppy of France as its flower. But at its Kansas City convention the American Legion adopted the daisy as its official flower on the grounds that the daisy is an American flower and the poppy of Flanders is available for use only in artificial form.

The Legion Auxiliary has taken advantage of the very fact that the poppy is not available as a real flower to buy artificial flowers made by disabled soldiers in hospitals. The Massachusetts Legion and Auxiliary netted something over \$40,000 from the sale of artificial poppies, last winter. This money was used to better the conditions of sick and needy veterans of the World War.

The Legion is making every effort to interest the children of America in the cultivation of flowers by appealing to their patriotism and to their natural affection for such a flower as the American Legion's American daisy.

Carrying On With the American Legion

Former service men in Pennsylvania received \$40,000 in claims from the government in one month through the efforts of the Pennsylvania American Legion.

A giant new bridge will span the historic Charles river at Boston, Mass., serving as a memorial to the Massachusetts dead who lost their lives in the World War.

Australia's heroes of the World War were honored on Anzac day, when religious services, soldiers' reunions and public meetings were held throughout the commonwealth.

A freak pretending to be half baboon and half woman, giving America as her home and declaring that there are many more like her in this country, attracted considerable attention in a Constantinople (Turkey) street carnival, until American Legion members had the act suppressed.

DISSENTION IS HINDRANCE TO RAILWAY PEACE

(Continued from page one)

seniority issue if the walkout of shop workers is to be settled, one of the leading labor figures in the strike told the United Press today.

Unless the managements are prepared to concede the shopmen's demands for restoration of seniority rights, the peace conference of brotherhood leaders and railroad executives in New York tomorrow, will be futile, he said.

Fresh obstacles to rail and coal peace developed today, dimming prospects of immediate resumption of work.

Eastern railway executives announced themselves as unalterably opposed to settlement of the shop crafts strike on a basis that would restore to the men their seniority rights. This is understood to have been the proposal of the "Big Four" mediators submitted for consideration of the 148 railway presidents who will meet in New York tomorrow.

The peace conference tomorrow will fail unless carrier heads accept defeat on this issue, a leading labor man declared in Washington.

Anthracite miners' representatives in conferences with operators at Philadelphia to end the long hard coal walkout have split among themselves with Chris Golden, a district leader, threatening to stampede.

John L. Lewis, president of the United Mine Workers, still was hopeful today of a settlement, although he delivered a strong ultimatum to the owners regarding terms of agreement.

Walkouts by brotherhood rail workers on the Southern railway and at shops at Spencer, because of guards, were reported.
