Interest rate 5 1/2%.  
Loans may be made for 34 1/2 years. The borrower pays \$32.50 per thousand semi-annually. This payment includes the interest and such sum for the application on the principal so that the loan will be paid off at the end of 34 1/2 years. A mortgage that never comes due. A mortgage that furnishes peace of mind for the borrower. Loan may be paid off in full or in part at any interest paying time after five years. Payments may also be made before the expiration of five years by special arrangement. The law forbids the charge of any commission to the borrower. The only expense the borrower must pay is the cost of appraising, examination of title and recording charge imposed by law. No commission, no red tape, no delay.
