**Women Leaders of World to  
Meet in the United States**

Washington, Oct. 2.—(United Press)—A world council of women will meet in the United States in 1925. Women leaders from practically every civilized land will visit America at that time, guests of the National Council of Women of which the General Federation of Women's Clubs is a part.

Plans for the quinquennial of the International Council of Women which is the first meeting of this body ever scheduled for America were launched immediately upon the receipt recently of a cablegram to Mrs. Moore, announcing the decision of the executive committee of the International Council of Women at The Hague, to accept the invitation of the United States council to hold its 1925 meeting in Washington, D. C.

In order to ensure the presence of women from every one of its foreign organizations at the Norwegian quinquennial in 1920, an appropriation of 40,000 kroner from the Storting was secured to help defray the expenses of the delegates from Iceland, Ukraine, Greece, Serbia and Austria.

In keeping with this precedent the United States Council of Women will proceed to take the necessary steps to appeal to congress to either furnish transportation or to charter a special steamship liner to place at the disposal of the foreign delegation.

The international council is composed of leaders of the national organizations of 28 countries, including the United States.

The objects of the international council are:  
An international propaganda to make permanent peace possible by removing misunderstandings and political obstacles, thus removing cause for future wars.

To make women's vote count for the prevention of world catastrophe.

To raise the political status of women.

To better the condition of children and women everywhere.

To substitute sympathy and justice and faith between nations for tanks and poison gas and international suspicion.

It is believed that the meeting will bring together for the first time practically all of the great women leaders of the world.

The National Council of Women, Inc., of the United States of America, which will be official hostess, was founded by Susan B. Anthony.

**MALE AND FEMALE FARMERS  
IN UNITED STATES**

Of the 6,448,366 farmers in the United States 6,186,813 are male and 261,553 (4.1 per cent) are female, according to one of The World Almanac census summaries.

Of the owner-farmers 3,737,326 are males, 18,779 females; of the managers 7,762 are male, 763 female; of the tenant farmers 2,331,725 are male and 73,021 female.

Of the total farm acreage males operate 929,878,145 acres; females 25,798,400 acres.

Of the 2,454,746 tenant farmers (1920) 1,117,730 tilled on shares; 561,005 (in the South) were "croppers;" 127,834 were on share-cash basis; 480,027 were cash tenants and 104,987 (in the South) were standing renters. Tenant farmers in 1910 numbered 2,354,676.

Native white farmers were 76.3 per cent of all farmers in 1920, as against 75 per cent in 1910; foreign born white farmers were 9 per cent; as against 10.5 per cent in 1910; colored farmers 14.7 per cent, as against 14.5 per cent.

In New York State in 1920 foreign born white farmers were 13.3 per cent of all farmers, as against 12.5 per cent in 1910.

sources of accidents on the roads to collect statistical data in order to bring changes which will reduce the mishaps.

The inspectors, or highway patrolmen, have gathered data on 135 wrecks in which 25 people were killed and 122 injured. These are not all the accidents which occurred on the state roads since then but the diversity of the occasions and places they occurred might represent the total number, Wertz said.

Most of the accidents were collisions forty three occurring when an auto bumped another machine. Fifteen were caused by machines hitting trees, going into side ditches and so forth. Fourteen were caused by machines running into fences and telephone poles. Four cars collided with trains.

Sharp curves and narrow roads contributed to the cause of fifty-five accidents. Drunken drivers caused 16.

Accidents caused by intoxication increased steadily since the first figures were gathered. From Aug. 5, 1920, to March 3, 1922 only one accident was due to intoxication. Since the latter date, however, drunkenness caused fifteen.

**BIG EATERS GET  
KIDNEY TROUBLE**

Take Salts at first sign of Bladder irritation or Back-ache.

The American men and women must guard constantly against kidney trouble, because we eat often too much rich meat and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

Wen your kidneys feel like lumps of lead; your back hurts or the urine is cloudy; full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headaches, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus often ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia water beverage and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Eat at Ward's restaurant, Liberty Way—Meals, 35c; lunches, 25c; oysters in season.

ROADSTER

LIGHT-SIX

COUPE-ROADSTER

\$975

\$1225

The Studebaker Light-Six Roadster and Coupe-Roadster were primarily built for business use. In meeting the urgent demands of business, they naturally have fulfilled the needs of the small family.

Each is built for hard usage, day in and day out. And as they are completely Studebaker built—you know they will stand up under hard going.

The bodies are attractive, roomy and thoroughly comfortable for all-day travel. Ample

luggage space is provided under the rear decks.

There's an internal hot-spot to reduce gasoline consumption to a minimum. Valves are inclined at a 20 degree angle to give a new measure of power, greater flexibility and better acceleration. Crank shaft and connecting rods are machined on all surfaces, thus eliminating vibration and insuring longer life to the motor.

Studebaker low prices are made possible by great volume and complete manufacture. Studebaker quality is traditional.

The Studebaker Light-Six Coupe-Roadster seats two passengers; has side coach lamps; rain visor and windshield wiper; eight-day clock.

The three-passenger Roadster has cowl lights; storm curtains opening with the doors; large plate-glass window in rear curtain, and inside and outside door handles.

Both models are upholstered in genuine leather; have ample space under the rear deck for luggage; ignition and thief-proof transmission locks, and cowl ventilator.
